AUTOMATIC TRANSMISSION PARTS • CATALOG NO. AT-2011 • JANUARY, 2011

NEW! Inventory Solutions With Quality ATP Chemicals

ATP Part No.: AT-214 • 64 Fl. Oz.
Multi-Vehicle Power Steering Fluid

Synthetic Power Steering Fluid Formulated For *ALL* Power Steering Systems Including Those Using CHF Pentosin Fluid *(European Vehicles)*

- Prevents Corrosion, Wear And Oxidation
- Outstanding Temperature Performance
- Excellent Shear Stability
- Superior Performance
- Professional Size For Full Flush And Fill Service

ATP Part No.: AT-216 • 1 Quart
ATP Solution Simple™ Synthetic Multi-vehicle Automatic Transmission Fluid

- Premium Fluid For Virtually *ALL* Automatic Transmissions
- Formulated For Use In Domestic And Import Vehicles
- Provides Exceptional Stability In Extreme Low And High Temperature Operation
- Reduces Wear And Deposits Under Normal And Severe Duty Conditions
- Backward Compatible With Older ATFs — **NOT** For Use In CVT Or Type F Applications

ATP Part No.: AT-215 • 1 Quart
CVT (Continuously Variable Transmission) Fluid

- Use In *ALL* CVT Applications
- Excellent Metal To Metal Friction Performance
- Excellent Low Temperature Fluidity

ATP Part No.: AT-218 • 16 Fl. Oz.
ATP Multi-Service Flush & Conditioner
For Engine, Transmission & Power Steering Systems

- Safely Removes Sludge, Varnish And Contaminants — Contains NO Harsh, Damaging Solvents Or Alcohol
- Prepares Seals And System For New Lubricants
- Pre-Measure Bottle Allows The Correct Amount To Be Measured And Dispensed
- Use With Or Without Fluid Exchange Machines

HOW TO USE THE ATP TRANSMISSION CATALOG

IF YOU KNOW THE TRANSMISSION NAME

USE CATALOG INDEX BY: TRANSMISSION NAME

Find the transmission model and year, and follow it across the page to the corresponding parts page number.

AMERICAN MOTORS CORPORATION

YEAR	TRANSMISSION MODEL	PARTS PAGE	ILLUS. PAGE
1972-82	TORQUE-COMMAND "904"	148	142
1972-78	TORQUE-COMMAND "727"	144	142
1962-71	SHIFT-COMMAND	+	+
1956-71	FLASH-O-MATIC	+	+

IF YOU DON'T KNOW THE TRANSMISSION NAME

USE CATALOG INDEX BY: MAKE, MODEL, YEAR & ENGINE

This **INDEX** lists *all* possible automatic transmissions a particular vehicle used.

1 OLDSMOBILE — cont'd

MODEL	YEAR	ENGINE	TRANSMISSION	PARTS PAGE	ILLUS. PAGE
STARFIRE	1965-66	All	TH-400	252	250
	1975-76 **2**	All	TH-350	238	234
	1977-79	140	TH-350	238	234
	1977-80	231, 305	**3** TH-200	228	226
			TH-350	238	234

1. Find the make and model.
2. Find the year, engine and transmission, follow it across the page to the corresponding parts page number.
3. If the section you're in is shaded, it means there is more than one possible transmission for this application.
4. The appropriate filter kit and transmission fluid supplement is also listed for your convenience.
5. For further identification, use the transmission or pan & filter identifiers. This will help you take the guess work out of proper identification.

atp professional auto parts

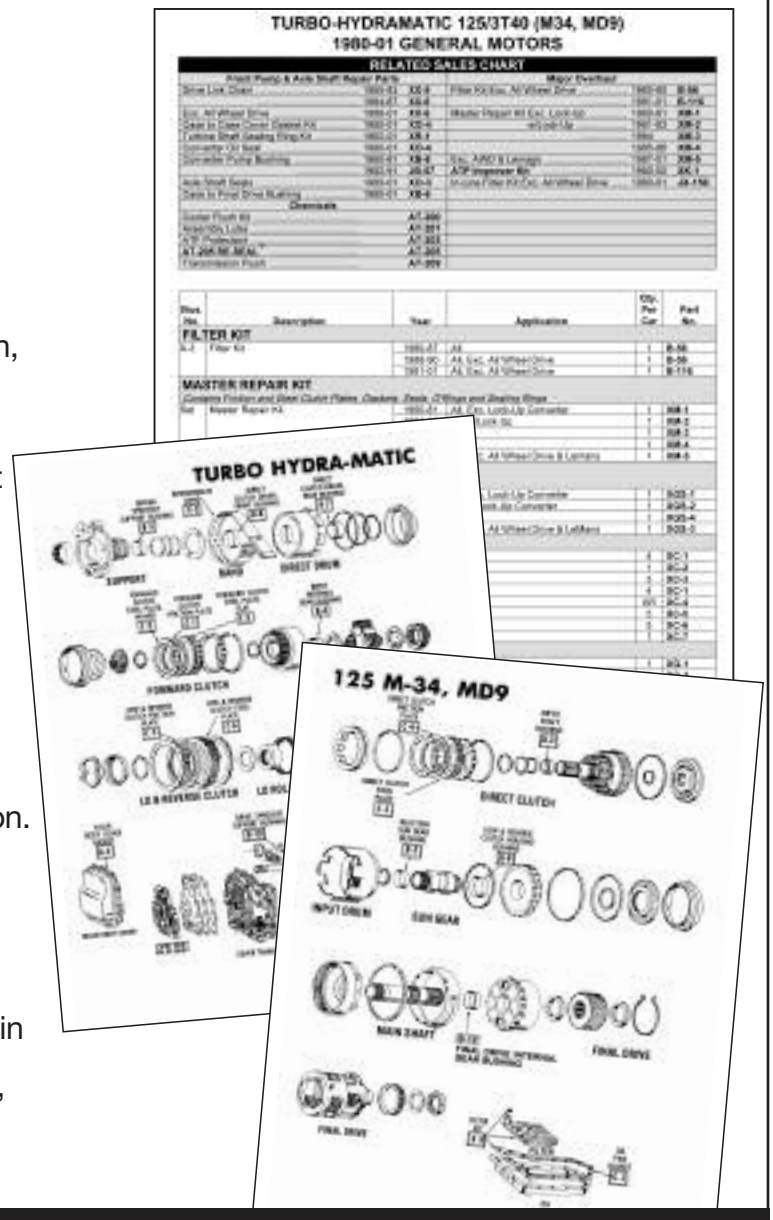

USING THE ATP TRANSMISSION CATALOG

PARTS PAGES

1. Find the correct parts page by using either the transmission name or the make, model, year, engine index.
2. Find the correct group heading.
3. Find the correct parts by: description, year, application and quantity per vehicle.
4. Use the RELATED SALES CHART at the top of each transmission listing. This chart groups related parts that should be replaced when one is being replaced.

Always order by part number.

Parts are “Keyed” with illustration numbers that refer to parts pictured in the exploded view of the transmission. These are “ROAD MAPS.”

ROAD MAPS

“ROAD MAPS” are so called because they map out the transmission gear train sequence. Available sale parts have illustration numbers, these are “Keyed” to the part listed on the parts page.

THE ATP CATALOG SYSTEM

The ATP catalog system consists of three catalogs.

- TRANSMISSION PARTS CATALOG. Contains a complete line of transmission parts: filter kits, modulators, master repair kits, seals, gaskets, bushings, shift kits, etc.
- REPLACEMENT PARTS CATALOG. Contains a complete line of exhaust manifold kits, heat risers, harmonic balancers, intake manifold kits, timing covers, engine oil pans, transmission pans, and front bearing retainers. Also contains a complete line of cables, flywheels, ring gears, and clutch forks.
- INTERIOR VENTILATION FILTER CATALOG.

w/o	Without	Sin	Sans

If the only known engine size is in Liters, it can be easily converted to Cubic Inch Displacement (C.I.D.) by using the following formula:
Liters ÷ .016395 = Cubic Inch Displacement
EXAMPLE: 5 Liters ÷ .016395 = 304.9 or 305 C.I.D.
If the only known engine size is in Cubic Inch Displacement, it can be easily converted to Liters by using the following formula:
Cubic Inch Displacement x .016395 = Liters
EXAMPLE: 305 C.I.D. x .016395 = 5 Liters

41TES	2009	ATF Plus 4	4 quarts	3.8 liters	
42LE	1993-04	ATF Plus	9.9 quarts- Total Fill Capacity	9.4 liters- Total Fill Capacity	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
42RE	1993-04	ATF Plus 4	4 quarts	3.8	
42RLE	2003-10	Shell 3403 SLF	9.9 quarts–Total Fill Capacity	9.4 liters- Total Fill Capacity	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
45RFE, 5-45RFE	1999-10	ATF Plus	8 quarts	7.6 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
46RE	1994-03	ATF Plus	9.5-14.0 quarts–Total Fill Capacity	9.0-13.2 liters–Total Fill Capacity	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
47RE	1994-03	ATF Plus	10.0-16.5 quarts–Total Fill Capacity	9.5-15.6 liters–Total Fill Capacity	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
48RE	2003-08	ATF Plus	14.8-16.9 quarts–Total Fill Capacity	14-16 liters–Total Fill Capacity	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
62TE	2007-10	ATF Plus 4	5.5 quarts	5.2 liters	Use ATP Part # AT-203 Friction Modifier with Dexron III
68RFE	2007-10	ATF Plus 4	5.5-6.5 quarts	16.6 liters-Total Fill Capacity	Use ATP Part # AT-203 Friction Modifier with Dexron III
A404 (30TH), 413 (31TH), 670 (31TH), 470 (31TH)	1978-90	Dexron II, IIE	3-4 quarts	2.8-3.8 liters	Dexron III can be used in place of Dexron II, IIE
A404 (30TH), 413 (31TH), 670 (31TH), 470 (31TH)	1991-02	ATF Plus	3-4 quarts	2.8-3.8 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
A604 Ultradrive Transaxle (40TE, 40TE-AE, 41TE, 41TE-AE)	1989-90	Dexron II, IIE	4 quarts	3.8 liters	Dexron III can be used in place of Dexron II, IIE
A604 Ultradrive Transaxle (40TE, 40TE-AE, 41TE, 41TE-AE)	1991-10	ATF Plus	4 quarts	3.8 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
A618 (47RH)	1994-96	ATF Plus	4 quarts	3.8 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
A727 (36RH, 37RH) & A518 (46RH)	1962-90	Dexron II, IIE	4 quarts	3.8 liters	Dexron III can be used in place of Dexron II, IIE
A727 (36RH, 37RH) & A518 (46RH)	1991-98	ATF Plus	4 quarts	3.8 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
A904 (30RH), A998 (31RH), A999 (32RH) & A500 (40RH, 42RE, 42RH, 44RE)	1960-90	Dexron II, IIE	4 quarts	3.8 liters	Dexron III can be used in place of Dexron II, IIE
A904 (30RH), A998 (31RH), A999 (32RH) & A500 (40RH, 42RE, 42RH, 44RE)	1991-03	ATF Plus	4 quarts	3.8 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
AS68RC	2007-09	Mopar AS68RC ATF	14 quarts–Total Fill Capacity	13.2 liters–Total Fill Capacity	
AW-372, KM-148	1982-89	Dexron II, IIE	2.5 quarts	2.4 liters	Dexron III can be used in place of Dexron II, IIE
AW-4, R4AW3	1987-90	Dexron II, IIE	4.8 quarts	4.5 liters	Dexron III can be used in place of Dexron II, IIE
AW-4, R4AW3	1991-01	ATF Plus	4.8 quarts	4.5 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
Baby 904	1976-86	Dexron II, IIE	4 quarts	3.8 liters	Dexron III can be used in place of Dexron II, IIE
CVT2	2007-10	Mopar CVT Plus 4	4 quarts	3.8 liters	
F4A23-2	1993-99	Diamond ATF	6.1-6.4 quarts–Total Fill Capacity	5.8-6.0 liters–Total Fill Capacity	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
F4A32	1993-10	ATF Plus	3-4 quarts	2.8-3.8 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
F4A33-1	1991-99	ATF Plus	7.9 quarts–Total Fill Capacity	7.5 liters–Total Fill Capacity	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
F4A42	2001-05	Mitsubishi Diamond SPIII	8.1 quarts	7.7 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.

As of 1/1/2007, Dexron®VI replaced all previous versions of Dexron® As of 7/1/2007, Mercon®V replaced all previous versions of Mercon®

TRANSMISSION FLUID AND REFILL RECOMMENDATIONS

TRANSMISSION TYPE	YEARS	FLUID TYPE	APPROXIMATE REFILL AMOUNT (U.S. QUARTS)	APPROXIMATE REFILL AMOUNT (LITERS)	NOTES
CHRYSLER (INCLUDES AMC, EAGLE, AND JEEP) (continued)					
F4A51	2001-05	Mitsubishi Diamond SPIII	8.9 quarts	8.4 liters	Or Use ATP Part # AT-203 Friction Modifier with Dexron III.
KM-170, 171, 172, 175, 176, 177	1979-90	Dexron II, IIE	6.1-6.4 quarts–Total Fill Capacity	5.8-6.1 liters–Total Fill Capacity	Dexron III can be used in place of Dexron II, IIE
KM-170, 171, 172, 175, 176, 177	1991-96	Diamond ATF	6.1-6.4 quarts–Total Fill Capacity	5.8-6.1 liters–Total Fill Capacity	Use ATP Part # AT-203 Friction Modifier with Dexron III
L4N71B (JM-600)–Conquest	1984-89	Dexron II, IIE	7.3 quarts–Total Fill Capacity	6.9 liters–Total Fill Capacity	Dexron III can be used in place of Dexron II, IIE
MB-1	1983-89	Renault Fluid	2.6-3.7 quarts	2.5-3.5 liters	
NAG1, W5J400, W5A580	2002-10	ATF +4	5.3 quarts	5.0 liters	
FORD					
4EAT	1989-03	Mercon	6.0-7.2 quarts–Total Fill Capacity	5.7-6.8 liters–Total Fill Capacity	For Kia, use SP-III, or ATP Part # AT-203 Friction Modifier with Dexron III
4F20-E	1993-02	Mercon	8.8 quarts–Total Fill Capacity	8.3 liters–Total Fill Capacity	
4F27-E	2000-10	Mercon LV	7.0 quarts	6.6 liters	
4R44E, 4R55E, 5R44E, 5R55E	1995-96	Mercon	9.5-10 quarts–Total Fill Capacity	9.0-9.5 liters–Total Fill Capacity

NEW CODE EXAMPLE:

CHRYSLER CORPORATION FILTER & PAN IDENTIFIERS

"BABY 904" — RWD

B-58

1976-86
Includes TG-19 Pan Gasket

TIP: Used on cars with 4 cylinder engines. Pan has 14 bolt holes.

DEXRON IIE, Refill 4.0 Qts., 3.8L

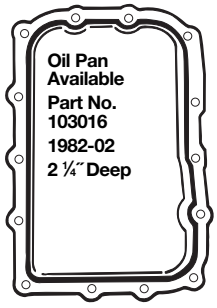

A404/413/470/670 — FWD

B-55

1978-81
1982, Early
Includes TG-18 Pan Gasket

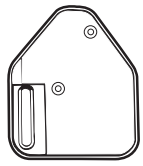

TIP: Can only be used with the 1⅞″ deep pan. Pan has 14 bolt holes.

B-71

1982, Late
1983-02
Includes TG-18 Pan Gasket

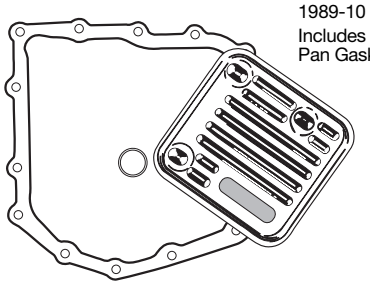

TIP: Can only be used with the 2¼″ deep pan. Pan has 14 bolt holes.

DEXRON IIE to 1990, CHRYSLER ATF Plus* from 1991, Refill 3.0-4.0 Qts., 2.8L-3.8L

A604/41TE — FWD

B-102

1989-10
Includes TG-102 Pan Gasket

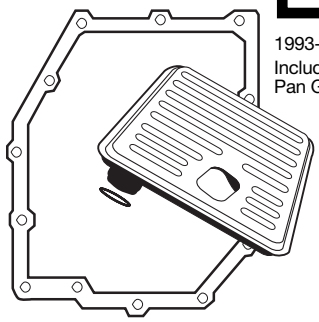

TIP: 4-speed overdrive. Pan has 14 bolt holes.

DEXRON IIE to 1990, CHRYSLER ATF Plus* from 1991, Refill 4.0 Qts., 3.8L

42LE — FWD

B-135

1993-04 ALL
Includes TG-106 Pan Gasket

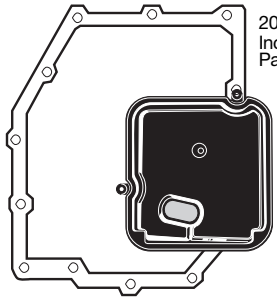

TIP: Pan has 13 bolt holes.

CHRYSLER ATF Plus*, Total Fill Capacity 9.9 Qts., 9.4L

42RLE — RWD

B-216

2003-10
Includes TG-111 Pan Gasket

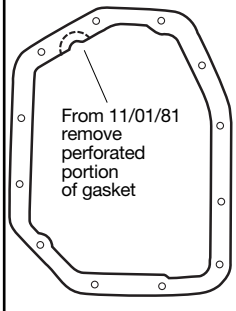

TIP: Pan has 13 bolt holes.

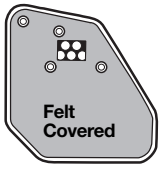

MERCEDES Fluid, Total Fill Capacity 9.9 Qts., 9.4L

KM-170/171/172/175/176/177 — FWD

B-73

1979-81
KM-170-0
Includes TG-101 Pan Gasket

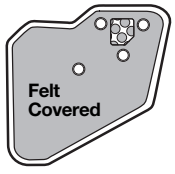

B-97

1986 Late - 1/1/92
KM-175 & 176
1987-1/1/92
KM-171
Includes TG-101 Pan Gasket

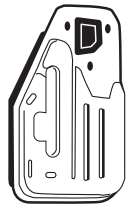

B-113

1982-86 KM-170 & 171
1984-88 KM-172-0
1985 KM-175
1986 Early KM-175
1989-91 KM-172-5
Includes TG-101 Pan Gasket

B-133

1/92-96 KM-171, 175 & 176
Includes TG-101 Pan Gasket

TIP: Pan has 12 bolt holes.

B-114

8/1/87-93
KM-177
Includes TG-103 Pan Gasket

TIP: Pan has 13 bolt holes.

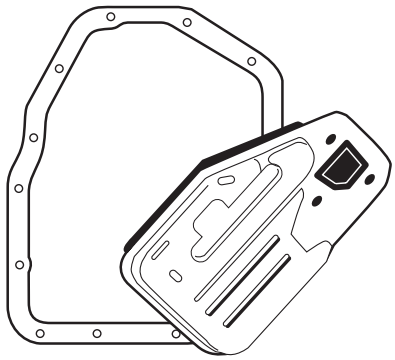

DEXRON IIE to 1990, DIAMOND ATF* from 1991, Total Fill Capacity 6.1- 6.4 Qts., 5.8L-6.1L

*Or use ATP Part #AT-203 Friction Modifier with DEXRON III.

atp
professional auto parts®

CHRYSLER CORPORATION FILTER & PAN IDENTIFIERS

F4A23-2 / FWD

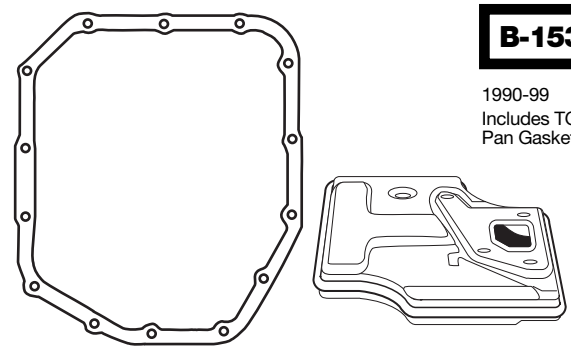

B-181

1992-99
Includes TG-103 Pan Gasket

TIP: Pan has 13 bolt holes.

Diamond ATF*, Total Fill Capacity 6.1-6.4 Qts., 5.8L-6.0L

F4A33-1 / FWD

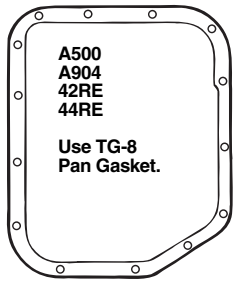

B-153

1990-99
Includes TG-107 Pan Gasket

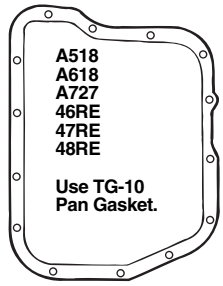

TIP: Pan has 14 bolt holes.

CHRYSLER ATF Plus*, Total Fill Capacity 7.9 Qts., 7.5L

A500, A904, A518, A727 & 44RE / RWD

TIP: Pan has the left (driver) rear corner cut off.

TIP: Right forward corner of pan "bulges" out. Drain plug is on left (driver) rear side of pan.

Oil Pan Available — Part No. 103019 (1962-98 727 Transmission)

B-30

1964-72 ALL CHRYSLER & AMC.
Includes TG-8 & TG-10 Pan Gaskets

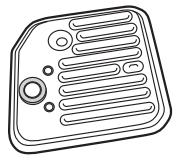

B-42

1973-97 ALL CHRYSLER & AMC
1998 A727
1998-03 A904
Includes TG-8 & TG-10 Pan Gaskets

B-175

1998-09 CHRYSLER A500, A518, A618, 42RE, 44RE, 46RE, 47RE, 48RE
Includes TG-8 & TG-10 Pan Gaskets

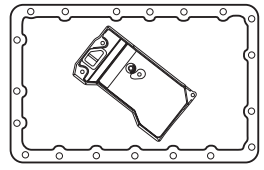

DEXRON IIE to 1990, CHRYSLER ATF Plus* from 1991, Refill 4.0 Qts., 3.8L

AW-4, R4AW3 / RWD

B-112

1987-01 JEEP
1997-98 MISTUBISHI MONTERO SPORT
Includes RG-31 Pan Gasket

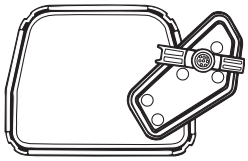

TIP: Pan has 19 bolt holes.

DEXRON IIE, Refill 4.8 Qts., 4.5L

MB-1 / FWD

B-78

AMC/RENAULT: 1983-87 ALLIANCE & ENCORE
Includes NG-6 Pan Gasket

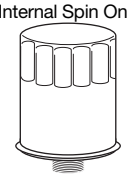

TIP: Molded Rubber Gasket.

Renault Type Fluid, Refill 2.6-3.7 Qts., 2.5L-3.5L

45RFE / RWD

B-200

1999-10 All Internal Spin On

TIP: Must remove pan to service. Requires B-196 or B-197 for complete service (not included).

B-197

1999-10 2WD
Includes TG-110 Pan Gasket

B-196

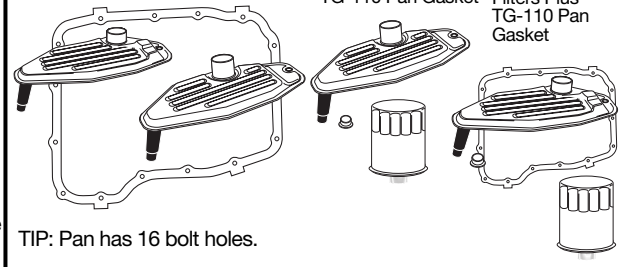

1999-10 4WD
Includes TG-110 Pan Gasket

B-245

1999-10 4WD
Includes Sump and Spin-On Filters Plus TG-110 Pan Gasket

B-246

1999-10 2WD
Includes Sump and Spin-On Filters Plus TG-110 Pan Gasket

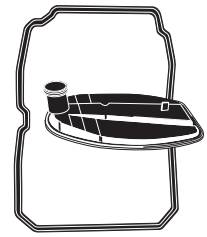

TIP: Pan has 16 bolt holes.

ATF Plus*, Refill 5.5-6.5 Qts, 5.2-6.2L; Total Fill Capacity 14.5 Qts., 14.0L

NAG1 / RWD

B-217

1996-10
Includes MG-4 Pan Gasket

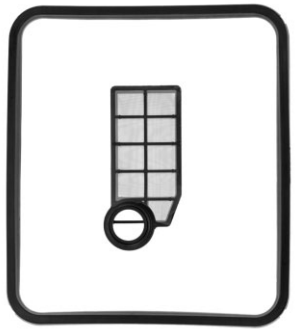

TIP: Molded rubber gasket.

AT-216 Fluid, Refill 5.3 Qts., 5L

*Or use ATP Part #AT-203 Friction Modifier with DEXRON III.

CHRYSLER CORPORATION FILTER & PAN IDENTIFIERS

ZF4HP18FL

B-342

1988-92
Dodge, Eagle
Includes NG-38
Pan Gasket

TIP: Molded rubber gasket.

**MERCON, AT-216 Synthetic Trans Fluid,
Total Fill Capacity 4.0 Qts., 3.8L**

62TE / FWD, AWD

B-350

2007-10
Chrysler, Dodge,
& Volkswagen

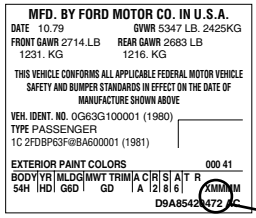

TIP: No pan gasket.

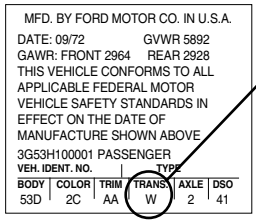

CHRYSLER ATF Plus*, Total Fill Capacity 5.5 Qts., 4.7L

*Or use ATP Part #AT-203 Friction Modifier with DEXRON III.

1986-88 w/2WD
Includes FG-200 Pan Gasket

B-94

1986-95 ALL, w/4WD
EXC.1995 EXPLORER & RANGER
Includes FG-200 Pan Gasket

B-107

1989-95 ALL, w/2WD
EXC.1995 EXPLORER & RANGER
Includes FG-200 Pan Gasket

TIP: Pan has 18 bolt holes.

DEXRON IIE to 1987, MERCON from 1988, Total Fill 9.7 Qts., 9.2L 2WD, Total Fill 10.0 Qts., 9.5L 4WD.

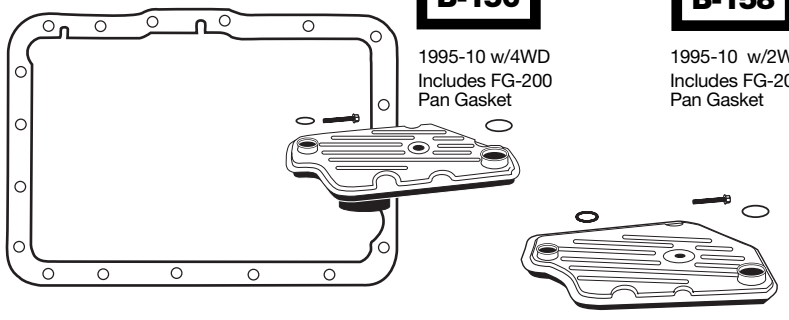

4R44E, 4R55E, 5R44E, 5R55E / RWD

B-156

1995-10 w/4WD
Includes FG-200 Pan Gasket

B-158

1995-10 w/2WD
Includes FG-200 Pan Gasket

TIP: Fully electronic — wiring harness plugs into case connector on driver's side of transmission. Pan has 18 bolt holes.

