AT-205 RE-SEAL®

- Power Steering
- Engine
- Transmission
- Differential
- Any hydraulic system (except Brake) including jacks, lifts, plows, industrial equipment, etc.
- AT-205 is a special plasticizer which softens and expands hydraulic seals to stop leaks.
- AT-205 does not contain any petroleum distillates.
- AT-205 will also restore sunroof seals, wiper blades and any rubber-based item (will not work on nylon or plastics).
- AT-205 works quickly (engine main seals will require (5) hours of running time) and will not cause the seal to become gummy and eventually break down like other products.
- Installers can treat any new seals “o” rings, etc. to ensure a quality, leak-free rebuild. New seals, etc. actually shrink as they sit in a box in inventory. Just swab on AT-205 and install!

Recommended Application Amounts

- Power steering: 1/3 bottle
- Engine: (1) 8 oz. bottle
- Transmission: (1) 8 oz. bottle
- Differential: 1/3 bottle
- Other hydraulic equipment: (1) 8 oz. bottle (per 3 gallon capacity)
- Seals, “o” rings, etc.: Swab on
- Wiper blades: swab on, do not use wipers for 2 hours.

Zeo-Trap

THE LAST ODOR ELIMINATOR YOU WILL EVER NEED!

■ RENEWABLE

Zeo-Trap, ***THE LAST ODOR ELIMINATOR AND MOISTURE CONTROLLER YOU WILL EVER NEED!*** Zeolite can be regenerated by placing the pouch in the sun. Every 9-10 months, place the pouch in direct sunlight for 8 hours. Zeolite eliminates smoking, food, diaper, sweat, pet vinyl, and plastic out-gassing (new car smell) odors.

■ ALL NATURAL

ATP's ***NEW AND IMPROVED*** Zeo-Trap is manufactured from the finest Zeolite deposits in the world. Zeolite is a mineral formed from microporous volcanic ash. The negatively ionic charged zeolite attracts the positively charged odor particles. Zeolite ADSORBS (an electrical process) the odors. Zeolite also ABSORBS (a mechanical process) moisture. Zeolite **TRAPS** the odor molecules. ATP's ***NEW AND IMPROVED*** Zeo-Trap has a higher absorption rate than ever before.

■ ECO-SAFE

Zeolite is Non-Toxic - will not cause allergic reaction or sensitivities to perfumes or chemical additives. Zeolite is EPA approved to be disposed with normal household waste. However, in some jurisdictions local rules may apply.

- Place Under the Seat or in the Trunk wherever odors exist.

Zeo-Trap ATP Part No. 1

Includes: One- 2 lb. NEW Tyvek® pouch which eliminates "dusting" and is enclosed in the new sealed, full-color consumer packaging which ensures the pouch will remain moisture and odor free until opened!

Remanufactured 8.25" Front Differentials For 1992-06 GM Vehicles With Independent Front Suspension

No longer available from the car dealer as new

- Brand new units are no longer available. ATP's fully remanufactured differentials offer the best alternative to bench rebuilding the unit or buying used. Our units are ready to install, just add 3.5 pints of SAE 75W-90 Synthetic Axle Lubricant. Precision remanufactured units backed by a 5 year 100,000 mile warranty.
- Carefully inspected and then totally reconditioned to meet original specifications. All units supplied with new bearings and seals. Additional parts such as ring and pinion, inner case, and other internal parts are rigorously, thoroughly tested and replaced if out of O.E. specifications. No core program.
- You can sell the core for additional profit! Plus, you save time and hassle by not returning the core. All ratios available.
- Ratios of 3.42, 3.73, and 4.10 are available, depending on application.