MERCON to 1996, MERCON V from 1997. Total Fill Capacity 9.5-10.0 Qts., 9.0L-9.5L**

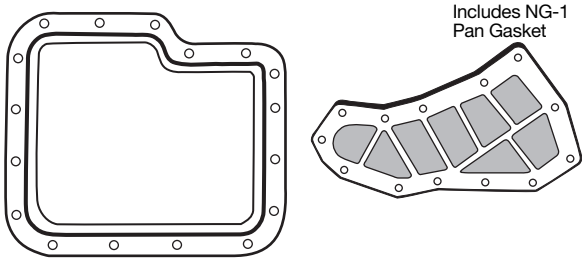

*Or use ATP Part #AT-203 Friction Modifier with DEXRON III. **Or use ATP Part #AT-206 M Five Alternate with DEXRON III.

FORD MOTOR COMPANY FILTER & PAN IDENTIFIERS

JATCO | RWD

B-57

1977-80
Includes NG-1
Pan Gasket

Tip: Granadas & Monarchs, pan has 17 bolt holes.

DEXRON IIE, Total Fill Capacity 6.3 Qts., 6.0L

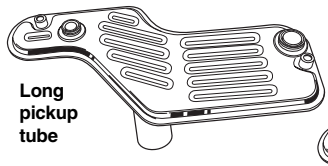

5R55S/W | RWD

B-212

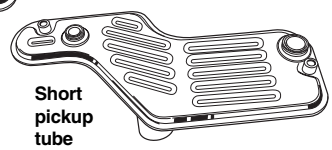

2002-10 AVIATOR
EXPLORER
MOUNTAINEER

B-219

2003-05
THUNDERBIRD
2003-06 LINCOLN LS
2005-10 MUSTANG

Long pickup tube

Short pickup tube

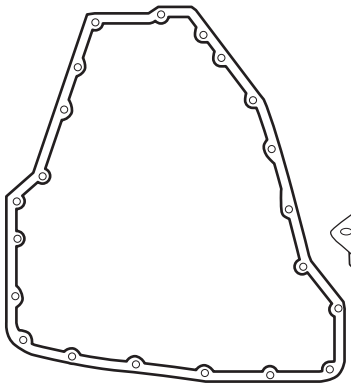

Tip: No pan gasket included.

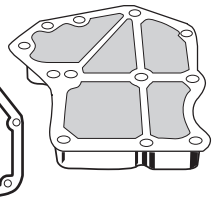

MERCON V, Refill 3.9 Qts., 3.7L**

4F20-E | FWD

B-151

1993-02
MERCURY
VILLAGER
Includes NG-104
Pan Gasket

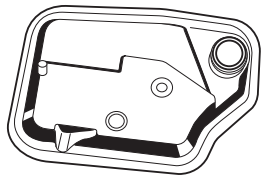

TIP: Pan has 21 bolt holes.

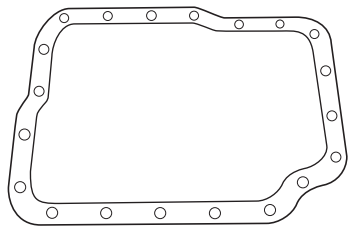

MERCON, Total Fill Capacity 8.8 Qts., 8.3L

4F27-E | FWD

B-189

2000-10 FORD FOCUS
1999-03 MAZDA PROTÉGÉ
Includes NG-407
Pan Gasket

TIP: Pan has 20 bolt holes.

MERCON V, Refill 7.0 Qts., 6.6L**

**Or use ATP Part #AT-206 M Five Alternate with DEXRON III.

FORD MOTOR COMPANY FILTER & PAN IDENTIFIERS

F3A / FWD

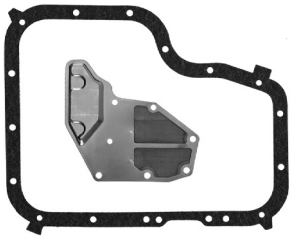

B-262

1989-93 Festiva
Includes WG-4
Pan Gasket

B-311

1994-97 Aspire
Includes NG-9
Pan Gasket

Tip: Pan has 16 bolt holes.

MERCON, Total Fill Capacity 3.0 Qts., 2.9L

5R55N / RWD

B-352

2000-02 Filter Only

B-271

2000-02
Filter & Gasket
Includes FG-25
Pan Gasket

Tip: Pan gasket is reusable.
Pan has 16 bolt holes.

MERCON V*, Refill 6.0 Qts., 5.7L**

5R110W (TORQSHIFT) / RWD 4X4

B-218

2003-07 To 5-20-07

TIP: Pan gasket is reusable.
No pan gasket included.
Pan has 20 bolt holes.

B-227

2003-06

TIP: Cartridge filter in external cooler circuit

B-359

2007-08

TIP: In-line filter.

B-360

2007-10

TIP: No pan gasket.

MERCON LV*, Total Fill Capacity 17.5-19.0 Qts., 16.6-17.9L**

6F50 / FWD

B-273

2009-10

TIP: No pan gasket.

MERCON V*, Total Fill Capacity 10.0 Qts., 9.5L**

AF21, F21, TF-81SC / FWD

B-283

2005-10 ALL
Includes FG-32
Pan Gasket

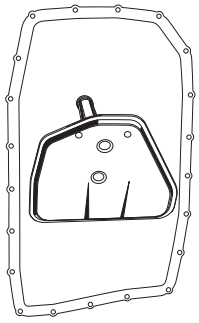

TIP: Pan has 12 bolt holes.

FORD PREMIUM ATF (XT-8QAW)*, Total Fill Capacity 7.4 Qts., 7.0L**

***May replace with ATP Part #AT-216 Synthetic Transmission Fluid.

FORD MOTOR COMPANY FILTER & PAN IDENTIFIERS

6R60, 6R75, 6R80

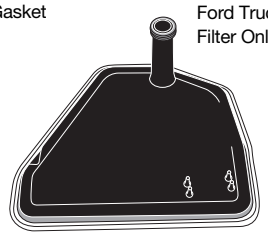

B-231

2006-10 Ford Trucks
Filter & Gasket

Tip: Pan has 22 bolt holes.

B-238

2006-10
Ford Trucks
Filter Only

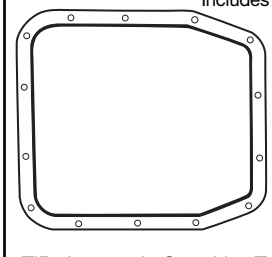

Tip: No pan gasket.

MERCON SP*, 6R60 Total Fill Capacity 5.0 Qts., 4.7L**
MERCON LV*, 6R75/80 Total Fill Capacity 13.9 Qts., 13.2L**

AOD/AOT / RWD

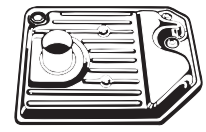

B-62

GENERAL MOTORS CORPORATION

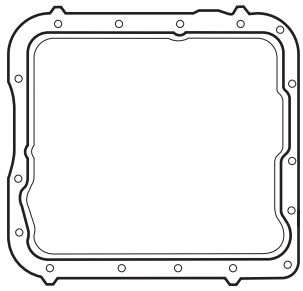

TRANSMISSION IDENTIFIER

How to Identify a 4-Speed, Rear Wheel Drive Transmission with Overdrive …

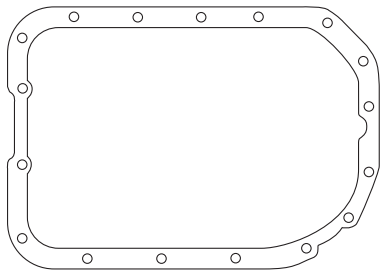

TH-200-4R w/Overdrive can be identified by:
1. The Shift Selector
2. The Pan tapering toward the rear of the car.

TH-700-R4 & 4L60-E w/Overdrive can be identified by:
1. The Shift Selector
2. The Square Pan with 16 Pan Bolts.

4L80-E w/Overdrive can be identified by:
1. The Shift Selector
2. 17 Pan Bolts.

atp professional auto parts®

Chemicals by ATP-Inc.

ATP Part No. AT-200 Cooler Flush Kit

18 oz. can complete with 5/16" fitting & hose. 12 per case. 3/8" fitting available separately, part no. AX-1. Banjo fitting available separately, part no. AX-2.
The only way to effectively clean the automatic transmission cooler and lines.
Each can provides 2-3 complete flushes. Flush product is completely biodegradable (dispose of used transmission fluid properly.) Contains no CFCs.
Eliminates contamination when:

- Installing a rebuilt transmission
- Installing a used radiator
- A large amount of "sludge" is found in the transmission pan

Don't forget to install an ATP in-line magnetic filter to prevent future contamination.

Key Sales Points:

- high pressure effectively aids in cleaning
- can be sold in California — environmentally safe

Cross Sell:

- in-line magnetic filters

ATP Part No. AT-201 ATP Transmission Assembly Lube

It's Blue!

Specially formulated for use as an assembly lubricant for "O" rings, gaskets, bearings, bushings, sealing rings, thrust washers, seals, etc.
After assembly and once the transmission is up to operating temperature, any misplaced lube will melt and drip off the transmission. The blue color prevents the installer from misdiagnosing a leak. ***This lube can be used anywhere on the vehicle where a petroleum-based lubricant is needed or parts need to be held together for reassembly.***

Key Sales Points:

- can be used anywhere on the vehicle (except high pressure applications — differential gears)

ATP Part No. AT-213 Synthetic Blend Power Steering Fluid Protectant

- Eliminates Whines and Noise in Power Steering Systems
- Converts Regular Power Steering Fluid into a Universal Fluid to be used in vehicles such as: GM, Chrysler, Ford, Honda, Toyota and More...

For use with ALL Power Steering Fluids

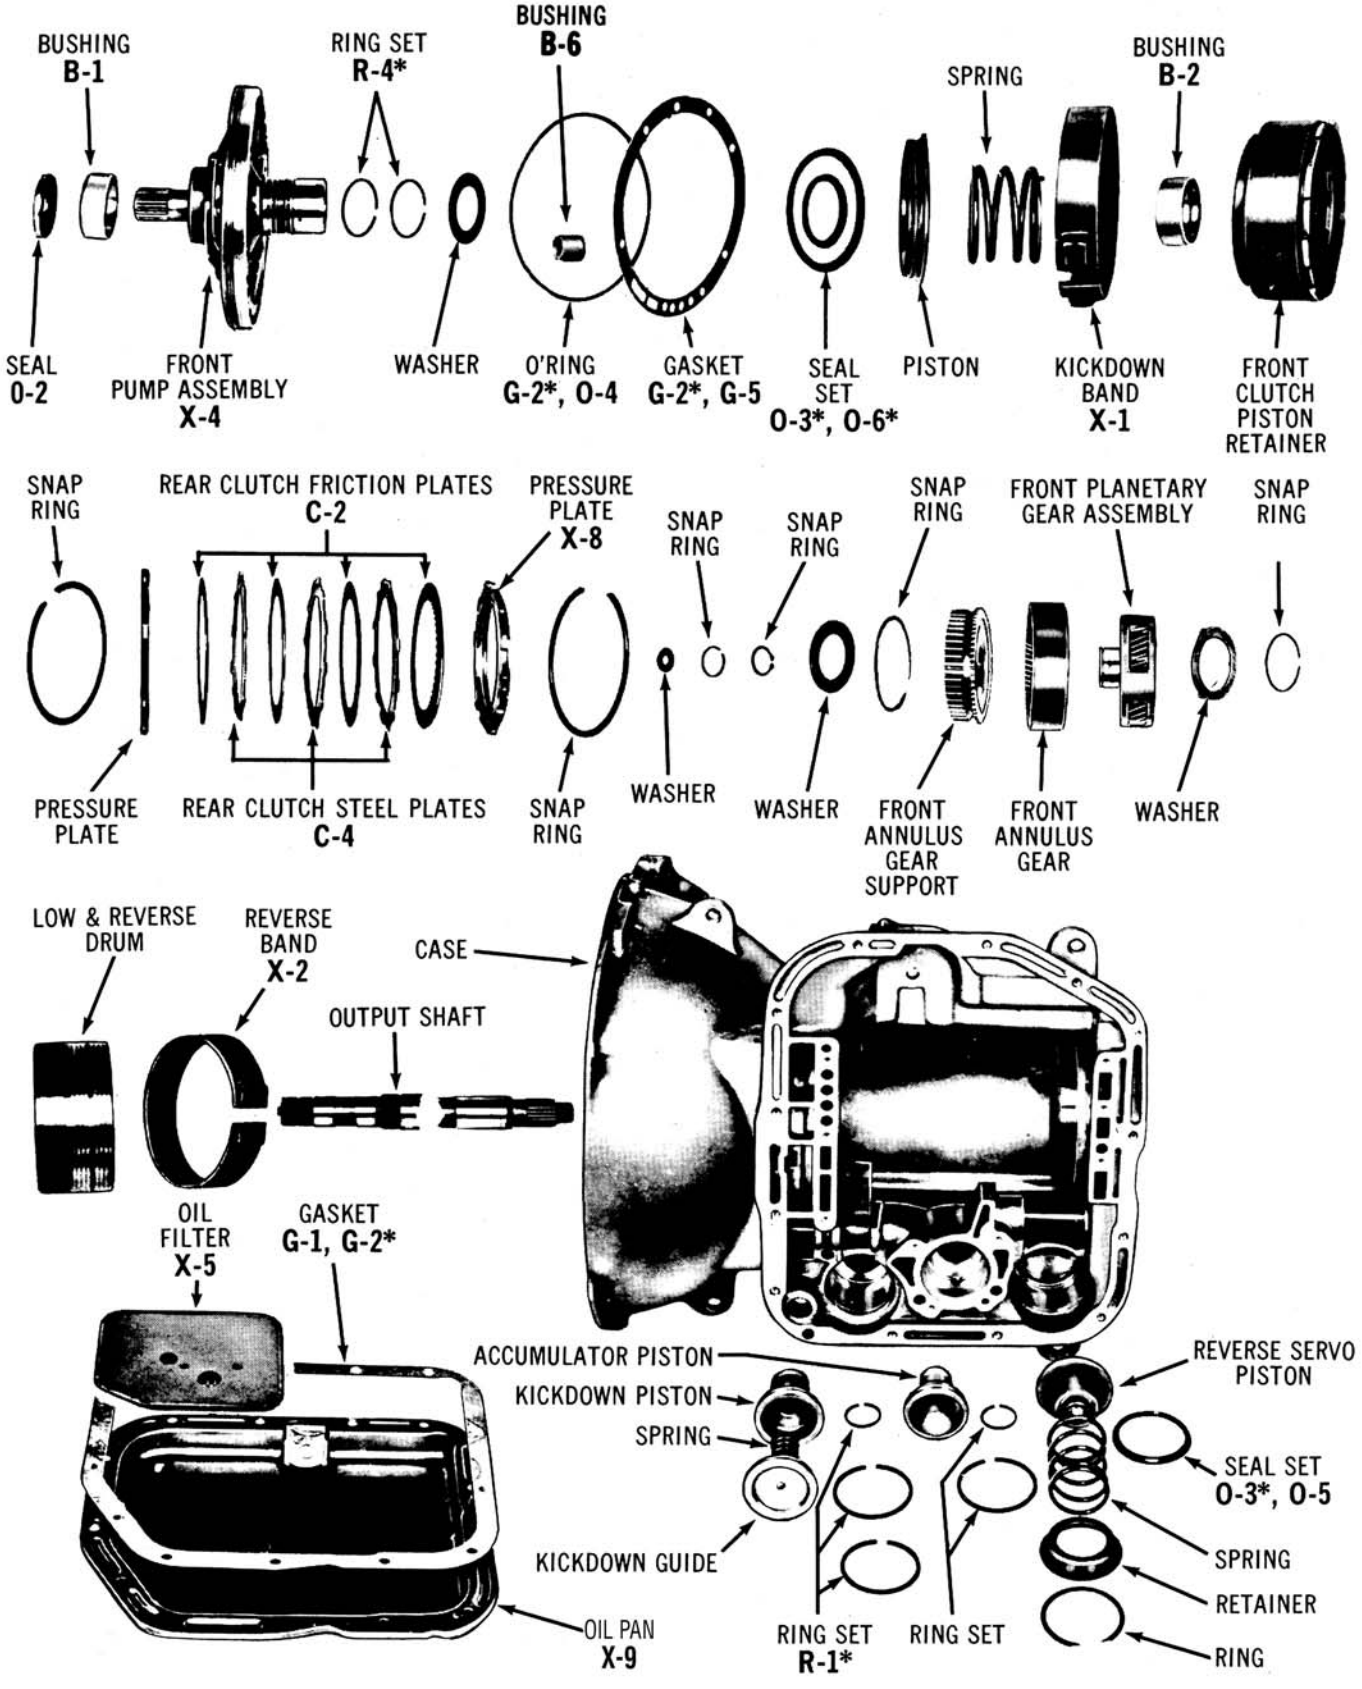

Benefits:

- Saves Time and Money
- Lubricates and Protects Racks and Pumps
- Eliminates Stiffness
- Extends System Life

AT-213 contains 4 fluid ounces and is packed 12 per case.

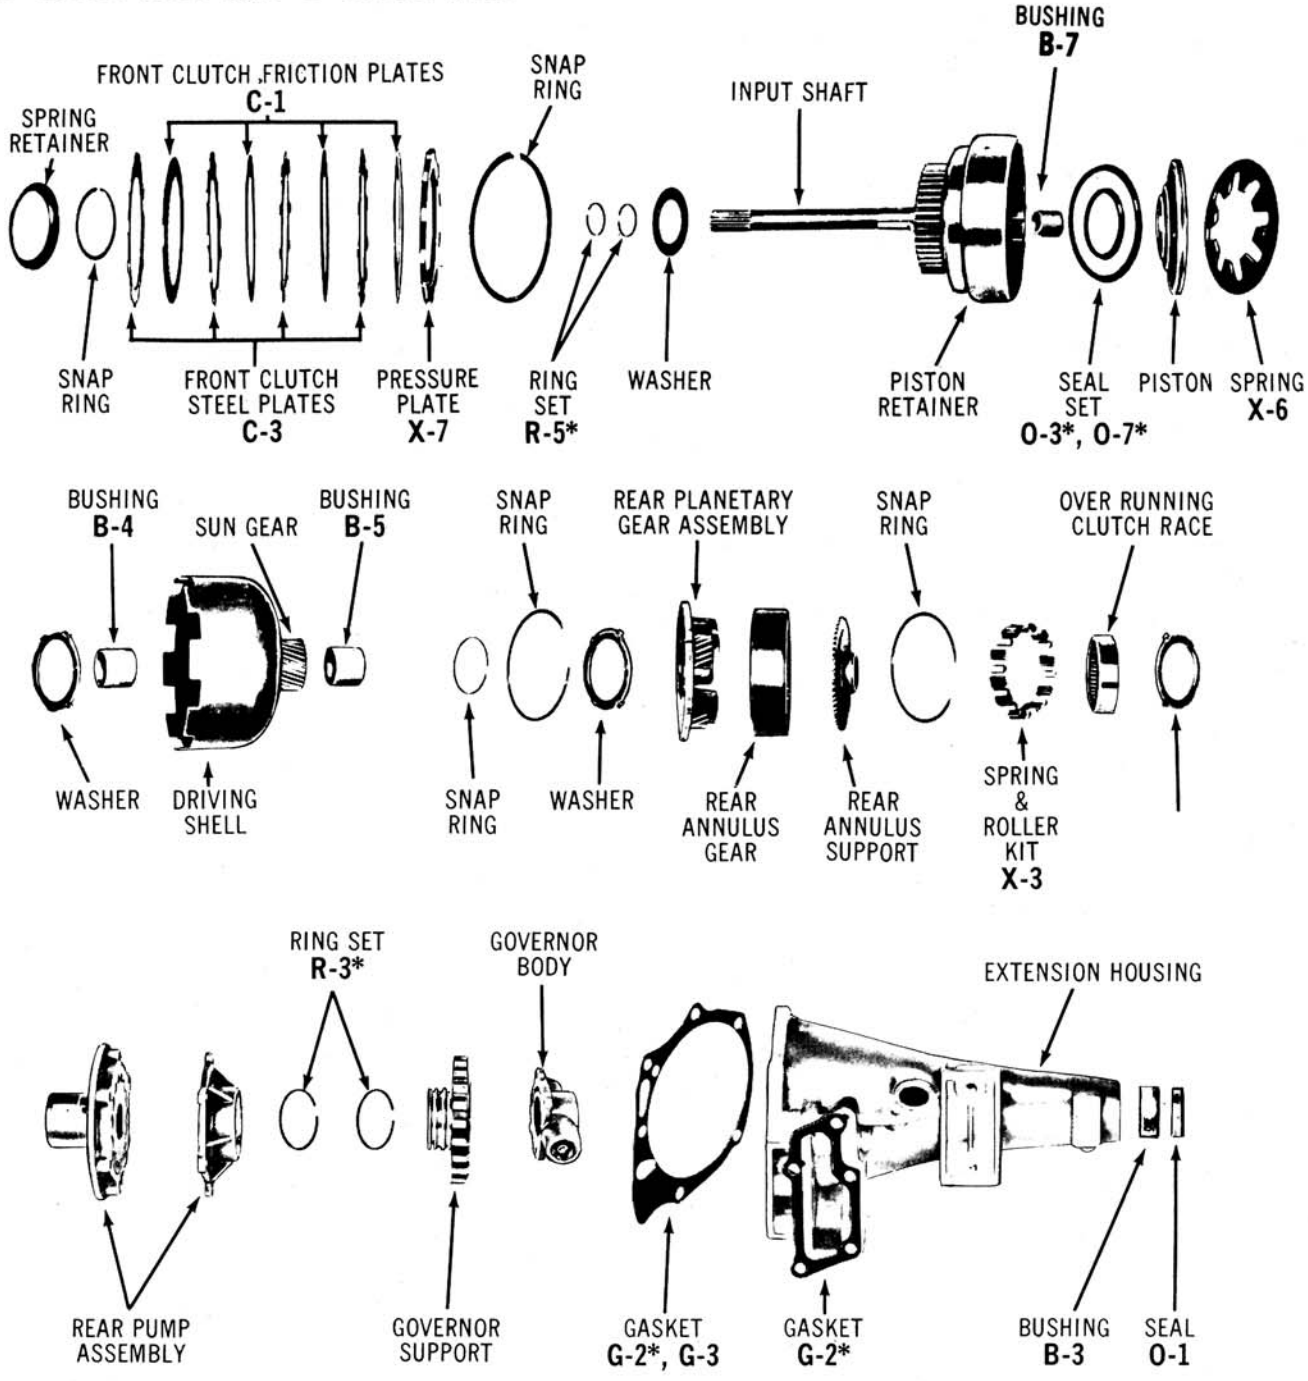

TORQUEFLITE Chrysler

"6" Model #904 and "8" Model #727

TORQUE-COMMAND AMC

"6" Model #904 and "8" Model #727

✶ Special Order, Slow Moving Part Number

atp professional auto parts®

Chemicals by ATP-Inc.

ATP Part No. AT-202
Synthetic Automatic Transmission Fluid Protectant

For all Transmission Fluids including Dexron® VI.

Protects Transmission:

- **Prevents torque converter shudder** and clutch pack chatter
- Prevents overheating
- Reduces wear
- Ensures proper shifts

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid when combined with Dexron®/Mercon® fluid
- will cure torque converter shudder that is common on Ford Motor Co. transmissions
- use in 4x4 transfer cases and Allison transmissions
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-202 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-203
Synthetic Automatic Transmission Fluid Friction Modifier

Why carry several different types of transmission fluid?

No. AT-203 converts Dexron®/Mercon® fluid to a friction modified fluid such as:

- Chrysler Corp (ATF Plus®, III & IV)
- Honda (Genuine® & ATFZ1)
- Mitsubishi (Diamond® & SLF)
- Hyundai (Genuine®)
- Kia (SP3)
- Nissanmatic® (D, J, K)
- Toyota (Genuine,® TIV, & T-V)

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid with special friction modifiers when combined with Dexron®/Mercon® fluid. Replaces (7) manufacturer specific fluids
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-203 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-206 M Five Alternate

In 1997, Ford Motor Company introduced Mercon®V automatic transmission fluid for use in 1997 or later A4LD-E (4R44E) and 5R55E transmissions. Mercon®V is now also required for 1998 and later vehicles equipped with the AX4N and AX4S transaxles and AODE-W (4R70W) transmission. *Ford recently announced that Mercon®V fluid can be used in older vehicles.*

Consult owner's manual or fluid level indicator for proper fluid usage.

Use of the incorrect transmission fluid can lead to internal damage.

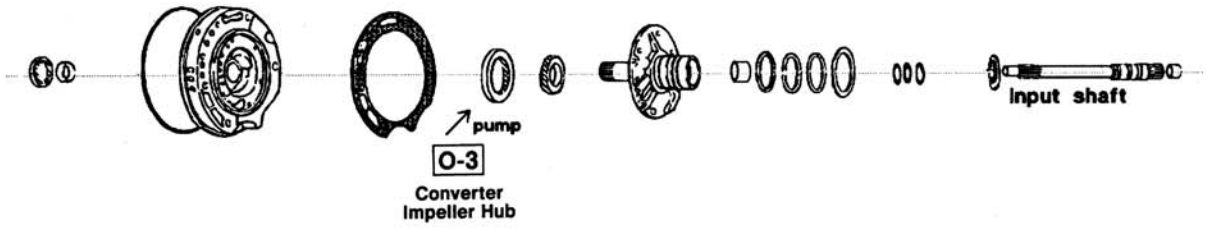

M Five Alternate allows you to use Dexron®/ Mercon® transmission fluid and convert it to a Mercon®V type fluid.

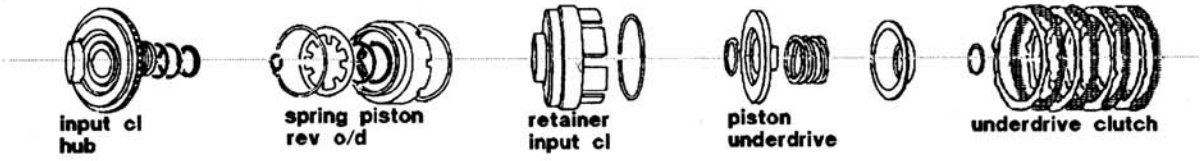

No. AT-206 is a synthetic product which extends the frictional stability and life of the Dexron®/Mercon® fluid, similar to Mercon®V.

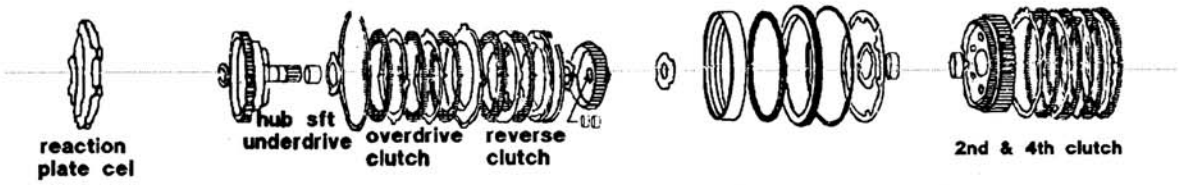

Key Sales Points:

- creates a semi-synthetic fluid with special frictional stability properties when combined with Dexron®/Mercon® fluid which is similar to Mercon®V. Eliminates the need to stock Mercon®V.
- when used with a complete transmission flush, one full bottle should be added.
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-206 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

Chemicals by ATP-Inc.

ATP Part No. AT-205 RE-SEAL®

AT-205

- Power Steering
- Transmission
- Engine
- Differential
- Any hydraulic system (except brake) including jacks, lifts, plows, industrial equipment, etc.
- AT-205 is the one product that does it all!
- AT-205 is a special plasticizer which softens and expands hydraulic seals to stop leaks.
- AT-205 does not contain any petroleum distillates.
- AT-205 will also restore sunroof seals, wiper blades and any rubber-based item (will not work on nylonor plastics).
- AT-205 works quickly (engine main seals will require (5) hours of running time) and will not cause the seal to become gummy and eventually break down like other products.
- Installers can treat any new seals, "o" rings, etc. to ensure a quality, leak-free rebuild. New seals, etc. actually shrink as they sit in a box in inventory. Just swab on AT-205 and install!

AT-207

Recommended Application Amounts

- power steering: ½ bottle
- transmission: (1) 8 oz. bottle
- engine: (1) 8 oz. bottle
- differential: ½ bottle
- other hydraulic equipment: (1) 8 oz. bottle (per 3 gallon capacity)
- seals, "o" rings, etc.: swab on
- wiper blades: swab on, do not use wipers for 2 hours

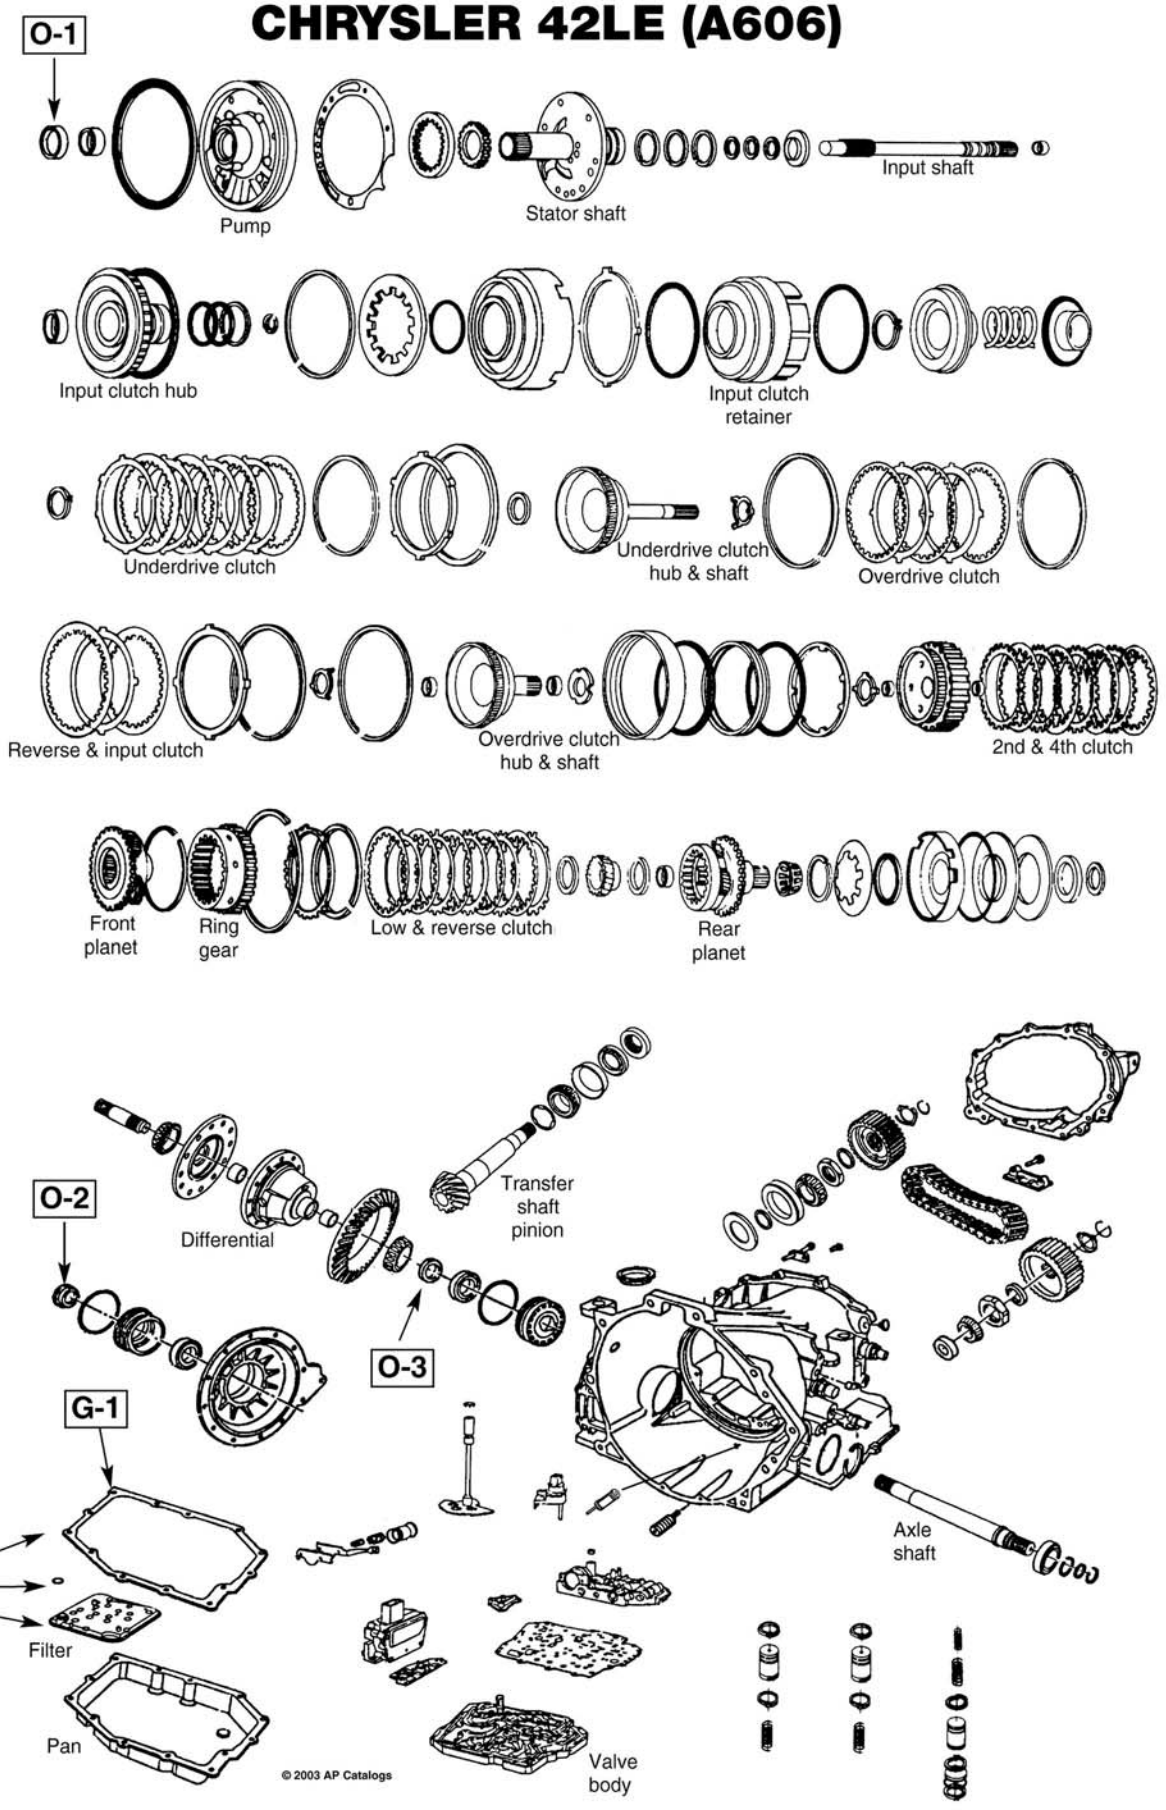

AT-212

Key Sales Points:

- replaces 10-12 single purpose leak stop products
- will restore any rubber-based item
- **also available: AT-207 — 5 gallon container of AT-205 RE-SEAL®**
- **also available: AT-212 — 2 oz. aerosol can of AT-205 RE-SEAL®**

Chemicals by ATP-Inc.

ATP Part No. AT-209
Synthetic Blend Transmission Flush & Conditioner

Are You Preparing A Transmission For New Fluid?

Safely clean all internal transmission components with ATP Transmission Flush & Conditioner!

- For automatic transmission applications
- For use with or without a flush machine
- Safely removes varnish deposits
- Contains no harsh, damaging solvents or alcohol
- Conditions seals to improve service life

Cross Sell:

- AT-202 Protectant — use when refilling the transmission with fresh fluid

ATP Part No. AT-210
Semi-Synthetic Limited Slip Differential Supplement

ATP Semi-Synthetic Limited Slip Supplement is specifically formulated to be added to gear oil in all limited slip differentials.

ATP Limited Slip Supplement provides superior protection with its unique synthetic technology.

- Eliminates chatter
- Protects clutch surfaces
- Reduces operating temperature

Key Sales Points:

- semi-synthetic formulation for all types of limited slip differentials.

What's That SMELL?

It could be the air conditioner.

ATP-Inc. Part No. AT-211 CLEAN 'N COAT® is sprayed into the evaporator case to clean the cooling coil and then coat it. This coating repels water for up to 1 year. No moisture buildup — NO SMELL! No. AT-211 is not a perfume or masking agent — it attacks the problem.

Under normal operating conditions, moisture builds up on the evaporator cooling coil. Most of this moisture drains out of the system. Some moisture can remain on the evaporator cooling coil and mix with pollutants and microscopic contaminants. Soon, everytime the air conditioner is turned on out comes that "dirty socks" odor.

If you are currently servicing interior ventilation (cabin air) filters and/or air conditioning systems, this is the perfect add-on service!

Start Up Package, No. A-502

Contains:

(2) 6 fl. oz. cans of CLEAN 'N COAT® (Part No. AT-211)
(1) 18″ x 26″ Full Color Poster
(50) Full Color Consumer Handouts with Holder

Poster alerts consumer that there is a solution to that awful smell!

Handouts explain how the odor develops and how it can be eliminated.

(For Additional Handouts, Order Part No. A-503)

The SOLUTION

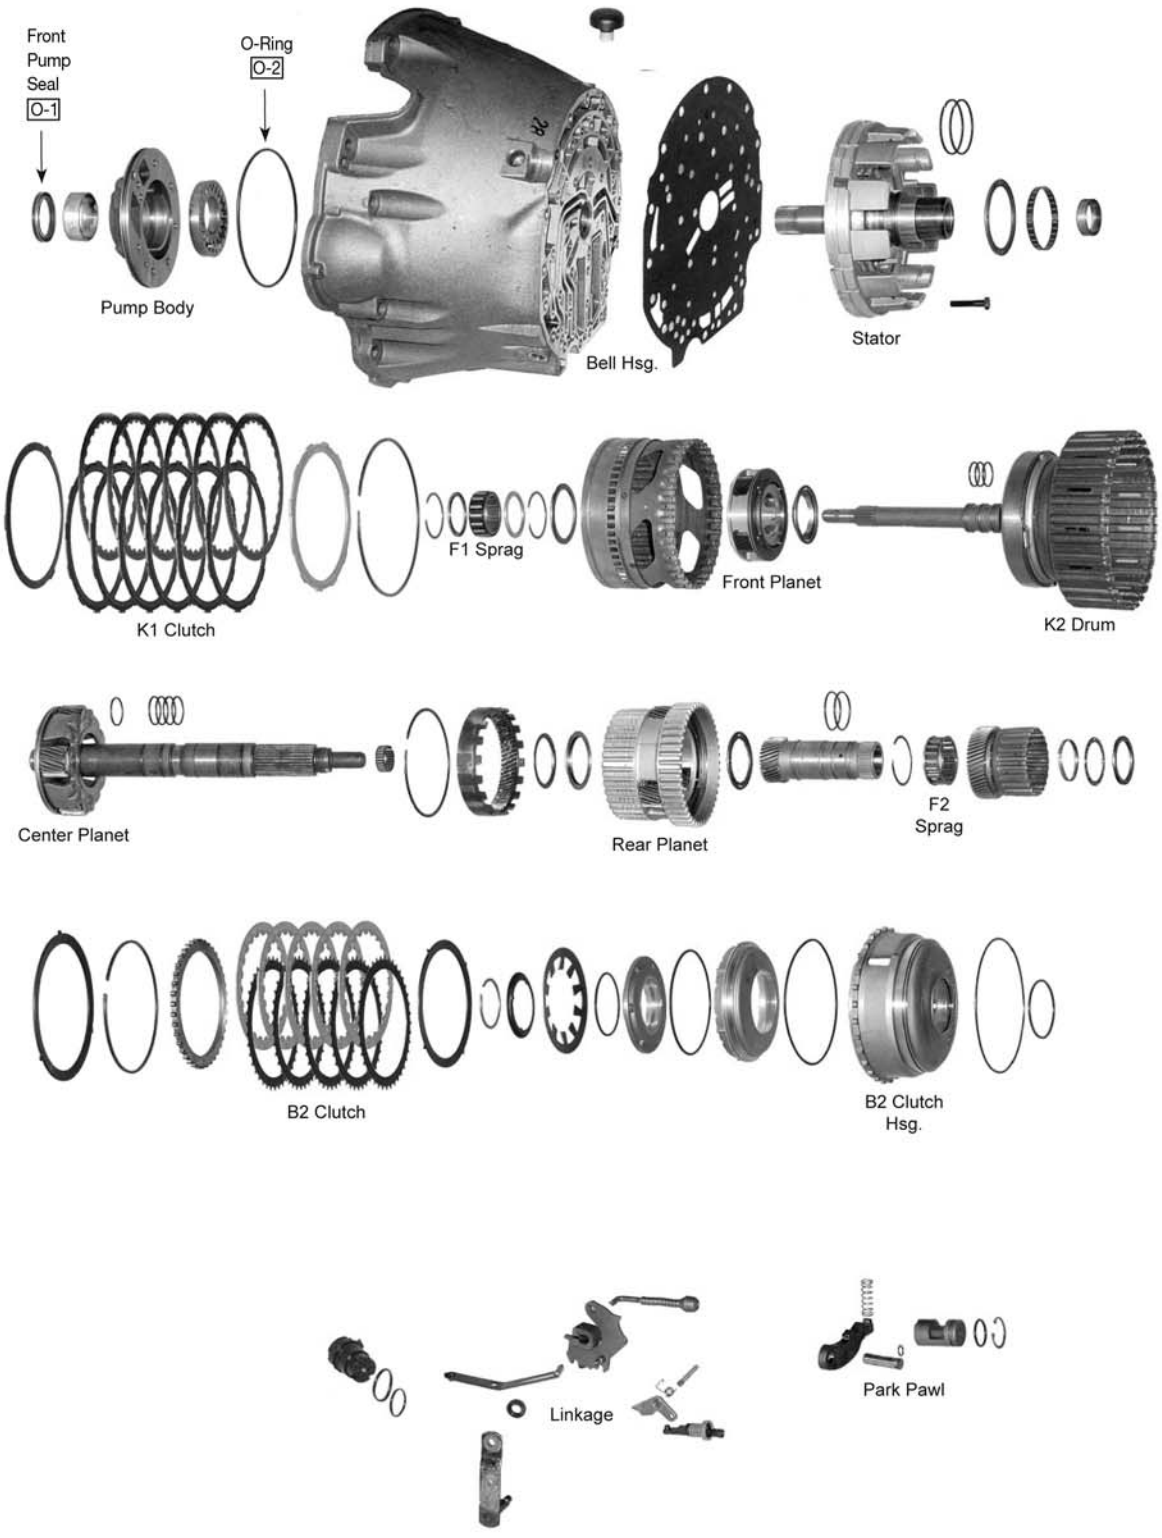

AT-211 CLEAN 'N COAT®

This service can be performed in 30-45 minutes.

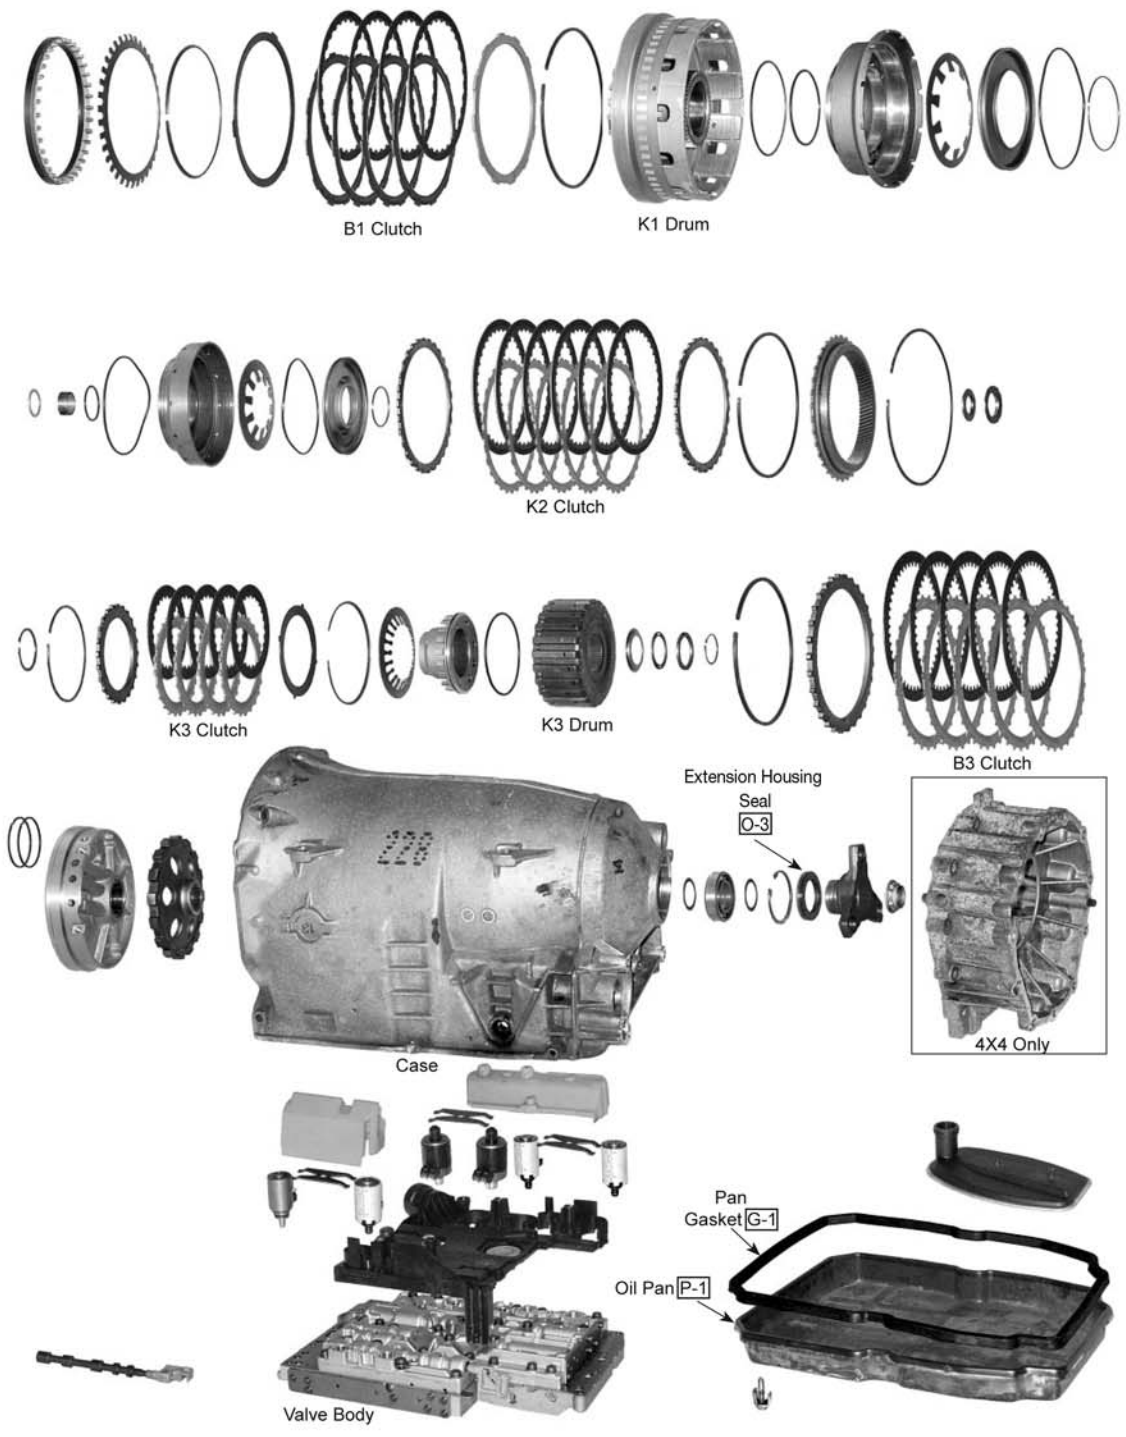

Suggested retail for product and application is $69.95. Your customers can be breathing fresher air soon!

It's GREEN!

ALL NATURAL!

ZEO·TRAP™ by atp

ODOR AND MOISTURE CONTROL

The 'Ultimate' GREEN Product

- **RENEWABLE... The LAST ODOR ELIMINATOR YOU WILL EVER NEED!** Zeolite can be **regenerated** by placing the pouch in the sun. Every 9-10 months, place the pouch in direct sunlight for 8 hours.

  Zeolite Eliminates — smoking, food, diaper, sweat, pet, vinyl and plastic out-gassing (new car smell) odors.

Zeo•Trap ATP Part No. ZE-1
Includes: One – 2 lb. **NEW Tyvek® Pouch** Which Eliminates 'Dusting' & Is Enclosed In The **NEW Sealed, Full-Color Consumer Packaging** Which Ensures The Pouch Will Remain Moisture & Odor Free Until Opened!

Zeo•Trap Counter Display
ATP Part No. A-508
Includes: One Counter Display, Six – 2 lb. **NEW Tyvek® Pouch** Which Eliminates 'Dusting' & Is Enclosed In The **NEW Sealed, Full-Color Consumer Packaging** Which Ensures The Pouch Will Remain Moisture & Odor Free Until Opened!

- **ALL NATURAL... ATP's NEW & IMPROVED Zeo•Trap is manufactured from the finest Zeolite deposits in the world.** Zeolite is a mineral formed from microporous volcanic ash. The negatively ionic charged zeolite attracts the positively charged odor particles. Zeolite ADSORBS (an electrical process) the odors. Zeolite also ABSORBS (a mechanical process) moisture. Zeolite **TRAPS** the odor molecules. **ATP's NEW & IMPROVED Zeo•Trap has a higher absorption rate than ever before.**

- **ECO-SAFE... Zeolite is Non-Toxic** — will **not cause allergic reaction** or sensitivities to perfumes or chemical additives. Zeolite is EPA approved to be disposed with normal household waste. However, in some jurisdictions local rules may apply.

- **Place Under the Seat or in the Trunk** — wherever odors exist.

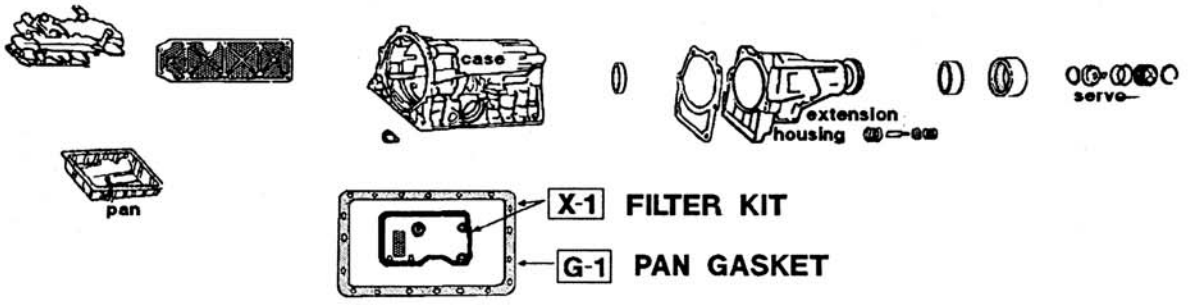

The Value Is In The Brand!

TRANSMISSION OIL PANS

PART NO. 103011

Use gasket XG-1 to complete installation.

1980-2001
GM vehicles with TH125 (3T40) transmission
O.E. No.: 8643574

PART NO. 103012

Use gasket JG-100 to complete installation.

1984-1993
GM vehicles with TH440-T4 (4T60) transmission
O.E. No.: 8675995

PART NO. 103013

Use gasket JG-138 (O.E. style molded rubber) to complete installation.

1995-2007
GM vehicles with 4T40E and 4T45E transmissions
O.E. No.: 8685184

PART NO. 103016

Use gasket TG-18 to complete installation.

1982-2002
Chrysler A404/413/670, 30TH, 31TH
Pan Depth: 2 ¼″
O.E. No.: 4471573

PART NO. 103017

Use gasket SG-30 to complete installation.

1982-2002
GM TH700R4/4L60/4L60-E
Pan Depth: 2 ⅜″ With Drain Plug
O.E. No.: 8663948, 8667545

PART NO. 103018

Use gasket FG-114 to complete installation.

1966-1996
Ford C-6
Pan Depth: 2 ⅛″ With Drain Plug
O.E. No.: C6AZ7A194A, D5aZ7A194A, E5TZ7A194D, E5TZ7A194E

PART NO. 103019

Use gasket TG-10 to complete installation.

1962-1998
Chrysler A727
Pan Depth: 1 ⅛″
O.E. No.: 4058997

PART NO. 103177

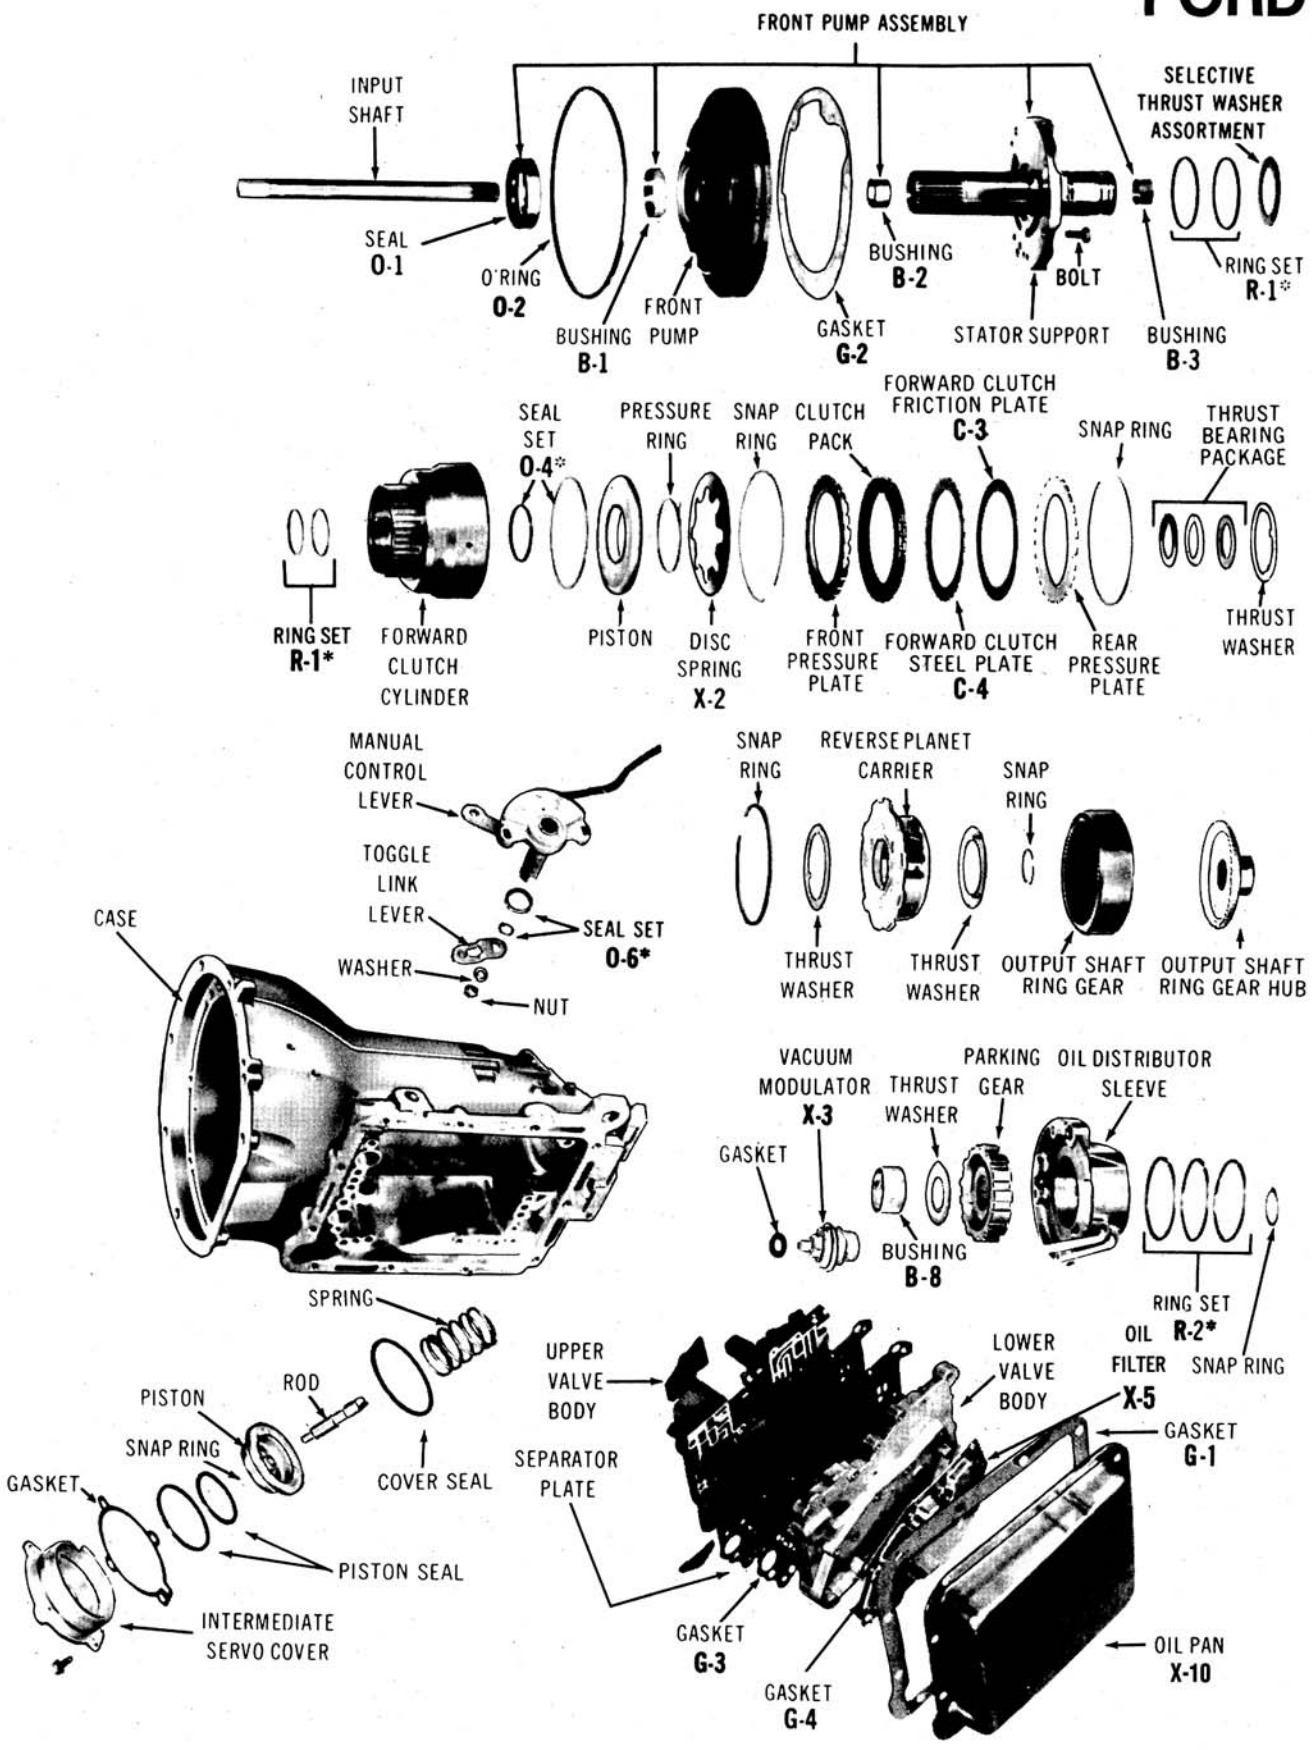

2004-2010
ZF 6HP19
O.E. No.:
24117536387

PART NO. 103178

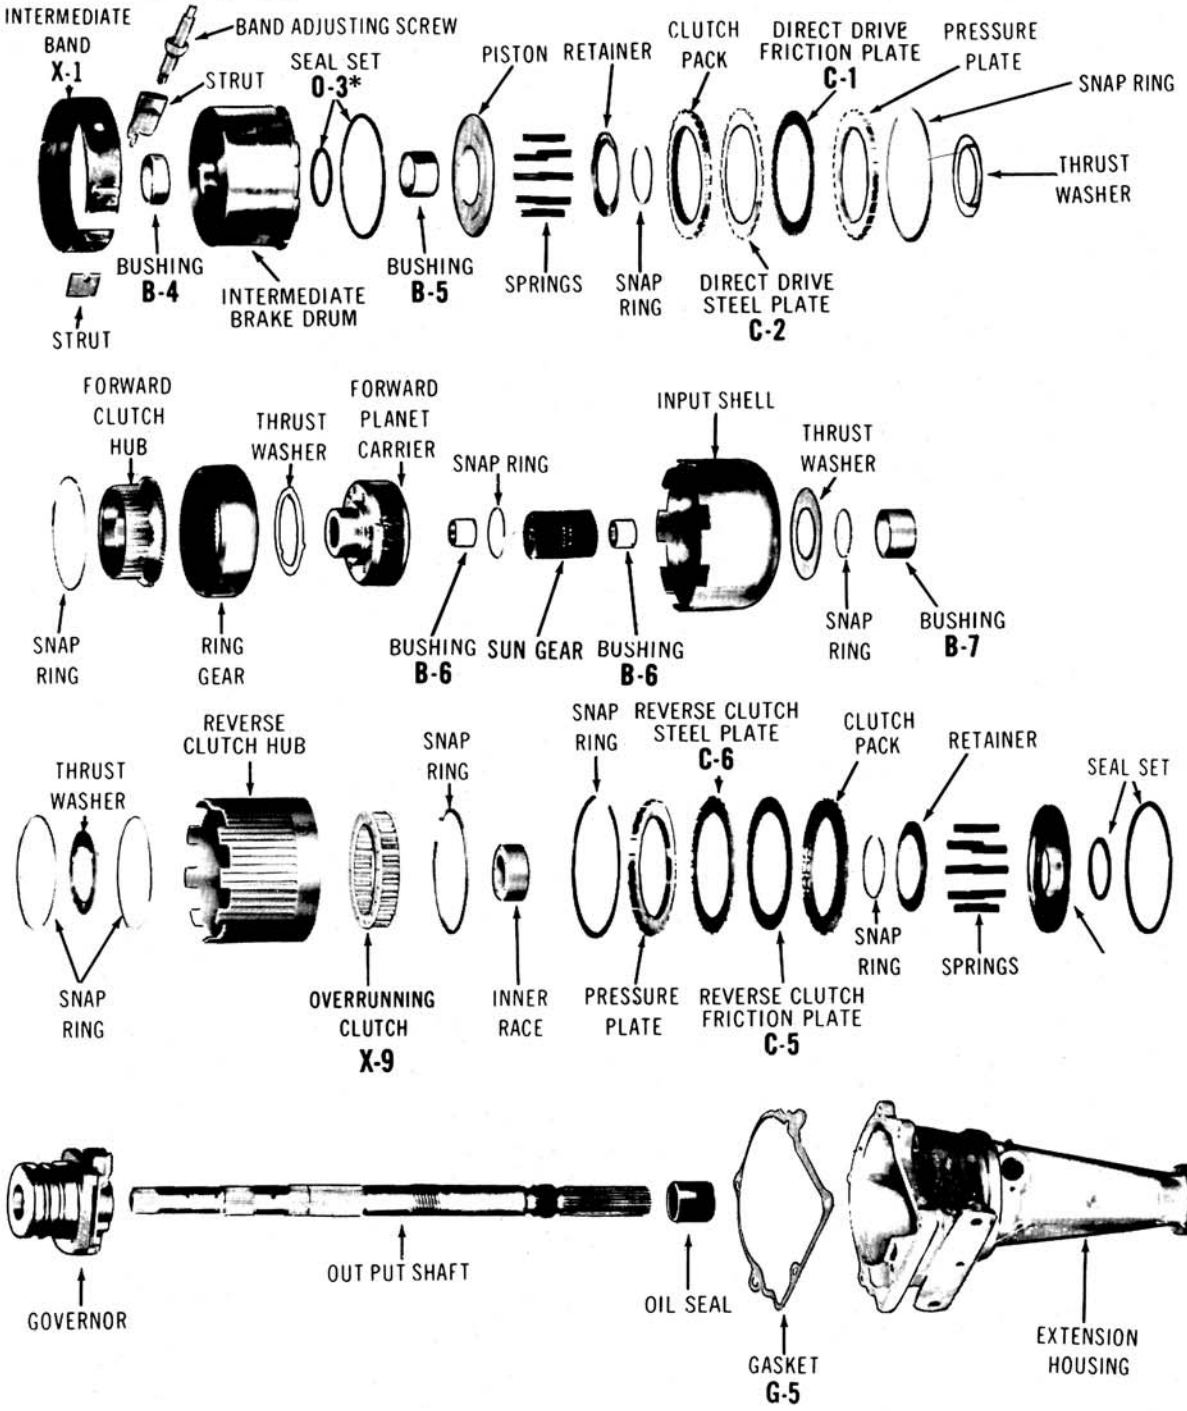

2002-2010
ZF 6HP26
O.E. No.:
24117522923

NEW!

Inventory Solutions With Quality ATP Chemicals

ATP MULTI-SERVICE FLUSH & CONDITIONER

Part No.: AT-218 • 16 Fluid Ounces

For Engine, Transmission & Power Steering Systems

EASY TO USE
PRE-MEASURED BOTTLE

- Safely Removes Sludge, Varnish And Contaminants — Contains NO Harsh, Damaging Solvents Or Alcohol
- Prepares Seals And System For New Lubricants
- Pre-Measure Bottle Allows The Correct Amount To Be Measured And Dispensed
- Use With Or Without Fluid Exchange Machines

You Only Need One Product (Part No. AT-218)
For ALL Your Flushing Needs!

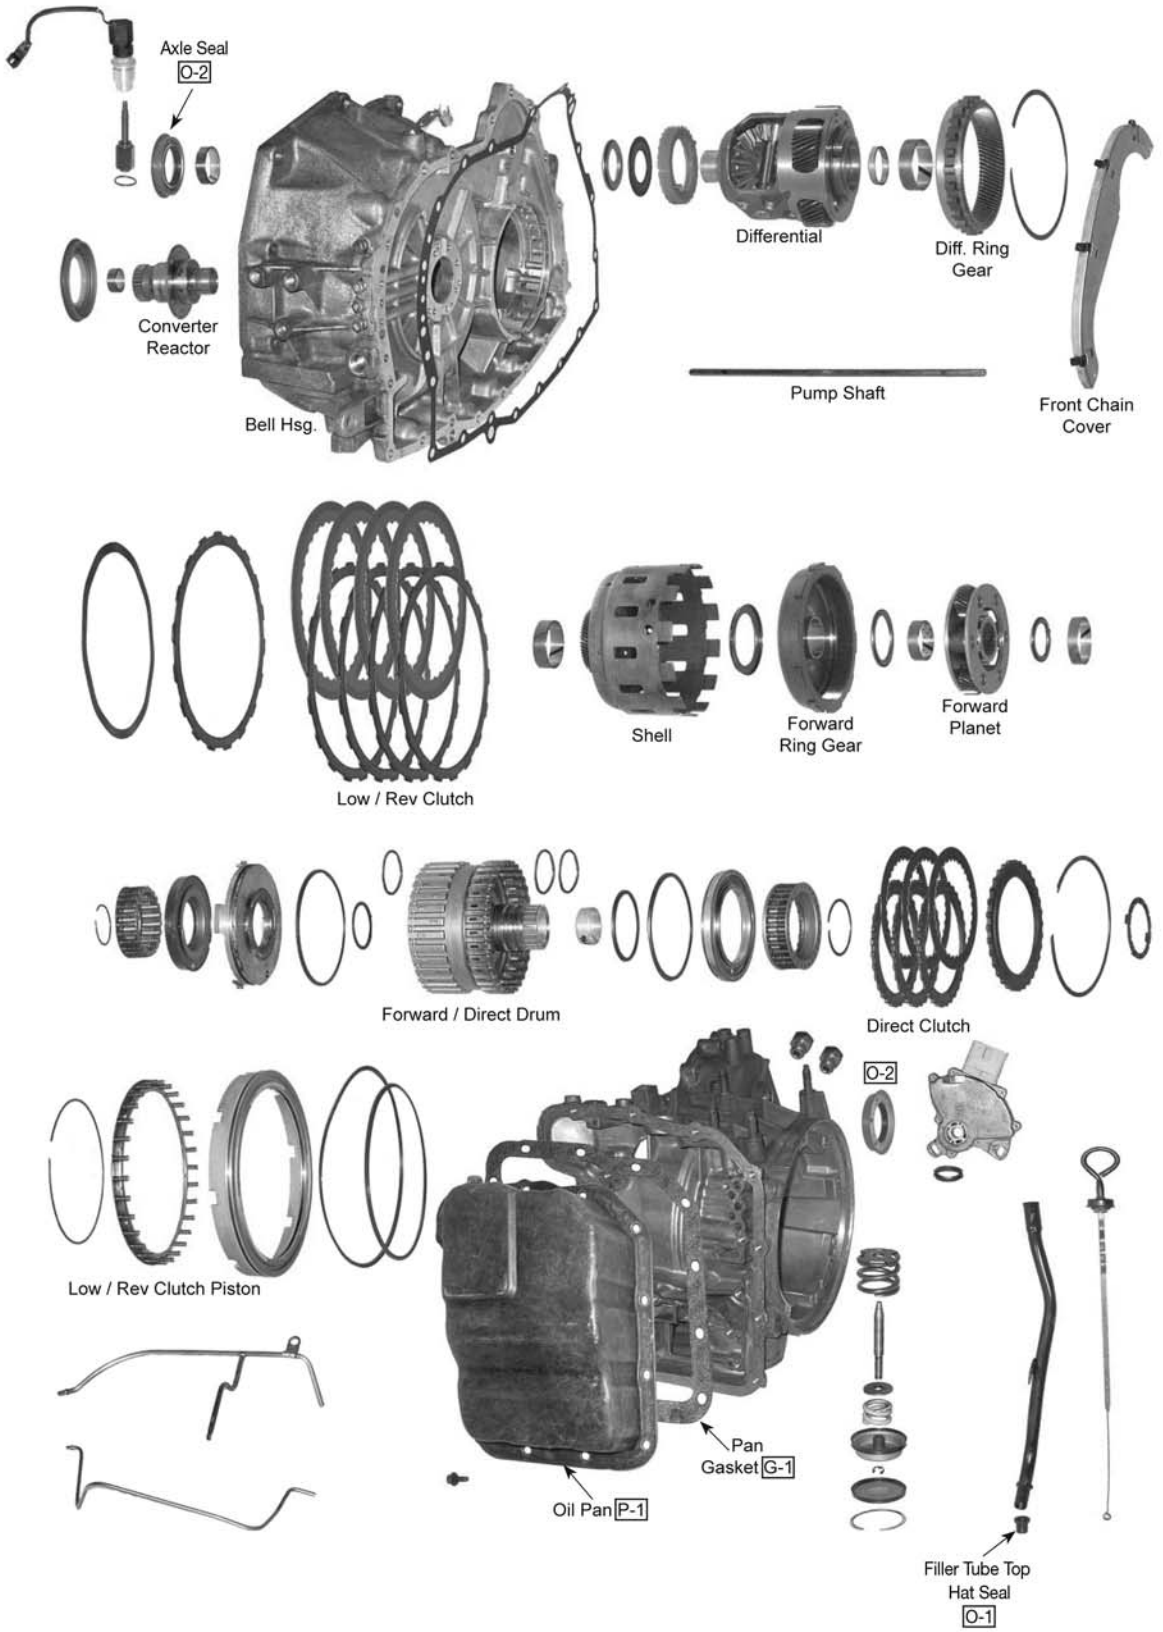

The Value Is In The Brand!

NEW! ATP Line Splice Kits

ATP Line Splice Kits Work on Steel OR Aluminum Lines for ANY A/C, Transmission, Power Steering Line Repair.

PROBLEM

SOLUTION

BENEFITS

- Permanent Leak Seal — No Line Removal
- No Special Tools Needed — Install With Wrenches
- Better Seal Technology Than Traditional Fittings — 10x Thicker Seal Than O-Rings
- Leak Free To 2300 psi
- Do NOT Use On Brake Or Fuel Lines

Part No.	Description
JX-175	Line Splice Kit for 1/2″ O.D. Lines
JX-176	Line Splice Kit for 3/8″ O.D. Lines
JX-177	Line Splice Kit for 5/16″ O.D. Lines
JX-178	Line Splice Kit for 5/8″ O.D. Lines
JX-179	Line Splice Kit for 3/8″ to 5/16″ O.D. Lines
JX-180	Line Splice Kit for 1/2″ to 5/16″ O.D. Lines
JX-181	Line Splice Kit for 1/2″ to 3/8″ O.D. Lines
JX-182	Line Splice Kit for 10mm O.D. Lines
JX-183	Line Splice Kit for 12mm O.D. Lines

INSTALLATION AS EASY AS 1, 2, 3

STEP 1: STRING THEM

STEP 2: PUSH THEM TOGETHER

STEP 3: TIGHTEN

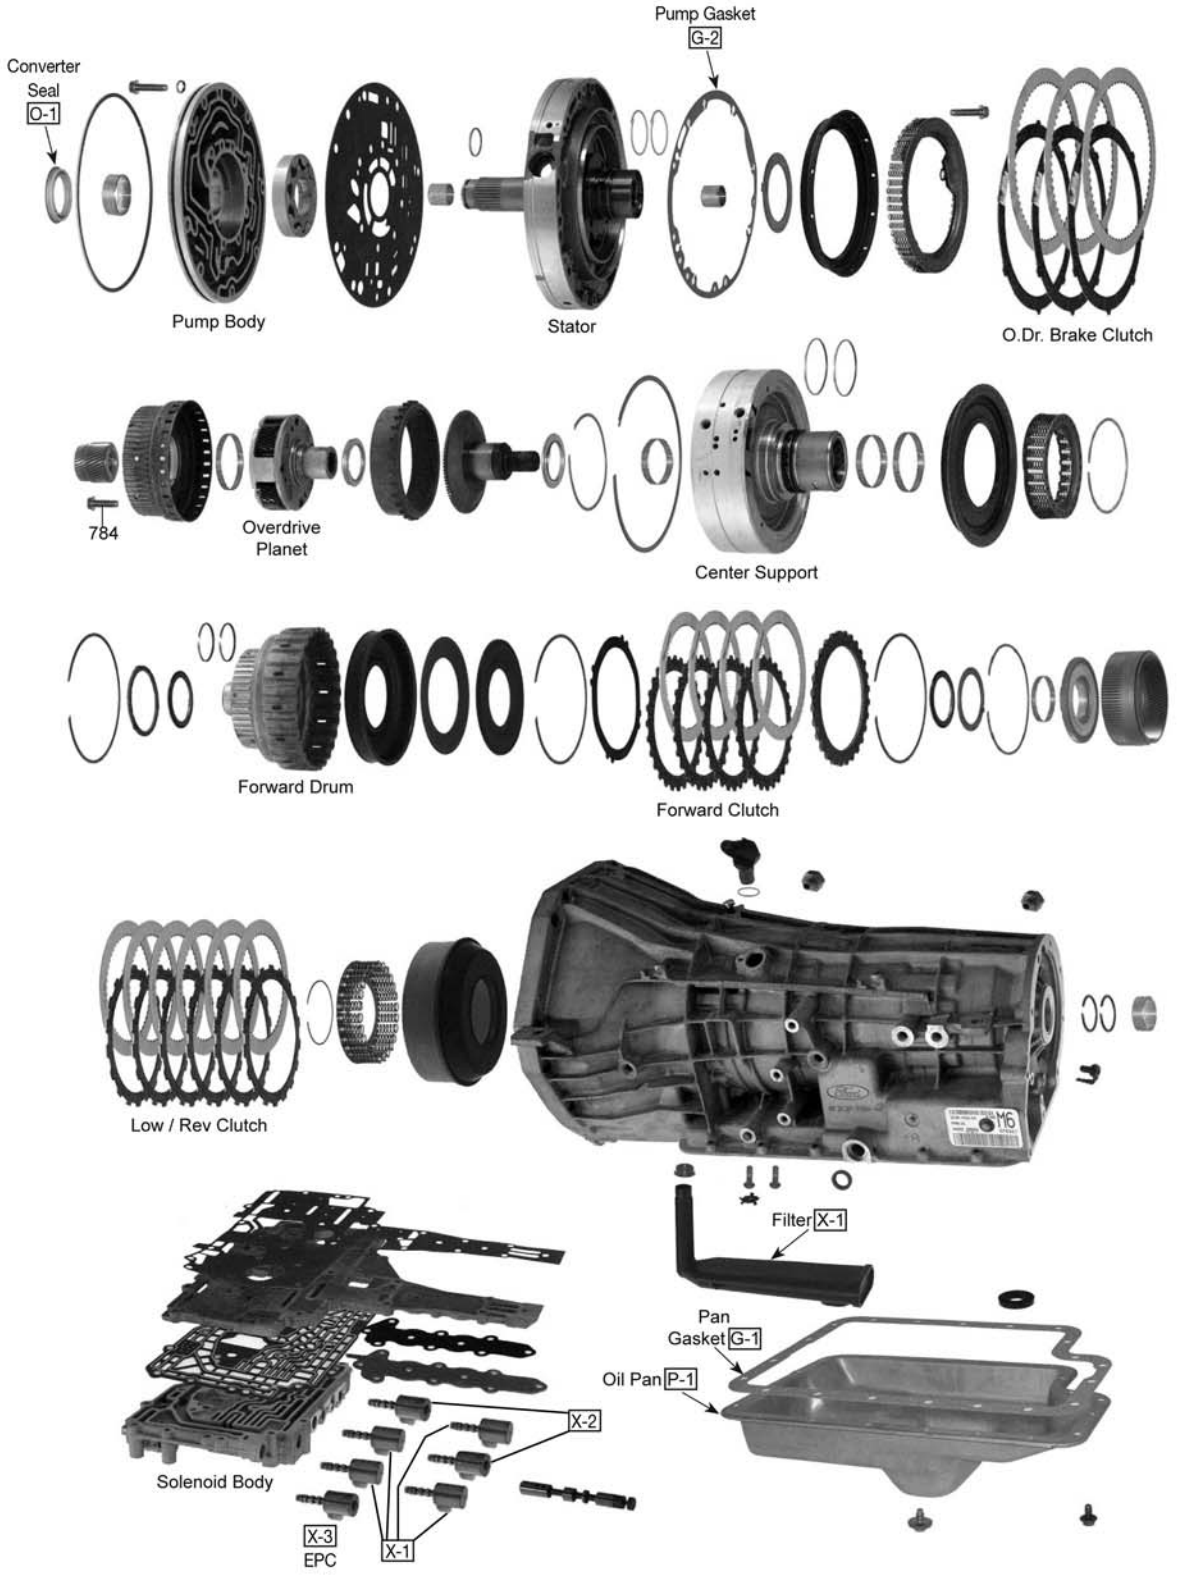

The Value Is In The Brand!

Chemicals by ATP-Inc.

ATP Part No. AT-200 Cooler Flush Kit

18 oz. can complete with 5/16" fitting & hose. 12 per case. 3/8" fitting available separately, part no. AX-1. Banjo fitting available separately, part no. AX-2.
The only way to effectively clean the automatic transmission cooler and lines.
Each can provides 2-3 complete flushes. Flush product is completely biodegradable (dispose of used transmission fluid properly.) Contains no CFCs.
Eliminates contamination when:

- Installing a rebuilt transmission
- Installing a used radiator
- A large amount of "sludge" is found in the transmission pan

Don't forget to install an ATP in-line magnetic filter to prevent future contamination.

Key Sales Points:

- high pressure effectively aids in cleaning
- can be sold in California — environmentally safe

Cross Sell:

- in-line magnetic filters

ATP Part No. AT-201 ATP Transmission Assembly Lube

It's Blue!

Specially formulated for use as an assembly lubricant for "O" rings, gaskets, bearings, bushings, sealing rings, thrust washers, seals, etc.
After assembly and once the transmission is up to operating temperature, any misplaced lube will melt and drip off the transmission. The blue color prevents the installer from misdiagnosing a leak. ***This lube can be used anywhere on the vehicle where a petroleum-based lubricant is needed or parts need to be held together for reassembly.***

Key Sales Points:

- can be used anywhere on the vehicle (except high pressure applications — differential gears)

ATP Part No. AT-213 Synthetic Blend Power Steering Fluid Protectant

- Eliminates Whines and Noise in Power Steering Systems
- Converts Regular Power Steering Fluid into a Universal Fluid to be used in vehicles such as: GM, Chrysler, Ford, Honda, Toyota and More...

For use with ALL Power Steering Fluids

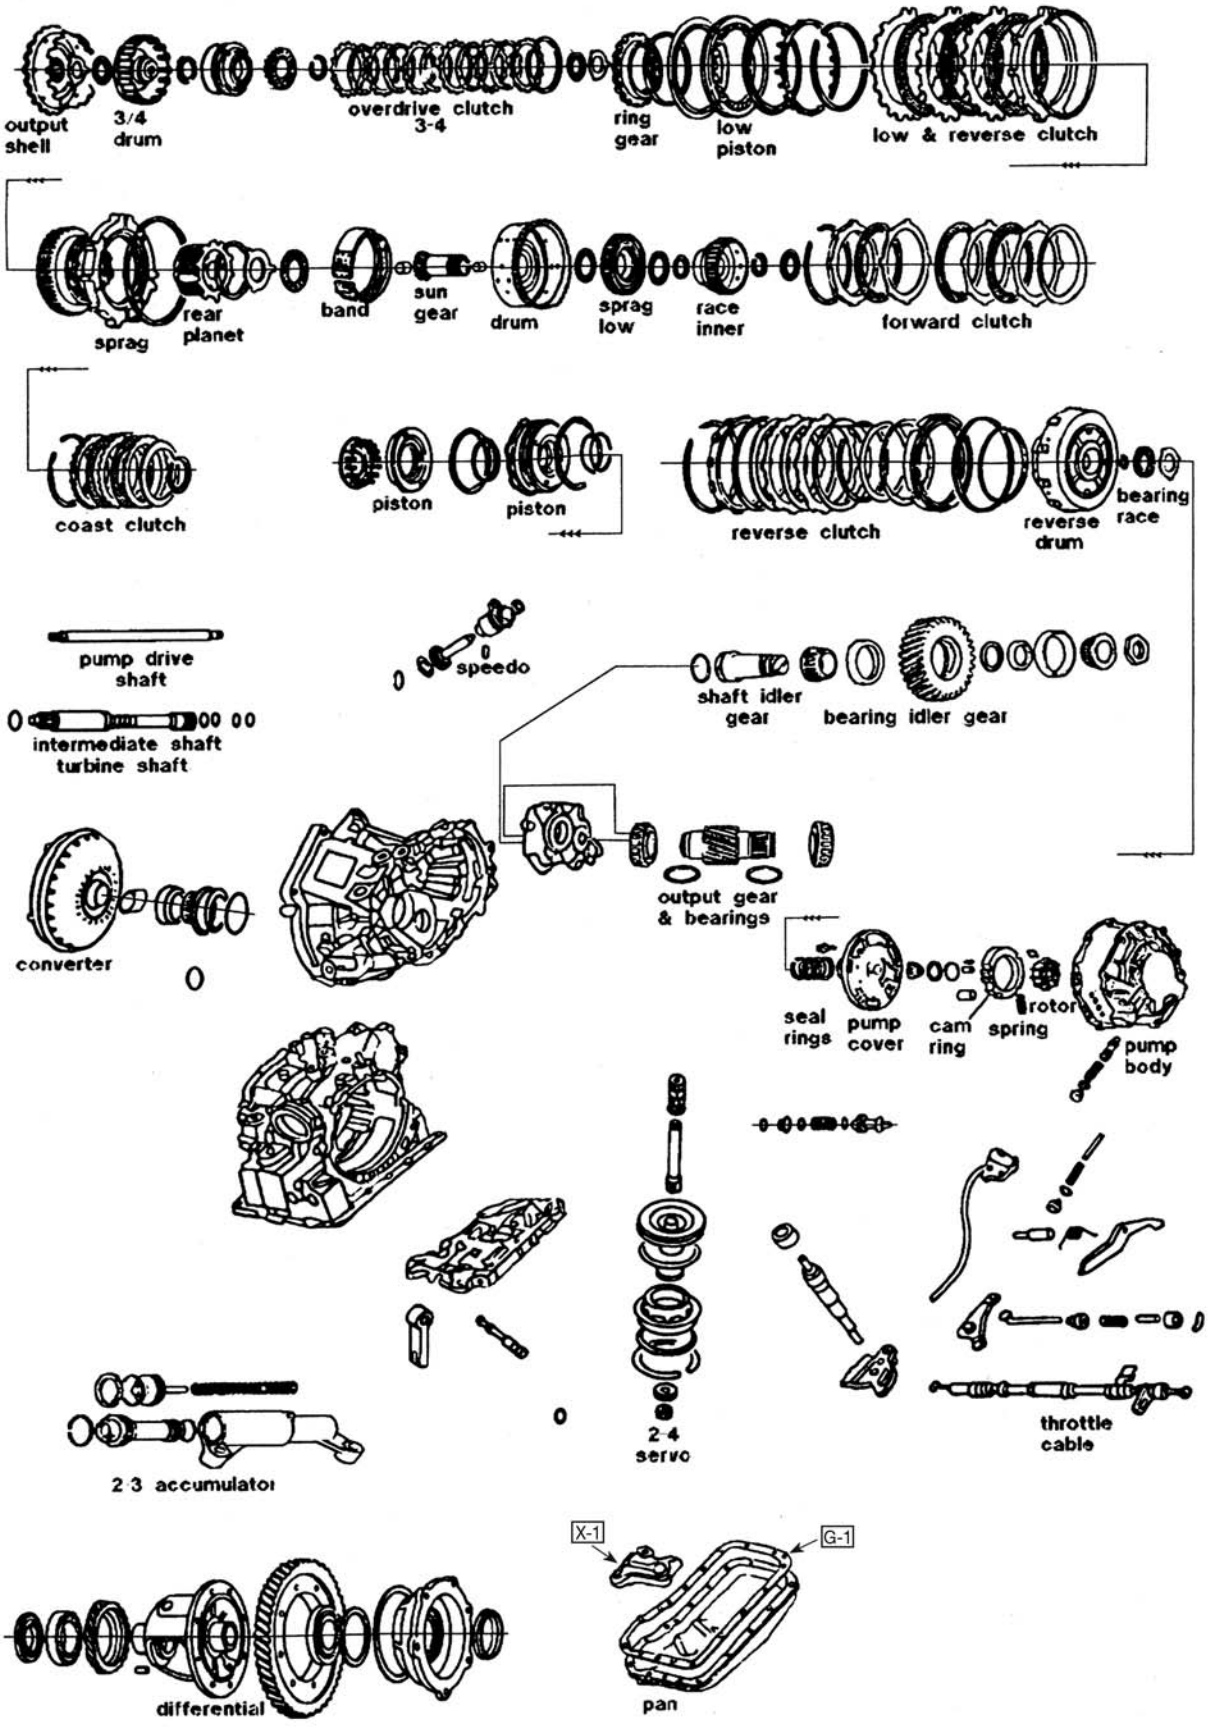

Benefits:

- Saves Time and Money
- Lubricates and Protects Racks and Pumps
- Eliminates Stiffness
- Extends System Life

AT-213 contains 4 fluid ounces and is packed 12 per case.

atp professional auto parts®

Chemicals by ATP-Inc.

ATP Part No. AT-202
Synthetic Automatic Transmission Fluid Protectant

For all Transmission Fluids including Dexron® VI.

Protects Transmission:

- **Prevents torque converter shudder** and clutch pack chatter
- Prevents overheating
- Reduces wear
- Ensures proper shifts

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid when combined with Dexron®/Mercon® fluid
- will cure torque converter shudder that is common on Ford Motor Co. transmissions
- use in 4x4 transfer cases and Allison transmissions
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-202 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-203
Synthetic Automatic Transmission Fluid Friction Modifier

Why carry several different types of transmission fluid?

No. AT-203 converts Dexron®/Mercon® fluid to a friction modified fluid such as:

- Chrysler Corp (ATF Plus®, III & IV)
- Honda (Genuine® & ATFZ1)
- Mitsubishi (Diamond® & SLF)
- Hyundai (Genuine®)
- Kia (SP3)
- Nissanmatic® (D, J, K)
- Toyota (Genuine,® TIV, & T-V)

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid with special friction modifiers when combined with Dexron®/Mercon® fluid. Replaces (7) manufacturer specific fluids
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-203 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-206 M Five Alternate

In 1997, Ford Motor Company introduced Mercon®V automatic transmission fluid for use in 1997 or later A4LD-E (4R44E) and 5R55E transmissions. Mercon®V is now also required for 1998 and later vehicles equipped with the AX4N and AX4S transaxles and AODE-W (4R70W) transmission. *Ford recently announced that Mercon®V fluid can be used in older vehicles.*

Consult owner's manual or fluid level indicator for proper fluid usage.

Use of the incorrect transmission fluid can lead to internal damage.

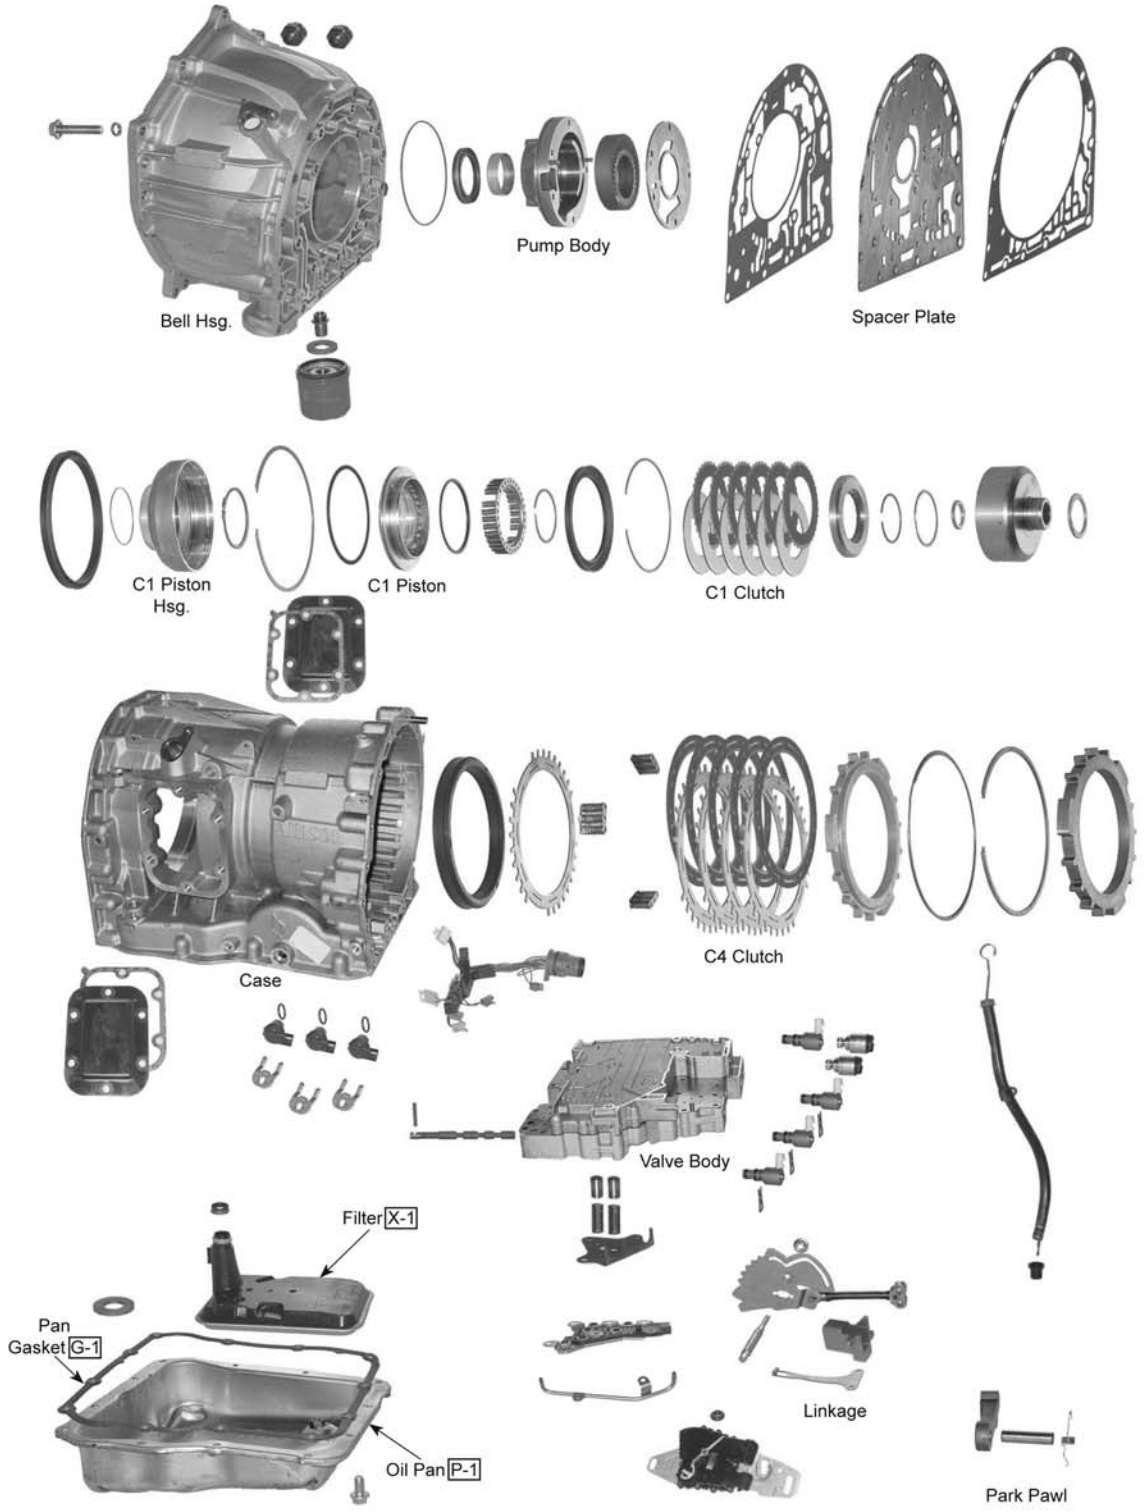

M Five Alternate allows you to use Dexron®/ Mercon® transmission fluid and convert it to a Mercon®V type fluid.

No. AT-206 is a synthetic product which extends the frictional stability and life of the Dexron®/Mercon® fluid, similar to Mercon®V.

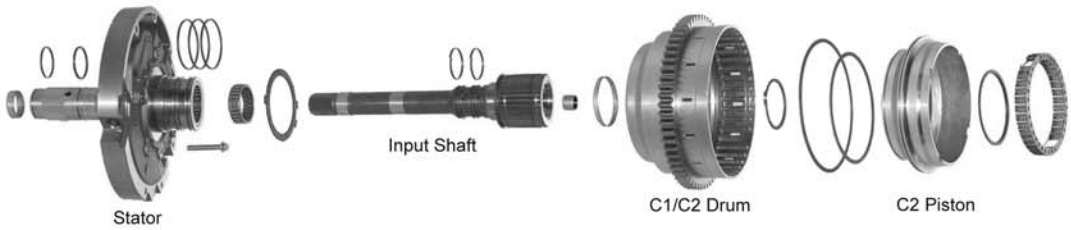

Key Sales Points:

- creates a semi-synthetic fluid with special frictional stability properties when combined with Dexron®/Mercon® fluid which is similar to Mercon®V. Eliminates the need to stock Mercon®V.
- when used with a complete transmission flush, one full bottle should be added.
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-206 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

Chemicals by ATP-Inc.

ATP Part No. AT-205 RE-SEAL®

AT-205

- Power Steering
- Transmission
- Engine
- Differential
- Any hydraulic system (except brake) including jacks, lifts, plows, industrial equipment, etc.
- AT-205 is the one product that does it all!
- AT-205 is a special plasticizer which softens and expands hydraulic seals to stop leaks.
- AT-205 does not contain any petroleum distillates.
- AT-205 will also restore sunroof seals, wiper blades and any rubber-based item (will not work on nylonor plastics).
- AT-205 works quickly (engine main seals will require (5) hours of running time) and will not cause the seal to become gummy and eventually break down like other products.
- Installers can treat any new seals, "o" rings, etc. to ensure a quality, leak-free rebuild. New seals, etc. actually shrink as they sit in a box in inventory. Just swab on AT-205 and install!

AT-207

Recommended Application Amounts

- power steering: ½ bottle
- transmission: (1) 8 oz. bottle
- engine: (1) 8 oz. bottle
- differential: ½ bottle
- other hydraulic equipment: (1) 8 oz. bottle (per 3 gallon capacity)
- seals, "o" rings, etc.: swab on
- wiper blades: swab on, do not use wipers for 2 hours

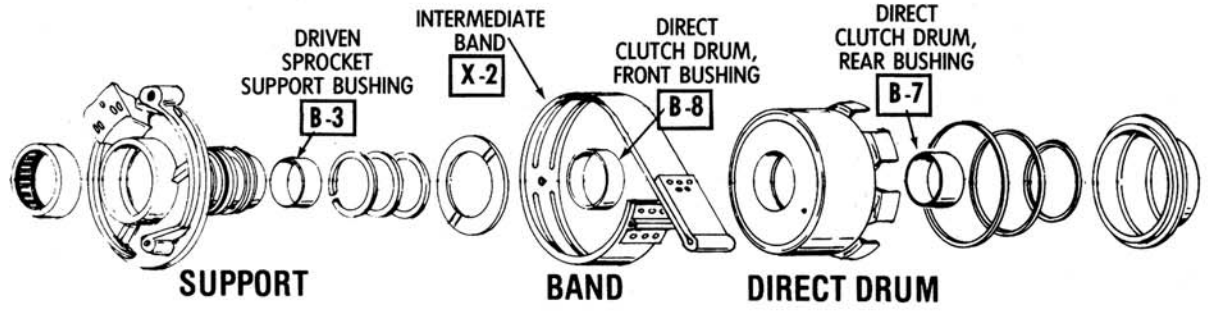

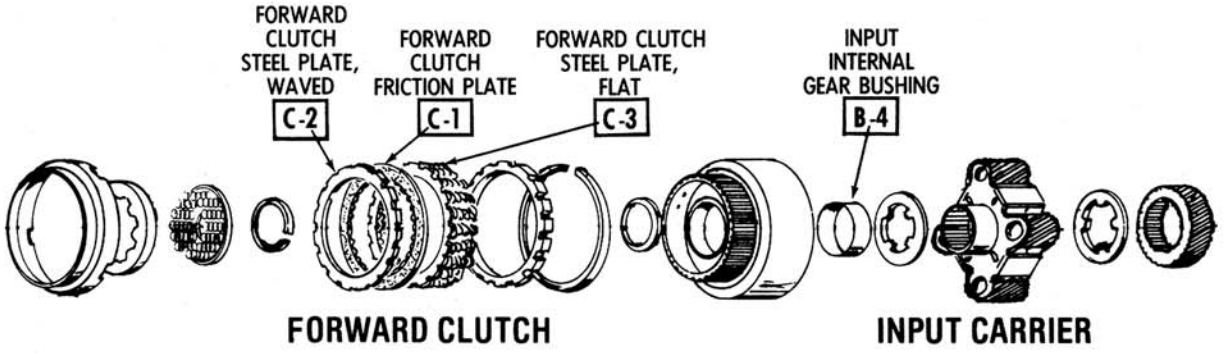

AT-212

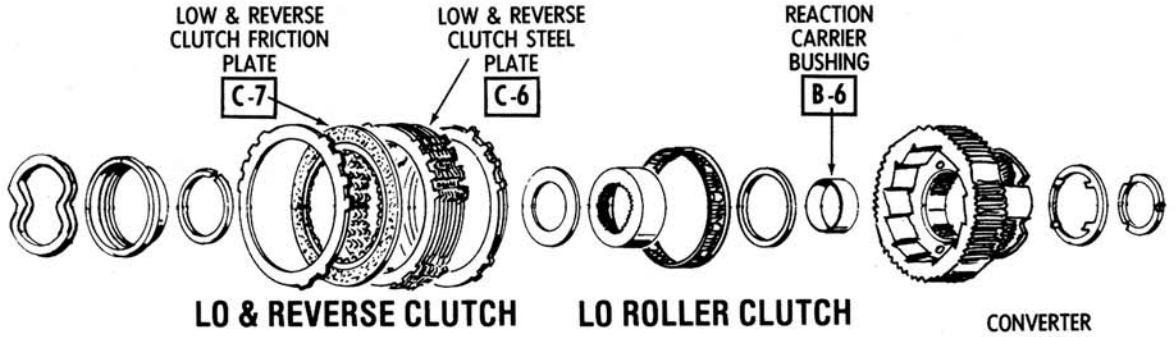

Key Sales Points:

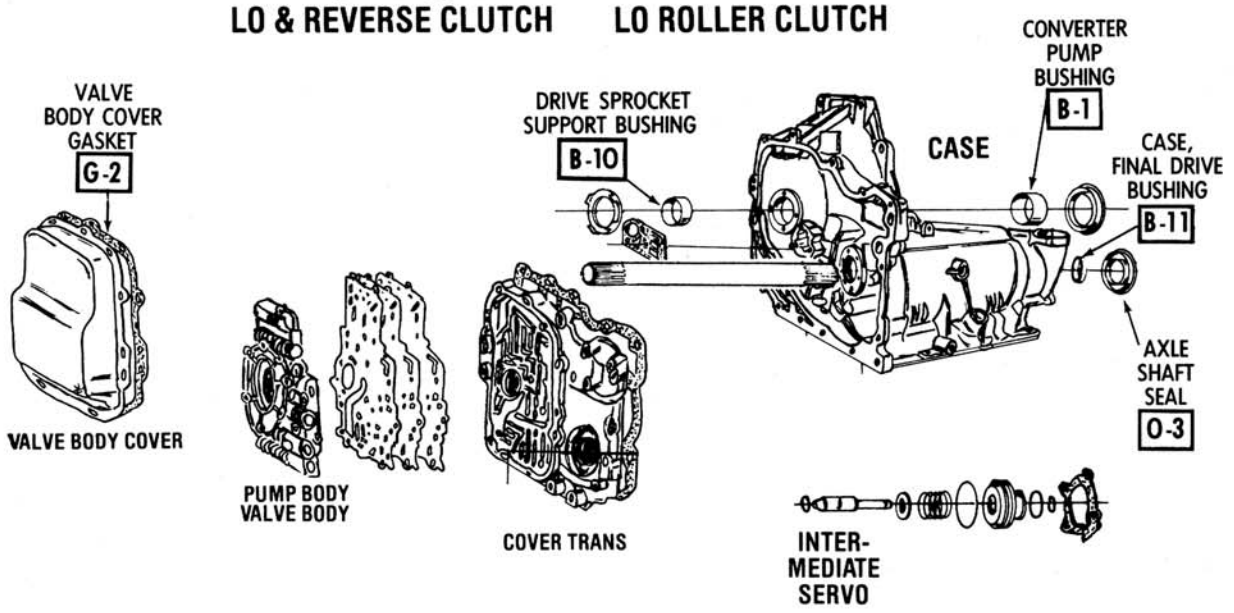

- replaces 10-12 single purpose leak stop products
- will restore any rubber-based item
- **also available: AT-207 — 5 gallon container of AT-205 RE-SEAL®**
- **also available: AT-212 — 2 oz. aerosol can of AT-205 RE-SEAL®**

Chemicals by ATP-Inc.

ATP Part No. AT-209
Synthetic Blend Transmission Flush & Conditioner

Are You Preparing A Transmission For New Fluid?

Safely clean all internal transmission components with ATP Transmission Flush & Conditioner!

- For automatic transmission applications
- For use with or without a flush machine
- Safely removes varnish deposits
- Contains no harsh, damaging solvents or alcohol
- Conditions seals to improve service life

Cross Sell:

- AT-202 Protectant — use when refilling the transmission with fresh fluid

ATP Part No. AT-210
Semi-Synthetic Limited Slip Differential Supplement

ATP Semi-Synthetic Limited Slip Supplement is specifically formulated to be added to gear oil in all limited slip differentials.

ATP Limited Slip Supplement provides superior protection with its unique synthetic technology.

- Eliminates chatter
- Protects clutch surfaces
- Reduces operating temperature

Key Sales Points:

- semi-synthetic formulation for all types of limited slip differentials.

What's That SMELL?

It could be the air conditioner.

ATP-Inc. Part No. AT-211 CLEAN 'N COAT® is sprayed into the evaporator case to clean the cooling coil and then coat it. This coating repels water for up to 1 year. No moisture buildup — NO SMELL! No. AT-211 is not a perfume or masking agent — it attacks the problem.

Under normal operating conditions, moisture builds up on the evaporator cooling coil. Most of this moisture drains out of the system. Some moisture can remain on the evaporator cooling coil and mix with pollutants and microscopic contaminants. Soon, everytime the air conditioner is turned on out comes that "dirty socks" odor.

If you are currently servicing interior ventilation (cabin air) filters and/or air conditioning systems, this is the perfect add-on service!

Start Up Package, No. A-502

Contains:

(2) 6 fl. oz. cans of CLEAN 'N COAT® (Part No. AT-211)

(1) 18″ x 26″ Full Color Poster

(50) Full Color Consumer Handouts with Holder

Poster alerts consumer that there is a solution to that awful smell!

Handouts explain how the odor develops and how it can be eliminated.

(For Additional Handouts, Order Part No. A-503)

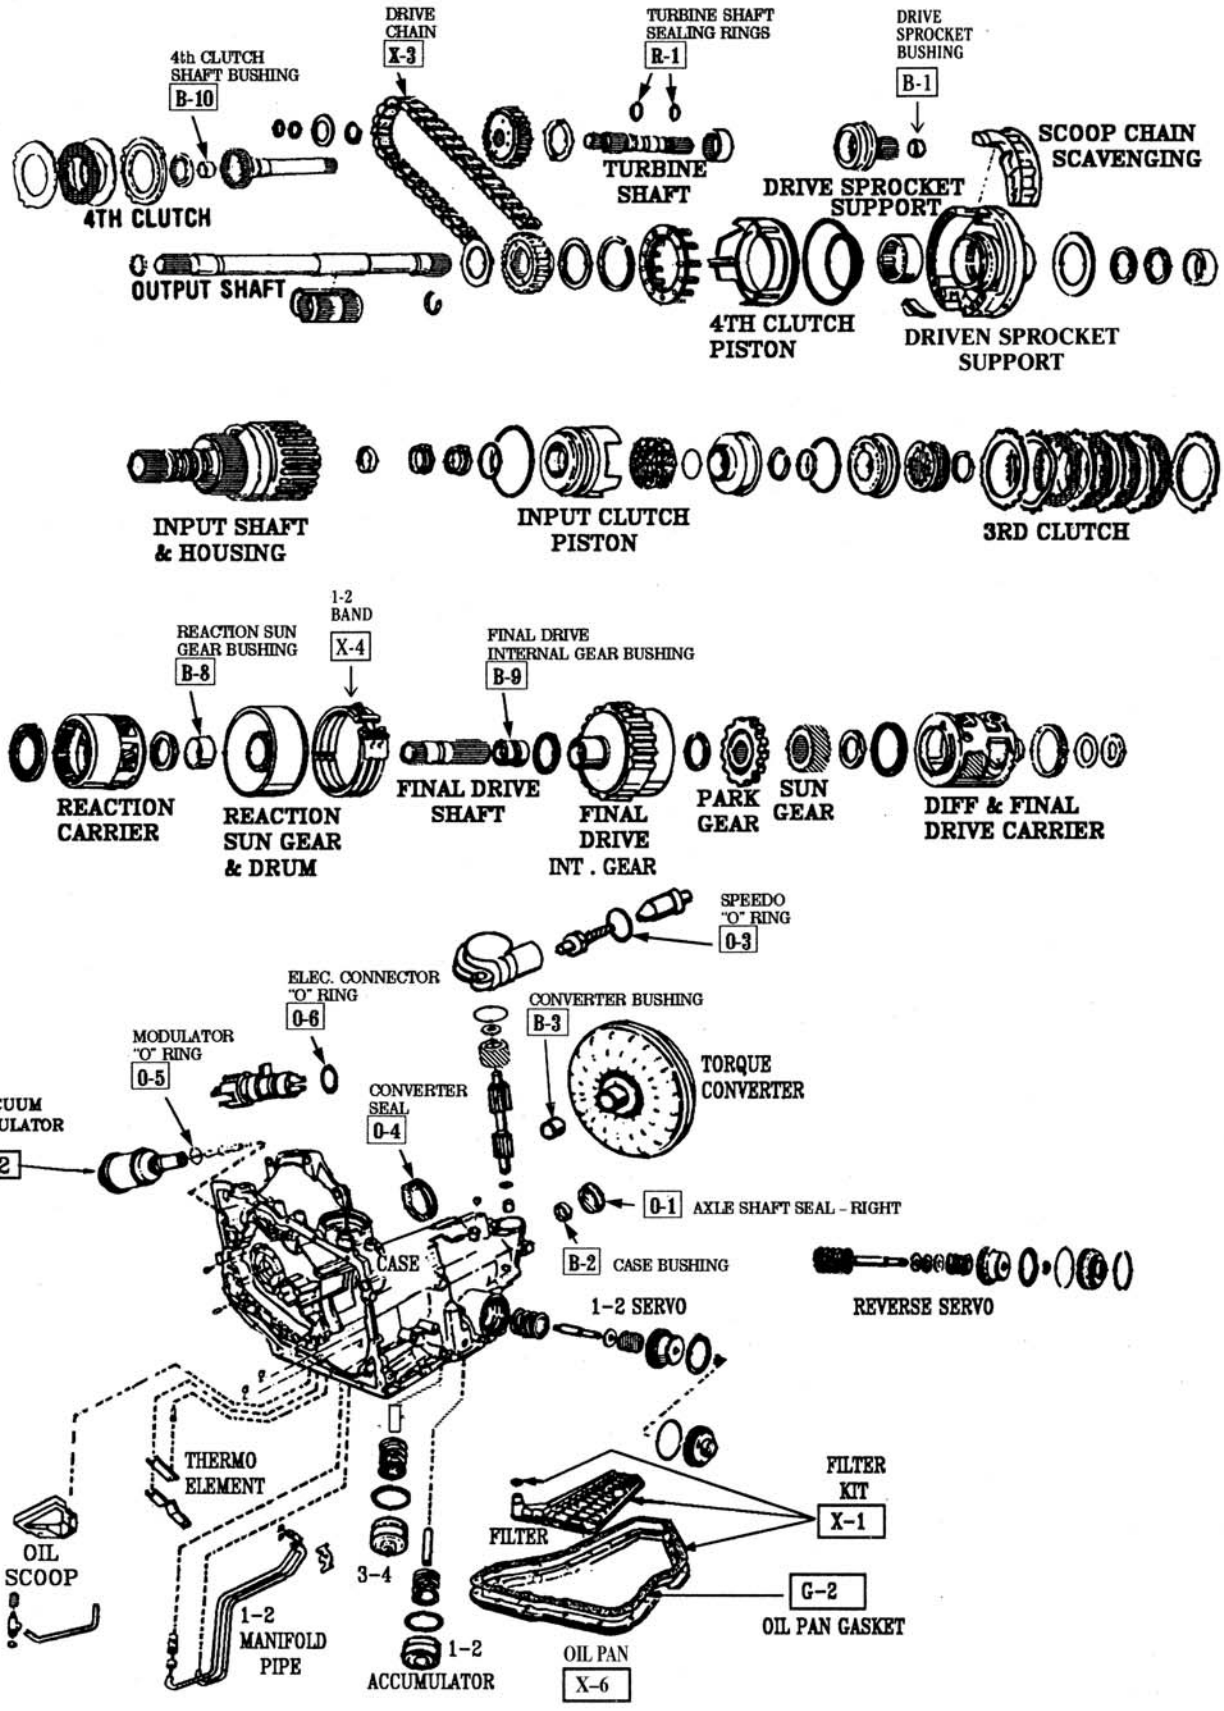

AT-211 CLEAN 'N COAT®

This service can be performed in 30-45 minutes.

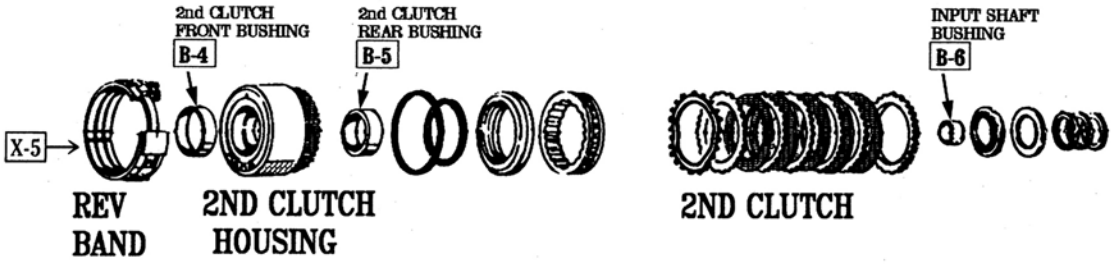

Suggested retail for product and application is $69.95. Your customers can be breathing fresher air soon!

It's GREEN!

ALL NATURAL!

ZEO·TRAP™ by atp

ODOR AND MOISTURE CONTROL

The 'Ultimate' GREEN Product

- **RENEWABLE... The LAST ODOR ELIMINATOR YOU WILL EVER NEED!** Zeolite can be **regenerated** by placing the pouch in the sun. Every 9-10 months, place the pouch in direct sunlight for 8 hours.

  Zeolite Eliminates — smoking, food, diaper, sweat, pet, vinyl and plastic out-gassing (new car smell) odors.

Zeo•Trap ATP Part No. ZE-1
Includes: One – 2 lb. **NEW Tyvek® Pouch** Which Eliminates 'Dusting' & Is Enclosed In The **NEW Sealed, Full-Color Consumer Packaging** Which Ensures The Pouch Will Remain Moisture & Odor Free Until Opened!

Zeo•Trap Counter Display
ATP Part No. A-508
Includes: One Counter Display, Six – 2 lb. **NEW Tyvek® Pouch** Which Eliminates 'Dusting' & Is Enclosed In The **NEW Sealed, Full-Color Consumer Packaging** Which Ensures The Pouch Will Remain Moisture & Odor Free Until Opened!

- **ALL NATURAL... ATP's NEW & IMPROVED Zeo•Trap is manufactured from the finest Zeolite deposits in the world.** Zeolite is a mineral formed from microporous volcanic ash. The negatively ionic charged zeolite attracts the positively charged odor particles. Zeolite ADSORBS (an electrical process) the odors. Zeolite also ABSORBS (a mechanical process) moisture. Zeolite **TRAPS** the odor molecules. **ATP's NEW & IMPROVED Zeo•Trap has a higher absorption rate than ever before.**
- **ECO-SAFE... Zeolite is Non-Toxic** — will **not cause allergic reaction** or sensitivities to perfumes or chemical additives. Zeolite is EPA approved to be disposed with normal household waste. However, in some jurisdictions local rules may apply.
- **Place Under the Seat or in the Trunk** — wherever odors exist.

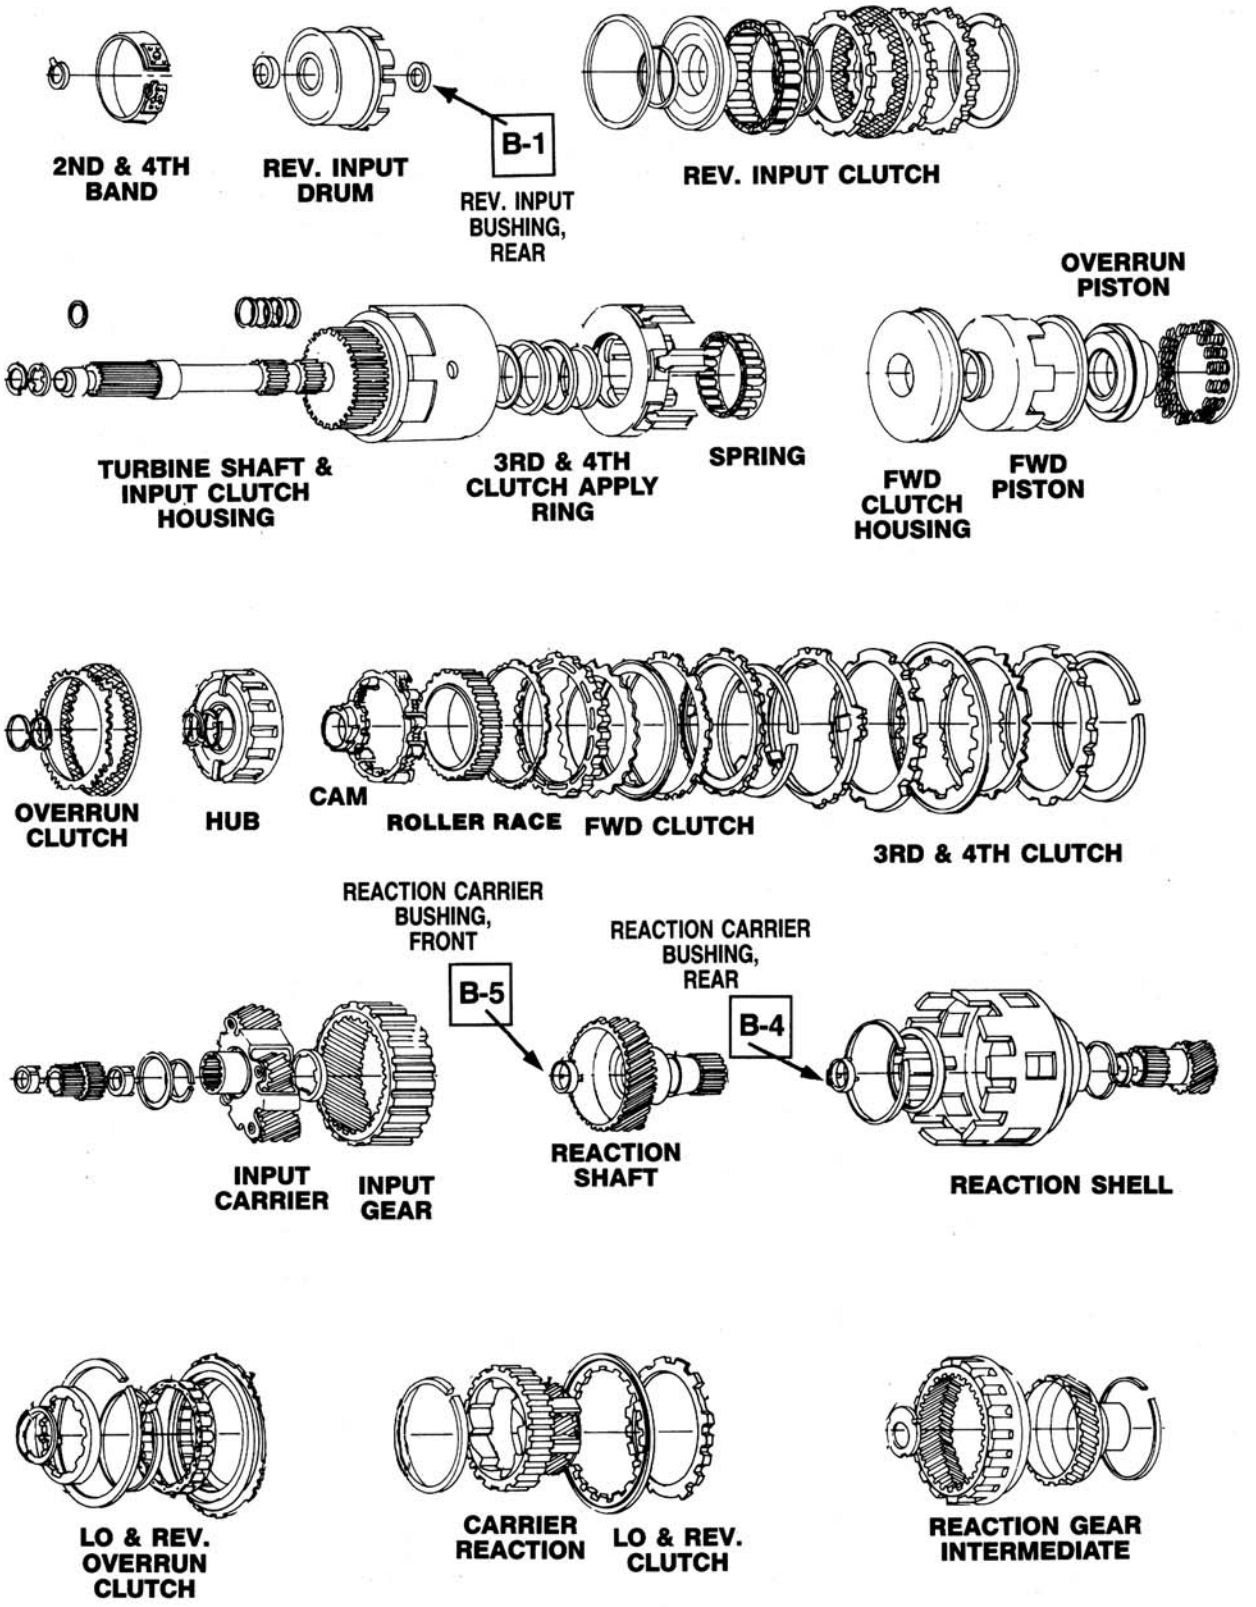

The Value Is In The Brand!

TRANSMISSION OIL PANS

PART NO. 103011

Use gasket XG-1 to complete installation.

1980-2001
GM vehicles with TH125 (3T40) transmission
O.E. No.: 8643574

PART NO. 103012

Use gasket JG-100 to complete installation.

1984-1993
GM vehicles with TH440-T4 (4T60) transmission
O.E. No.: 8675995

PART NO. 103013

Use gasket JG-138 (O.E. style molded rubber) to complete installation.

1995-2007
GM vehicles with 4T40E and 4T45E transmissions
O.E. No.: 8685184

PART NO. 103016

Use gasket TG-18 to complete installation.

1982-2002
Chrysler A404/413/670, 30TH, 31TH
Pan Depth: 2 ¼″
O.E. No.: 4471573

PART NO. 103017

Use gasket SG-30 to complete installation.

1982-2002
GM TH700R4/4L60/4L60-E
Pan Depth: 2 ⅜″ With Drain Plug
O.E. No.: 8663948, 8667545

PART NO. 103018

Use gasket FG-114 to complete installation.

1966-1996
Ford C-6
Pan Depth: 2 ⅛″ With Drain Plug
O.E. No.: C6AZ7A194A, D5aZ7A194A, E5TZ7A194D, E5TZ7A194E

PART NO. 103019

Use gasket TG-10 to complete installation.

1962-1998
Chrysler A727
Pan Depth: 1 ⅛″
O.E. No.: 4058997

PART NO. 103177

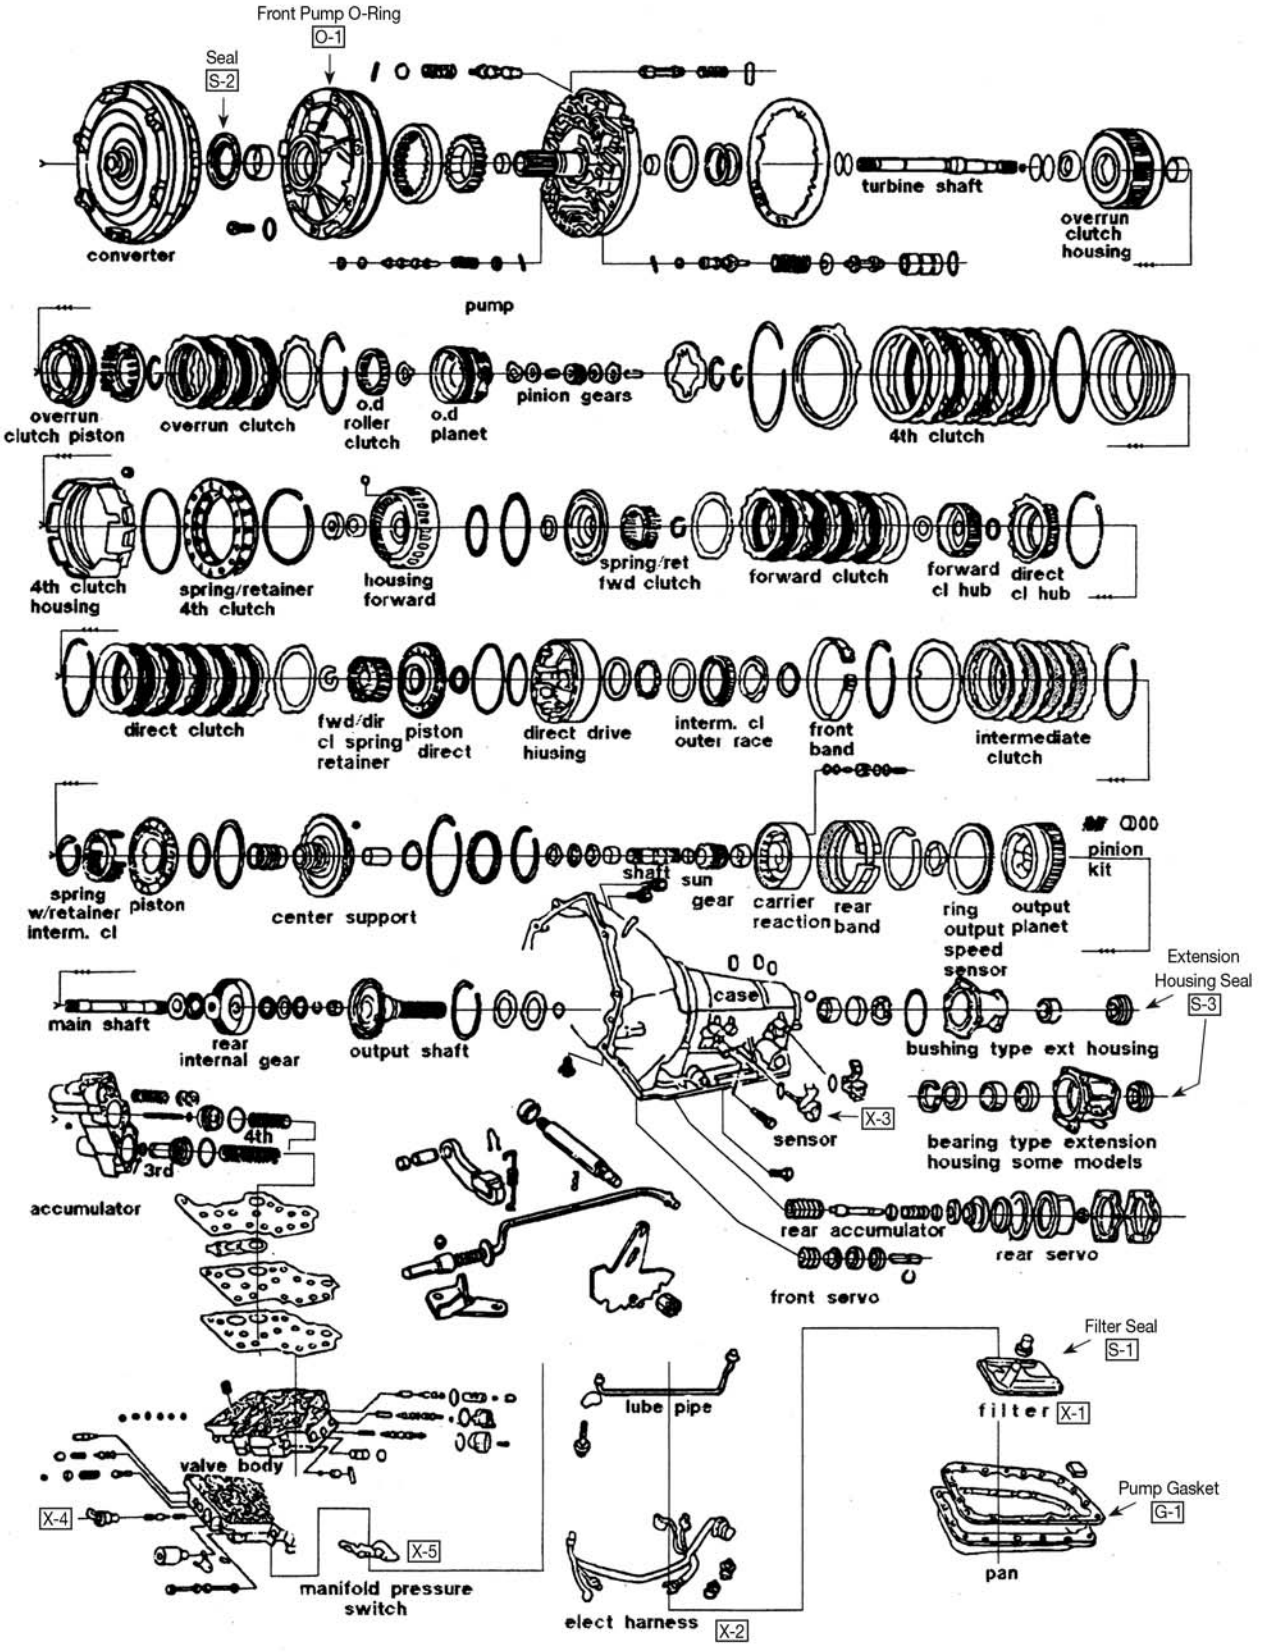

2004-2010
ZF 6HP19
O.E. No.:
24117536387

PART NO. 103178

2002-2010
ZF 6HP26
O.E. No.:
24117522923

Inventory Solutions With Quality ATP Chemicals

ATP MULTI-SERVICE FLUSH & CONDITIONER

Part No.: AT-218 • 16 Fluid Ounces

For Engine, Transmission & Power Steering Systems

EASY TO USE PRE-MEASURED BOTTLE

- Safely Removes Sludge, Varnish And Contaminants — Contains NO Harsh, Damaging Solvents Or Alcohol
- Prepares Seals And System For New Lubricants
- Pre-Measure Bottle Allows The Correct Amount To Be Measured And Dispensed
- Use With Or Without Fluid Exchange Machines

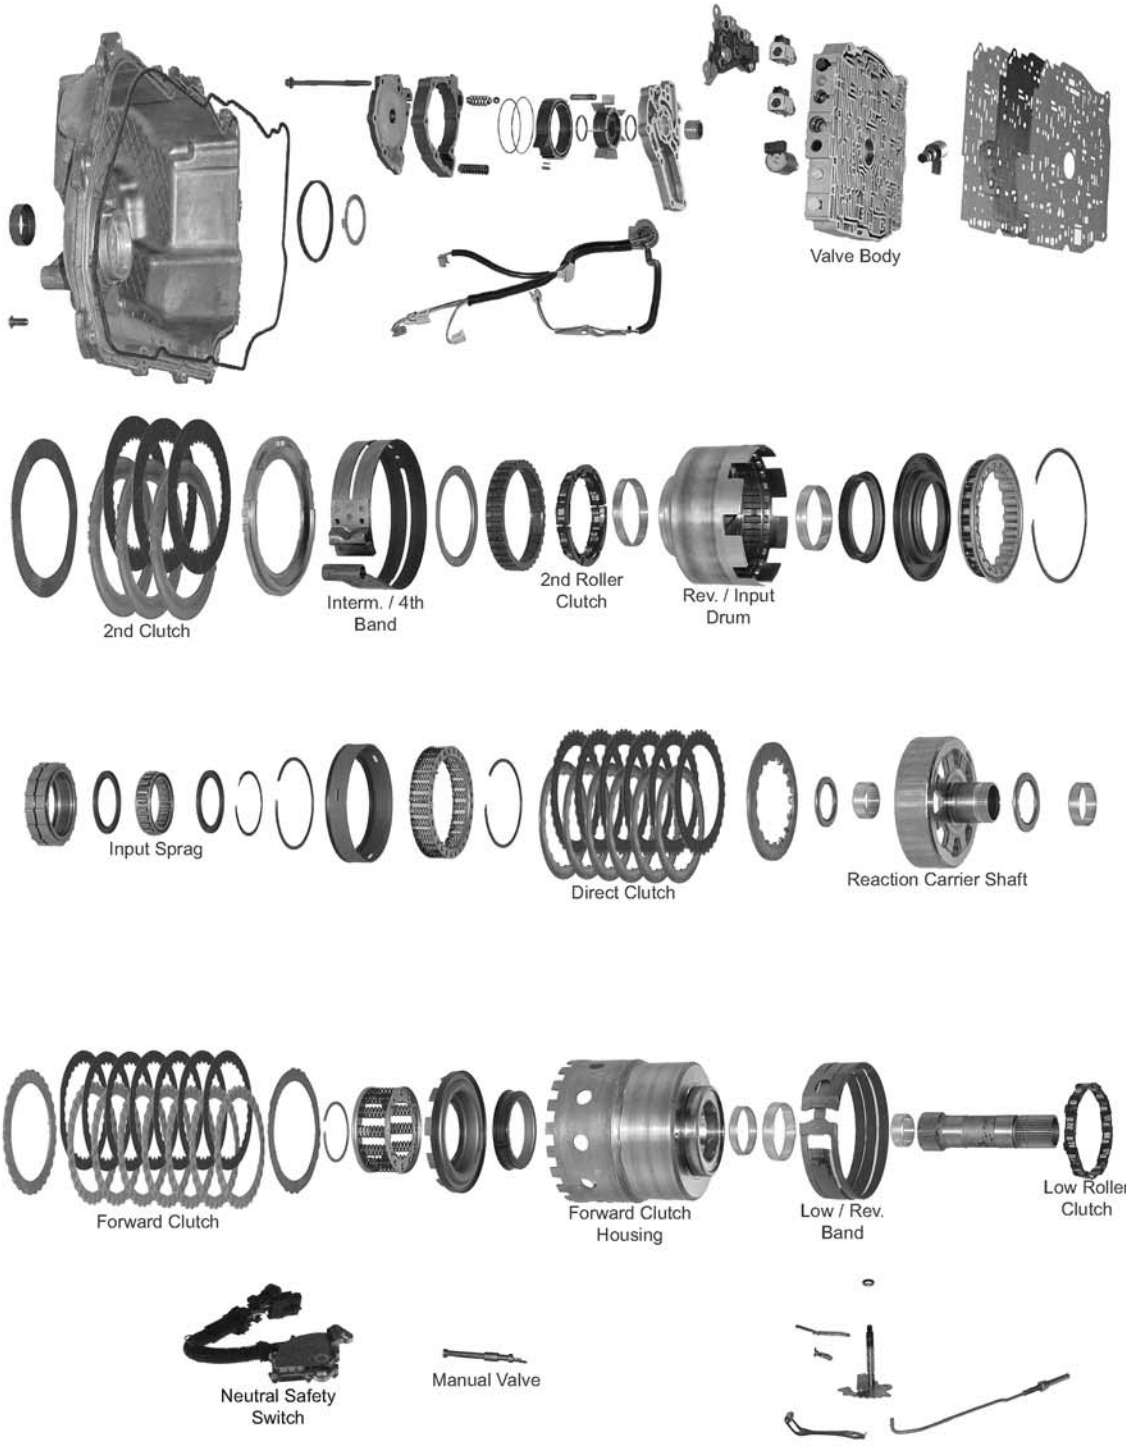

You Only Need One Product (Part No. AT-218) For ALL Your Flushing Needs!

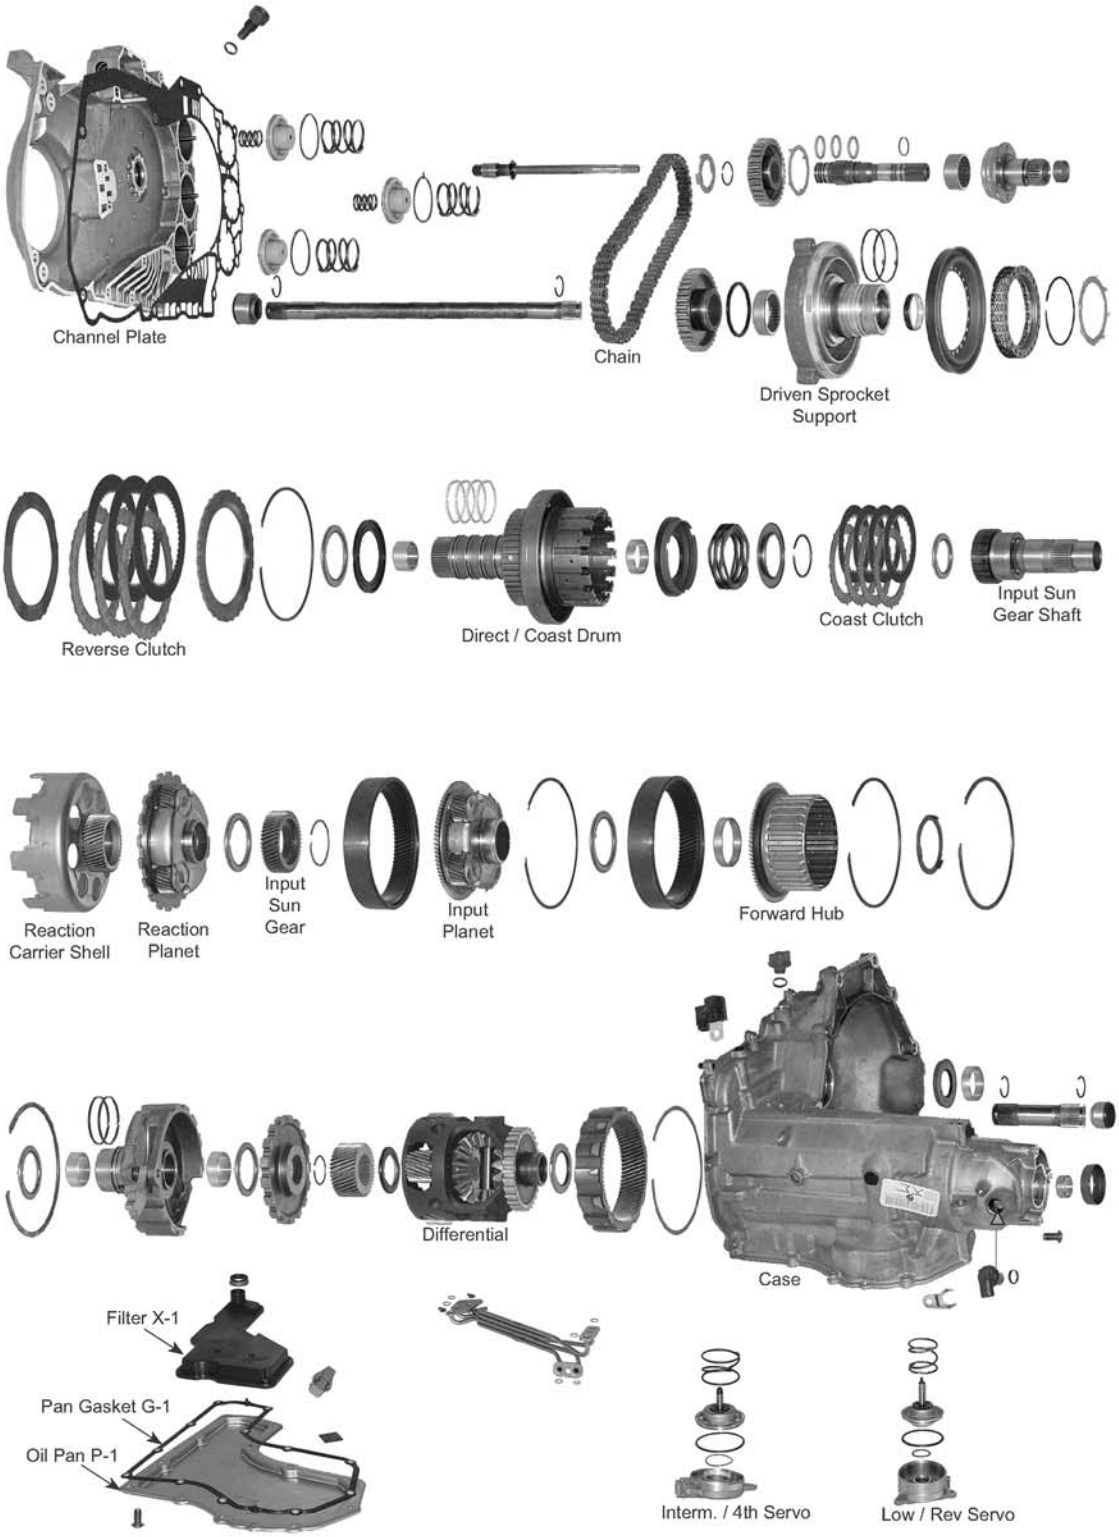

The Value Is In The Brand!

NEW! ATP Line Splice Kits

ATP Line Splice Kits Work on Steel OR Aluminum Lines for ANY A/C, Transmission, Power Steering Line Repair.

PROBLEM

SOLUTION

BENEFITS

- Permanent Leak Seal — No Line Removal
- No Special Tools Needed — Install With Wrenches
- Better Seal Technology Than Traditional Fittings — 10x Thicker Seal Than O-Rings
- Leak Free To 2300 psi
- Do NOT Use On Brake Or Fuel Lines

Part No.	Description
JX-175	Line Splice Kit for 1/2″ O.D. Lines
JX-176	Line Splice Kit for 3/8″ O.D. Lines

Interior Ventilation Filters

Only ATP Gives You A Choice!

PREMIUM Filters — 150 Part Numbers

- Activated Carbon Coating REMOVES ODORS
- Filter Media Captures Particles, Pollen, Dust, etc.

VALUE Filters — 194 Part Numbers

- Filter Media Captures Particles, Pollen, Dust, etc. BUT NOT ODORS!

- **Value Line** — Lower Cost Alternative
- **Up Sell** — From the Value Line to the Premium Line
  — Better for Consumer — Higher Ticket (more profit $)
  — $5.00 Rebate to the Consumer
- **Value Line Box Upgrade Label**
- **A-511 Start Up Package** — DOMESTIC/IMPORT COVERAGE

No. A-511 Contains These Premium Filters:
(1) FA-5 (1) GA-1 (1) GA-3 (1) GA-4 (1) HA-5 (1) RA-3

These Merchandising Items are FREE of Charge!
You pay for only the filters.

(1) Clean/Dirty Filter Counter Display
(2) Full Color 18″ x 26″ Posters
(50) Full Color Handouts with Holder
(50) $5.00 Rebate Coupons
(25) Reminder Stickers indicating when filter should be serviced next and which ATP filter to use.

Chemicals by ATP-Inc.

ATP Part No. AT-200 Cooler Flush Kit

18 oz. can complete with 5/16" fitting & hose. 12 per case. 3/8" fitting available separately, part no. AX-1. Banjo fitting available separately, part no. AX-2.
The only way to effectively clean the automatic transmission cooler and lines.
Each can provides 2-3 complete flushes. Flush product is completely biodegradable (dispose of used transmission fluid properly.) Contains no CFCs.
Eliminates contamination when:

- Installing a rebuilt transmission
- Installing a used radiator
- A large amount of "sludge" is found in the transmission pan

Don't forget to install an ATP in-line magnetic filter to prevent future contamination.

Key Sales Points:

- high pressure effectively aids in cleaning
- can be sold in California — environmentally safe

Cross Sell:

- in-line magnetic filters

ATP Part No. AT-201 ATP Transmission Assembly Lube

It's Blue!

Specially formulated for use as an assembly lubricant for "O" rings, gaskets, bearings, bushings, sealing rings, thrust washers, seals, etc.
After assembly and once the transmission is up to operating temperature, any misplaced lube will melt and drip off the transmission. The blue color prevents the installer from misdiagnosing a leak. ***This lube can be used anywhere on the vehicle where a petroleum-based lubricant is needed or parts need to be held together for reassembly.***

Key Sales Points:

- can be used anywhere on the vehicle (except high pressure applications — differential gears)

ATP Part No. AT-213 Synthetic Blend Power Steering Fluid Protectant

- Eliminates Whines and Noise in Power Steering Systems
- Converts Regular Power Steering Fluid into a Universal Fluid to be used in vehicles such as: GM, Chrysler, Ford, Honda, Toyota and More...

For use with ALL Power Steering Fluids

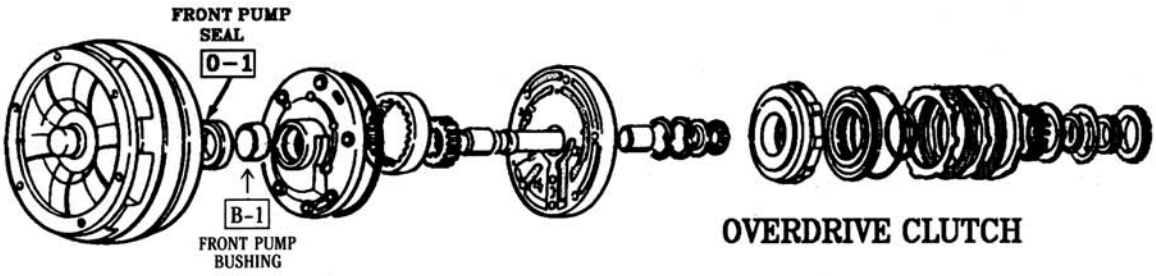

Benefits:

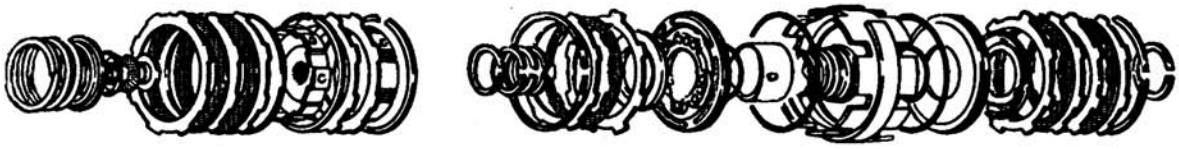

- Saves Time and Money
- Lubricates and Protects Racks and Pumps
- Eliminates Stiffness
- Extends System Life

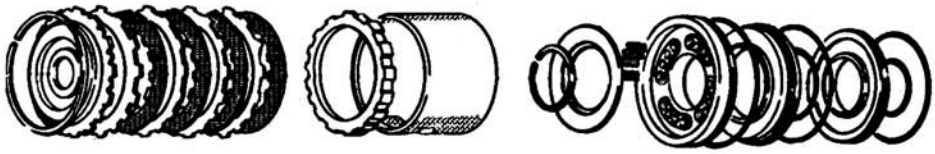

AT-213 contains 4 fluid ounces and is packed 12 per case.

Chemicals by ATP-Inc.

ATP Part No. AT-202
Synthetic Automatic Transmission Fluid Protectant

For all Transmission Fluids including Dexron® VI.

Protects Transmission:

- **Prevents torque converter shudder** and clutch pack chatter
- Prevents overheating
- Reduces wear
- Ensures proper shifts

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid when combined with Dexron®/Mercon® fluid
- will cure torque converter shudder that is common on Ford Motor Co. transmissions
- use in 4x4 transfer cases and Allison transmissions
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-202 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-203
Synthetic Automatic Transmission Fluid Friction Modifier

Why carry several different types of transmission fluid?

No. AT-203 converts Dexron®/Mercon® fluid to a friction modified fluid such as:

- Chrysler Corp (ATF Plus®, III & IV)
- Honda (Genuine® & ATFZ1)
- Mitsubishi (Diamond® & SLF)
- Hyundai (Genuine®)
- Kia (SP3)
- Nissanmatic® (D, J, K)
- Toyota (Genuine,® TIV, & T-V)

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid with special friction modifiers when combined with Dexron®/Mercon® fluid. Replaces (7) manufacturer specific fluids
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-203 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-206 M Five Alternate

In 1997, Ford Motor Company introduced Mercon®V automatic transmission fluid for use in 1997 or later A4LD-E (4R44E) and 5R55E transmissions. Mercon®V is now also required for 1998 and later vehicles equipped with the AX4N and AX4S transaxles and AODE-W (4R70W) transmission. *Ford recently announced that Mercon®V fluid can be used in older vehicles.*

Consult owner's manual or fluid level indicator for proper fluid usage.

Use of the incorrect transmission fluid can lead to internal damage.

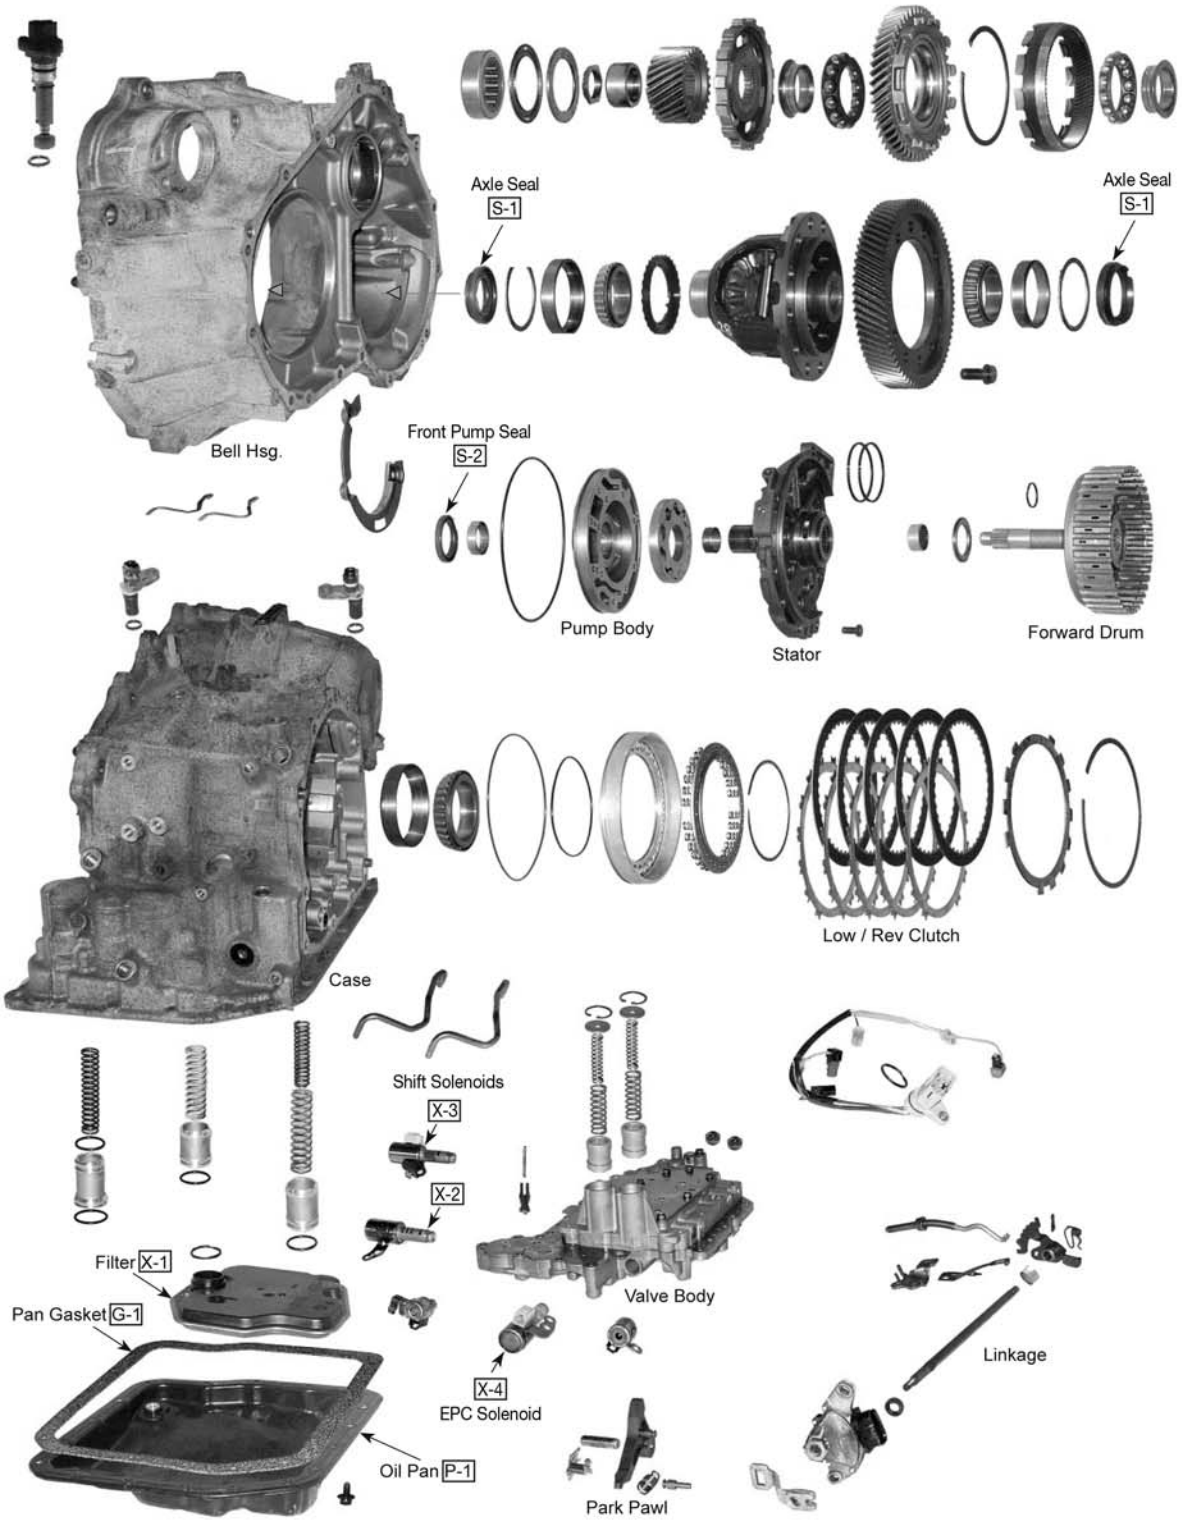

M Five Alternate allows you to use Dexron®/ Mercon® transmission fluid and convert it to a Mercon®V type fluid.

No. AT-206 is a synthetic product which extends the frictional stability and life of the Dexron®/Mercon® fluid, similar to Mercon®V.

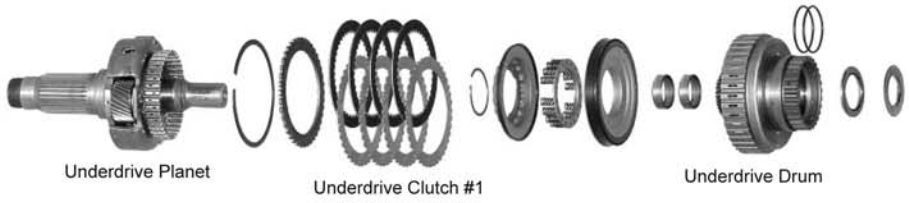

Key Sales Points:

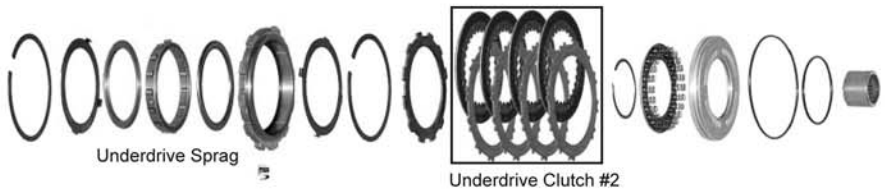

- creates a semi-synthetic fluid with special frictional stability properties when combined with Dexron®/Mercon® fluid which is similar to Mercon®V. Eliminates the need to stock Mercon®V.
- when used with a complete transmission flush, one full bottle should be added.
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-206 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

atp professional auto parts®

Chemicals by ATP-Inc.

ATP Part No. AT-205 RE-SEAL®

AT-205

- Power Steering
- Transmission
- Engine
- Differential
- Any hydraulic system (except brake) including jacks, lifts, plows, industrial equipment, etc.
- AT-205 is the one product that does it all!
- AT-205 is a special plasticizer which softens and expands hydraulic seals to stop leaks.
- AT-205 does not contain any petroleum distillates.
- AT-205 will also restore sunroof seals, wiper blades and any rubber-based item (will not work on nylonor plastics).
- AT-205 works quickly (engine main seals will require (5) hours of running time) and will not cause the seal to become gummy and eventually break down like other products.
- Installers can treat any new seals, "o" rings, etc. to ensure a quality, leak-free rebuild. New seals, etc. actually shrink as they sit in a box in inventory. Just swab on AT-205 and install!

AT-207

Recommended Application Amounts

- power steering: ½ bottle
- transmission: (1) 8 oz. bottle
- engine: (1) 8 oz. bottle
- differential: ½ bottle
- other hydraulic equipment: (1) 8 oz. bottle (per 3 gallon capacity)
- seals, "o" rings, etc.: swab on
- wiper blades: swab on, do not use wipers for 2 hours

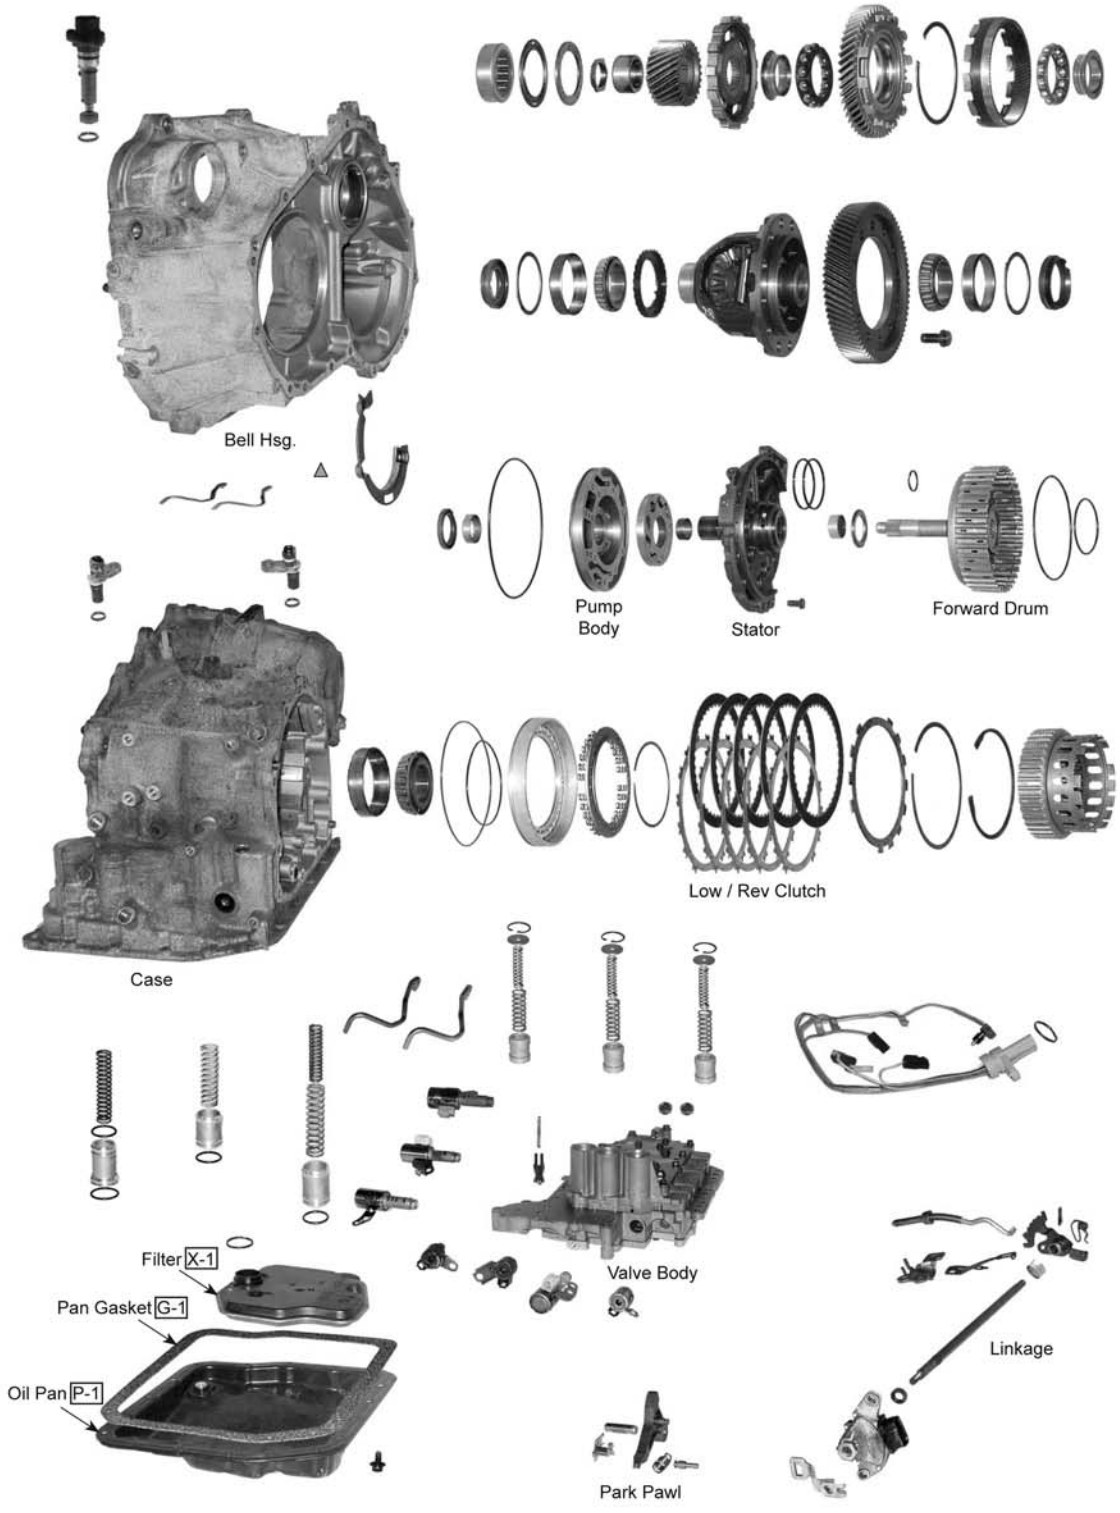

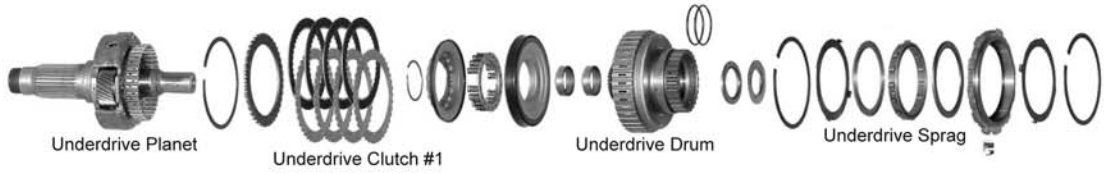

AT-212

Key Sales Points:

- replaces 10-12 single purpose leak stop products
- will restore any rubber-based item
- **also available: AT-207 — 5 gallon container of AT-205 RE-SEAL®**
- **also available: AT-212 — 2 oz. aerosol can of AT-205 RE-SEAL®**

Chemicals by ATP-Inc.

ATP Part No. AT-209
Synthetic Blend Transmission Flush & Conditioner

Are You Preparing A Transmission For New Fluid?

Safely clean all internal transmission components with ATP Transmission Flush & Conditioner!

- For automatic transmission applications
- For use with or without a flush machine
- Safely removes varnish deposits
- Contains no harsh, damaging solvents or alcohol
- Conditions seals to improve service life

Cross Sell:

- AT-202 Protectant — use when refilling the transmission with fresh fluid

ATP Part No. AT-210
Semi-Synthetic Limited Slip Differential Supplement

ATP Semi-Synthetic Limited Slip Supplement is specifically formulated to be added to gear oil in all limited slip differentials.

ATP Limited Slip Supplement provides superior protection with its unique synthetic technology.

- Eliminates chatter
- Protects clutch surfaces
- Reduces operating temperature

Key Sales Points:

- semi-synthetic formulation for all types of limited slip differentials.

What's That SMELL?

It could be the air conditioner.

ATP-Inc. Part No. AT-211 CLEAN 'N COAT® is sprayed into the evaporator case to clean the cooling coil and then coat it. This coating repels water for up to 1 year. No moisture buildup — NO SMELL! No. AT-211 is not a perfume or masking agent — it attacks the problem.

Under normal operating conditions, moisture builds up on the evaporator cooling coil. Most of this moisture drains out of the system. Some moisture can remain on the evaporator cooling coil and mix with pollutants and microscopic contaminants. Soon, everytime the air conditioner is turned on out comes that "dirty socks" odor.

If you are currently servicing interior ventilation (cabin air) filters and/or air conditioning systems, this is the perfect add-on service!

Start Up Package, No. A-502

Contains:

(2) 6 fl. oz. cans of CLEAN 'N COAT® (Part No. AT-211)

(1) 18″ x 26″ Full Color Poster

(50) Full Color Consumer Handouts with Holder

Poster alerts consumer that there is a solution to that awful smell!

Handouts explain how the odor develops and how it can be eliminated.

(For Additional Handouts, Order Part No. A-503)

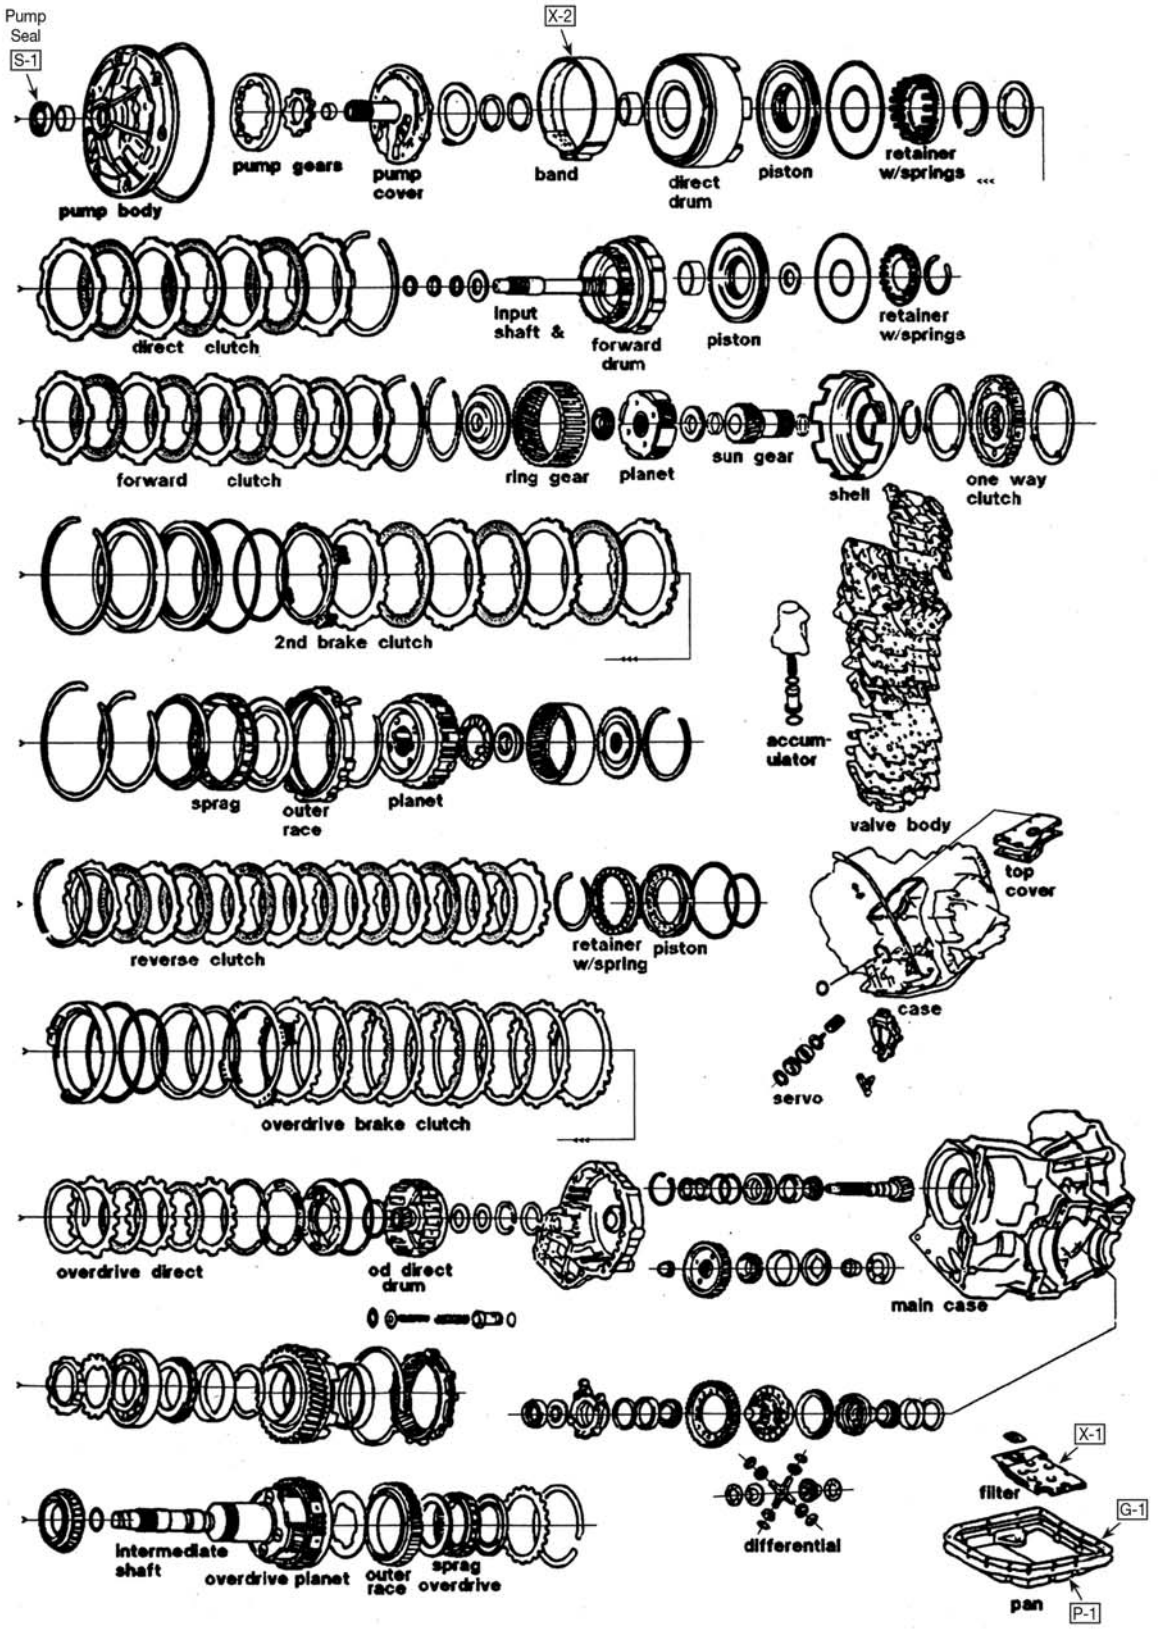

AT-211 CLEAN 'N COAT®

This service can be performed in 30-45 minutes.

Suggested retail for product and application is $69.95. Your customers can be breathing fresher air soon!

It's GREEN!

ALL NATURAL!

ZEO·TRAP™ by atp

ODOR AND MOISTURE CONTROL

The 'Ultimate' GREEN Product

- **RENEWABLE... The LAST ODOR ELIMINATOR YOU WILL EVER NEED!** Zeolite can be **regenerated** by placing the pouch in the sun. Every 9-10 months, place the pouch in direct sunlight for 8 hours.

  Zeolite Eliminates — smoking, food, diaper, sweat, pet, vinyl and plastic out-gassing (new car smell) odors.

Zeo•Trap ATP Part No. ZE-1
Includes: One – 2 lb. **NEW Tyvek® Pouch** Which Eliminates 'Dusting' & Is Enclosed In The **NEW Sealed, Full-Color Consumer Packaging** Which Ensures The Pouch Will Remain Moisture & Odor Free Until Opened!

Zeo•Trap Counter Display
ATP Part No. A-508
Includes: One Counter Display, Six – 2 lb. **NEW Tyvek® Pouch** Which Eliminates 'Dusting' & Is Enclosed In The **NEW Sealed, Full-Color Consumer Packaging** Which Ensures The Pouch Will Remain Moisture & Odor Free Until Opened!

- **ALL NATURAL... ATP's NEW & IMPROVED Zeo•Trap is manufactured from the finest Zeolite deposits in the world.** Zeolite is a mineral formed from microporous volcanic ash. The negatively ionic charged zeolite attracts the positively charged odor particles. Zeolite ADSORBS (an electrical process) the odors. Zeolite also ABSORBS (a mechanical process) moisture. Zeolite **TRAPS** the odor molecules. **ATP's NEW & IMPROVED Zeo•Trap has a higher absorption rate than ever before.**
- **ECO-SAFE... Zeolite is Non-Toxic** — will **not cause allergic reaction** or sensitivities to perfumes or chemical additives. Zeolite is EPA approved to be disposed with normal household waste. However, in some jurisdictions local rules may apply.
- **Place Under the Seat or in the Trunk** — wherever odors exist.

NEW! ATP Line Splice Kits

ATP Line Splice Kits Work on Steel OR Aluminum Lines for ANY A/C, Transmission, Power Steering Line Repair.

PROBLEM

SOLUTION

BENEFITS

- Permanent Leak Seal — No Line Removal
- No Special Tools Needed — Install With Wrenches
- Better Seal Technology Than Traditional Fittings — 10x Thicker Seal Than O-Rings
- Leak Free To 2300 psi
- Do NOT Use On Brake Or Fuel Lines

Part No.	Description
JX-175	Line Splice Kit for 1/2″ O.D. Lines
JX-176	Line Splice Kit for 3/8″ O.D. Lines
JX-177	Line Splice Kit for 5/16″ O.D. Lines
JX-178	Line Splice Kit for 5/8″ O.D. Lines
JX-179	Line Splice Kit for 3/8″ to 5/16″ O.D. Lines

Chemicals by ATP-Inc.

ATP Part No. AT-200 Cooler Flush Kit

18 oz. can complete with 5/16" fitting & hose. 12 per case. 3/8" fitting available separately, part no. AX-1. Banjo fitting available separately, part no. AX-2.
The only way to effectively clean the automatic transmission cooler and lines.
Each can provides 2-3 complete flushes. Flush product is completely biodegradable (dispose of used transmission fluid properly.) Contains no CFCs.
Eliminates contamination when:

- Installing a rebuilt transmission
- Installing a used radiator
- A large amount of "sludge" is found in the transmission pan

Don't forget to install an ATP in-line magnetic filter to prevent future contamination.

Key Sales Points:

- high pressure effectively aids in cleaning
- can be sold in California — environmentally safe

Cross Sell:

- in-line magnetic filters

ATP Part No. AT-201 ATP Transmission Assembly Lube

It's Blue!

Specially formulated for use as an assembly lubricant for "O" rings, gaskets, bearings, bushings, sealing rings, thrust washers, seals, etc.
After assembly and once the transmission is up to operating temperature, any misplaced lube will melt and drip off the transmission. The blue color prevents the installer from misdiagnosing a leak. ***This lube can be used anywhere on the vehicle where a petroleum-based lubricant is needed or parts need to be held together for reassembly.***

Key Sales Points:

- can be used anywhere on the vehicle (except high pressure applications — differential gears)

ATP Part No. AT-213 Synthetic Blend Power Steering Fluid Protectant

- Eliminates Whines and Noise in Power Steering Systems
- Converts Regular Power Steering Fluid into a Universal Fluid to be used in vehicles such as: GM, Chrysler, Ford, Honda, Toyota and More...

For use with ALL Power Steering Fluids

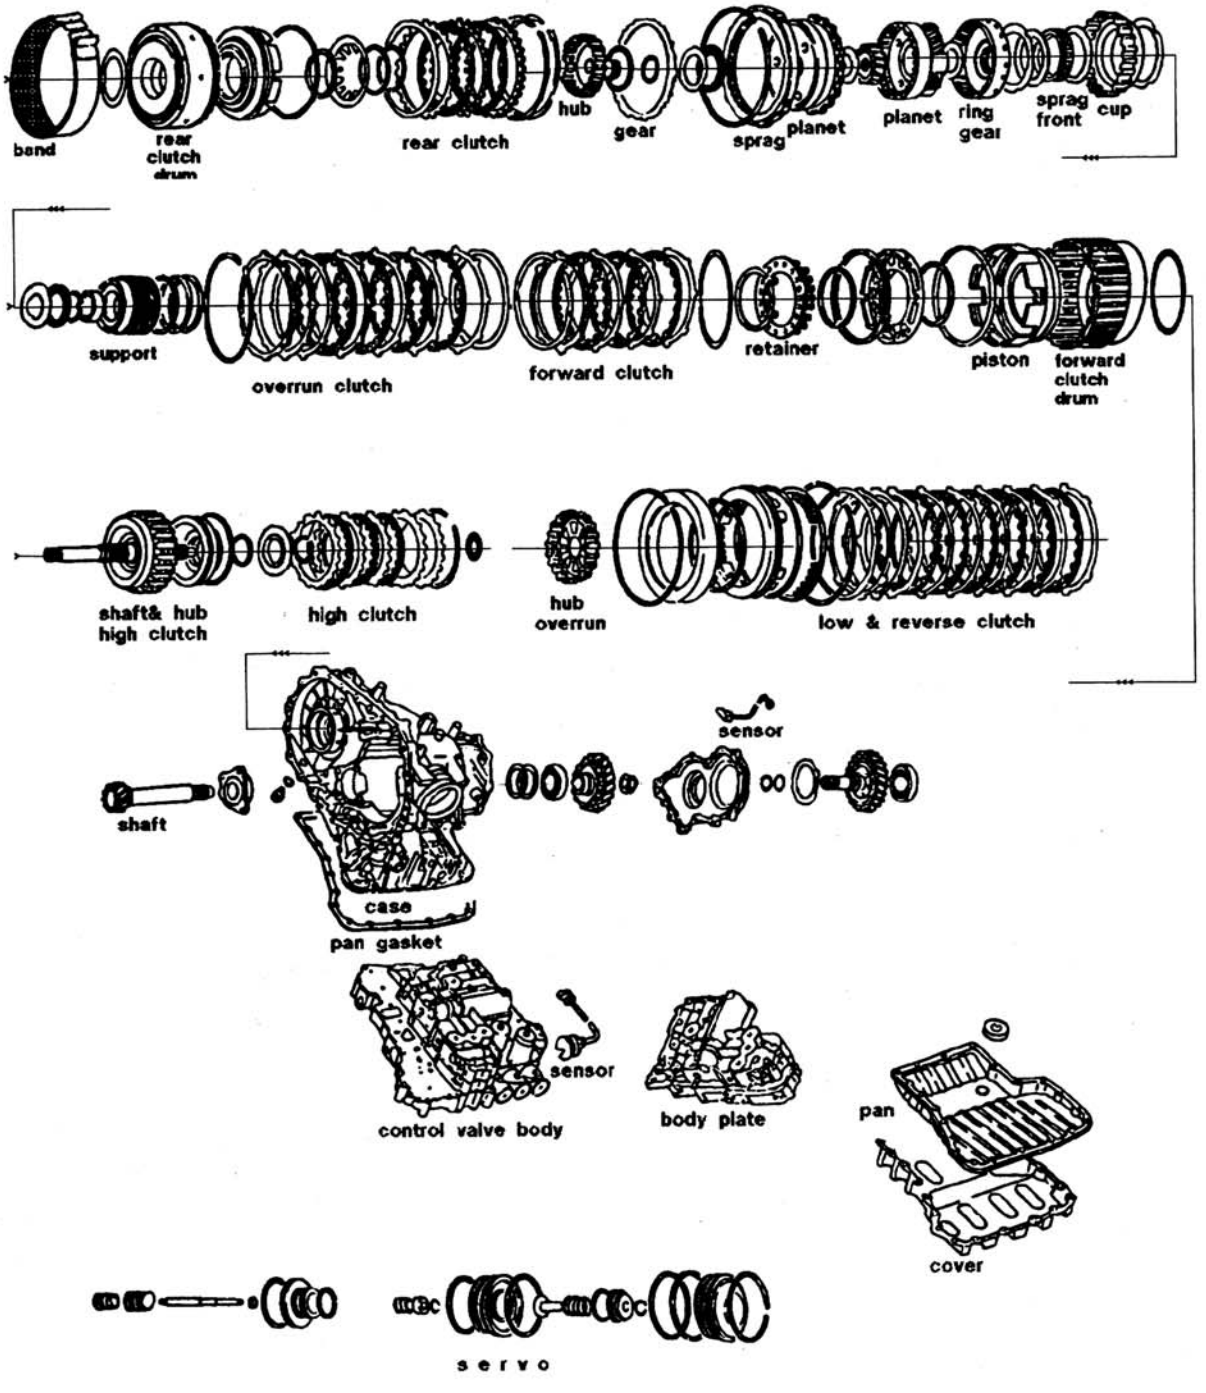

Benefits:

- Saves Time and Money
- Lubricates and Protects Racks and Pumps
- Eliminates Stiffness
- Extends System Life

AT-213 contains 4 fluid ounces and is packed 12 per case.

atp professional auto parts®

Chemicals by ATP-Inc.

ATP Part No. AT-202
Synthetic Automatic Transmission Fluid Protectant

For all Transmission Fluids including Dexron® VI.

Protects Transmission:

- **Prevents torque converter shudder** and clutch pack chatter
- Prevents overheating
- Reduces wear
- Ensures proper shifts

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid when combined with Dexron®/Mercon® fluid
- will cure torque converter shudder that is common on Ford Motor Co. transmissions
- use in 4x4 transfer cases and Allison transmissions
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-202 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-203
Synthetic Automatic Transmission Fluid Friction Modifier

Why carry several different types of transmission fluid?

No. AT-203 converts Dexron®/Mercon® fluid to a friction modified fluid such as:

- Chrysler Corp (ATF Plus®, III & IV)
- Honda (Genuine® & ATFZ1)
- Mitsubishi (Diamond® & SLF)
- Hyundai (Genuine®)
- Kia (SP3)
- Nissanmatic® (D, J, K)
- Toyota (Genuine,® TIV, & T-V)

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid with special friction modifiers when combined with Dexron®/Mercon® fluid. Replaces (7) manufacturer specific fluids
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-203 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-206 M Five Alternate

In 1997, Ford Motor Company introduced Mercon®V automatic transmission fluid for use in 1997 or later A4LD-E (4R44E) and 5R55E transmissions. Mercon®V is now also required for 1998 and later vehicles equipped with the AX4N and AX4S transaxles and AODE-W (4R70W) transmission. *Ford recently announced that Mercon®V fluid can be used in older vehicles.*

Consult owner's manual or fluid level indicator for proper fluid usage.

Use of the incorrect transmission fluid can lead to internal damage.

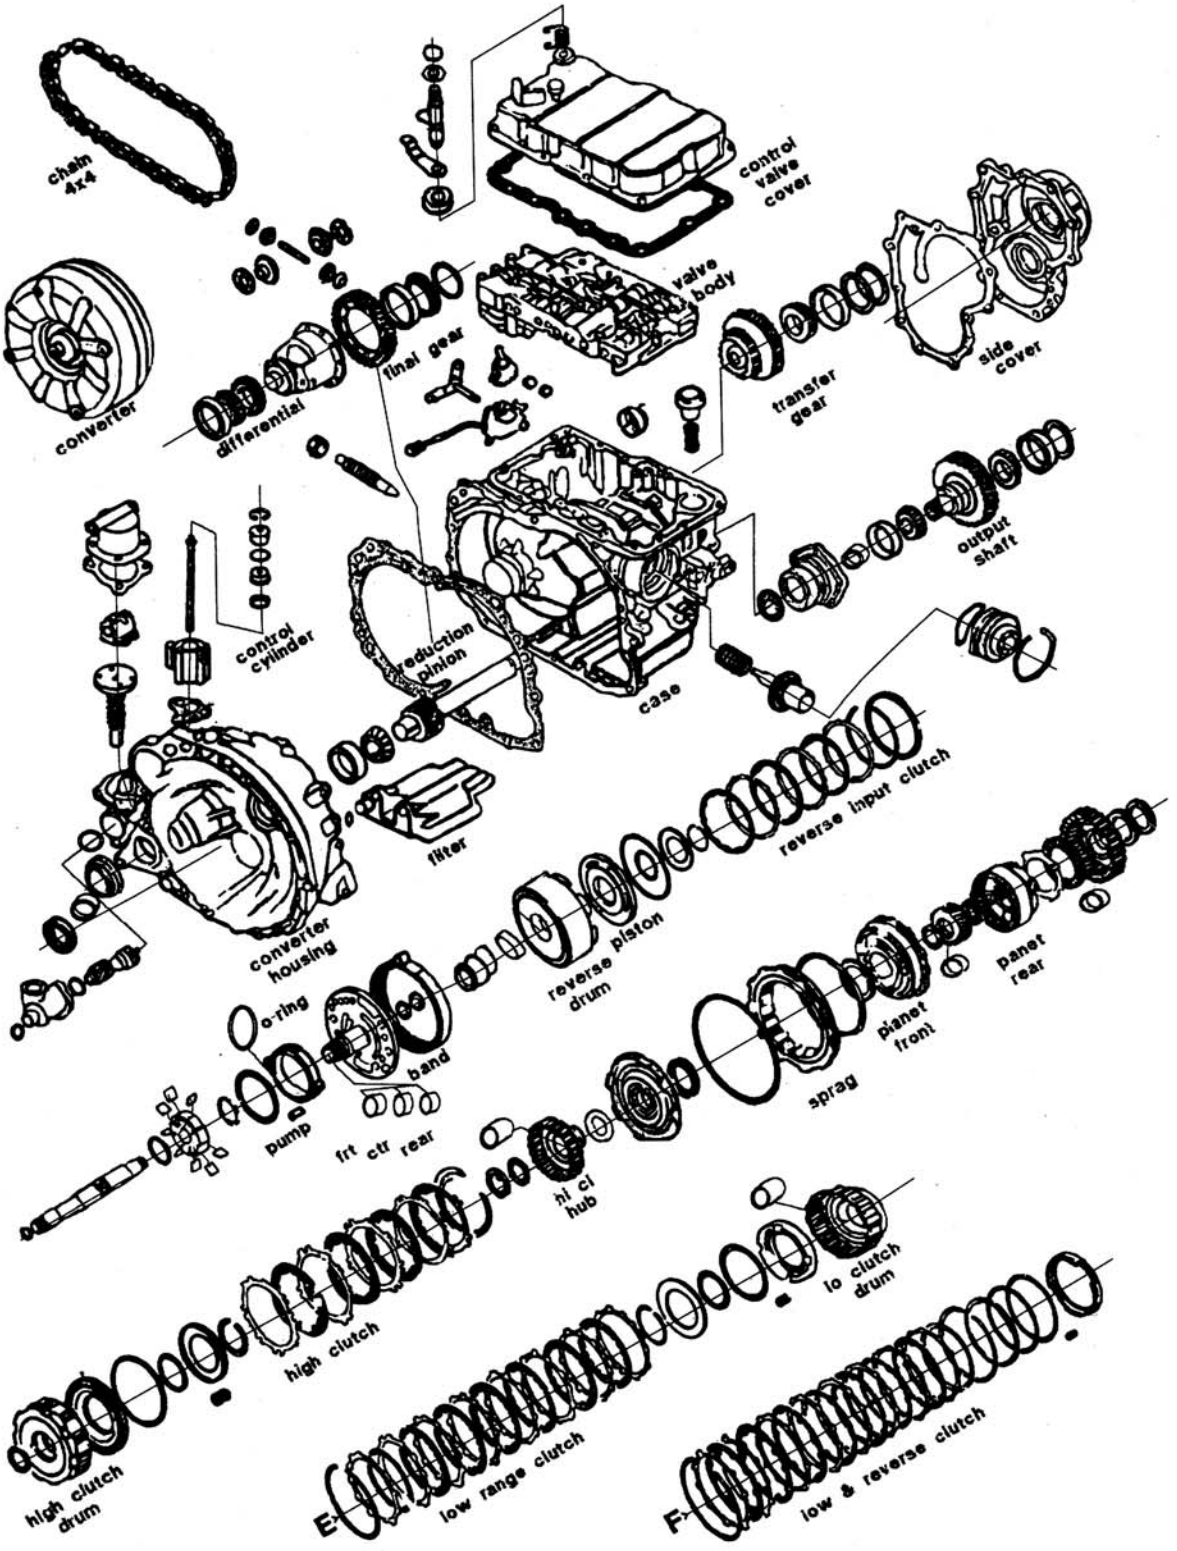

M Five Alternate allows you to use Dexron®/ Mercon® transmission fluid and convert it to a Mercon®V type fluid.

No. AT-206 is a synthetic product which extends the frictional stability and life of the Dexron®/Mercon® fluid, similar to Mercon®V.

Key Sales Points:

- creates a semi-synthetic fluid with special frictional stability properties when combined with Dexron®/Mercon® fluid which is similar to Mercon®V. Eliminates the need to stock Mercon®V.
- when used with a complete transmission flush, one full bottle should be added.
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-206 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

Chemicals by ATP-Inc.

ATP Part No. AT-205 RE-SEAL®

AT-205

- Power Steering
- Transmission
- Engine
- Differential
- Any hydraulic system (except brake) including jacks, lifts, plows, industrial equipment, etc.
- AT-205 is the one product that does it all!
- AT-205 is a special plasticizer which softens and expands hydraulic seals to stop leaks.
- AT-205 does not contain any petroleum distillates.
- AT-205 will also restore sunroof seals, wiper blades and any rubber-based item (will not work on nylonor plastics).
- AT-205 works quickly (engine main seals will require (5) hours of running time) and will not cause the seal to become gummy and eventually break down like other products.
- Installers can treat any new seals, "o" rings, etc. to ensure a quality, leak-free rebuild. New seals, etc. actually shrink as they sit in a box in inventory. Just swab on AT-205 and install!

AT-207

Recommended Application Amounts

- power steering: ½ bottle
- transmission: (1) 8 oz. bottle
- engine: (1) 8 oz. bottle
- differential: ½ bottle
- other hydraulic equipment: (1) 8 oz. bottle (per 3 gallon capacity)
- seals, "o" rings, etc.: swab on
- wiper blades: swab on, do not use wipers for 2 hours

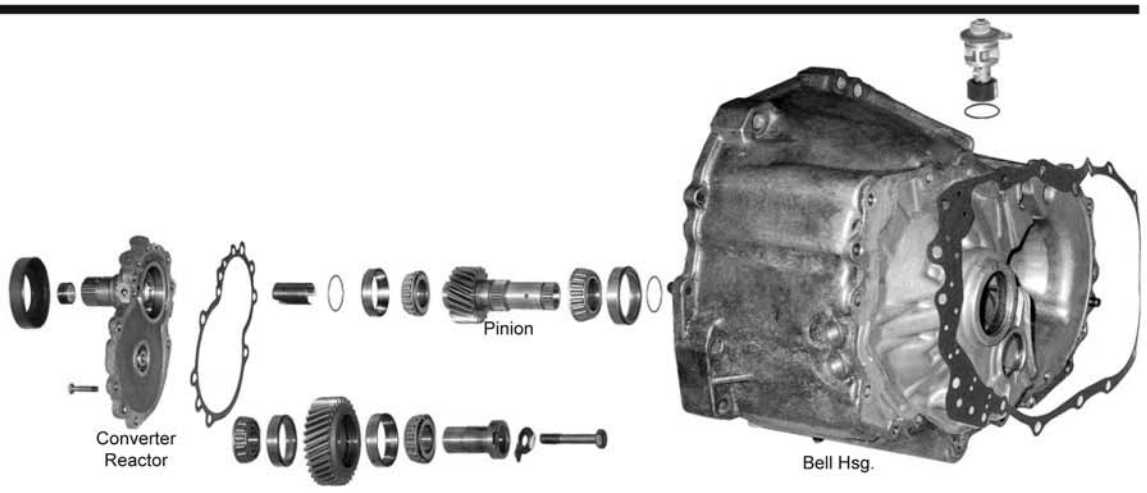

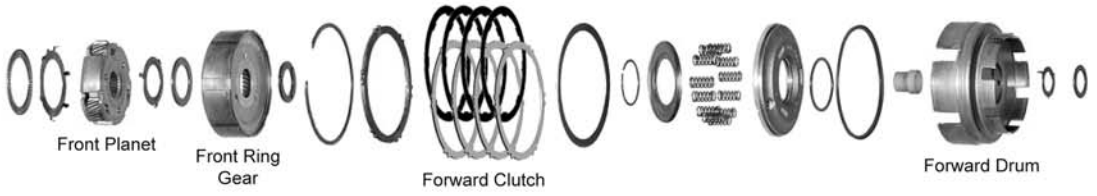

AT-212

Key Sales Points:

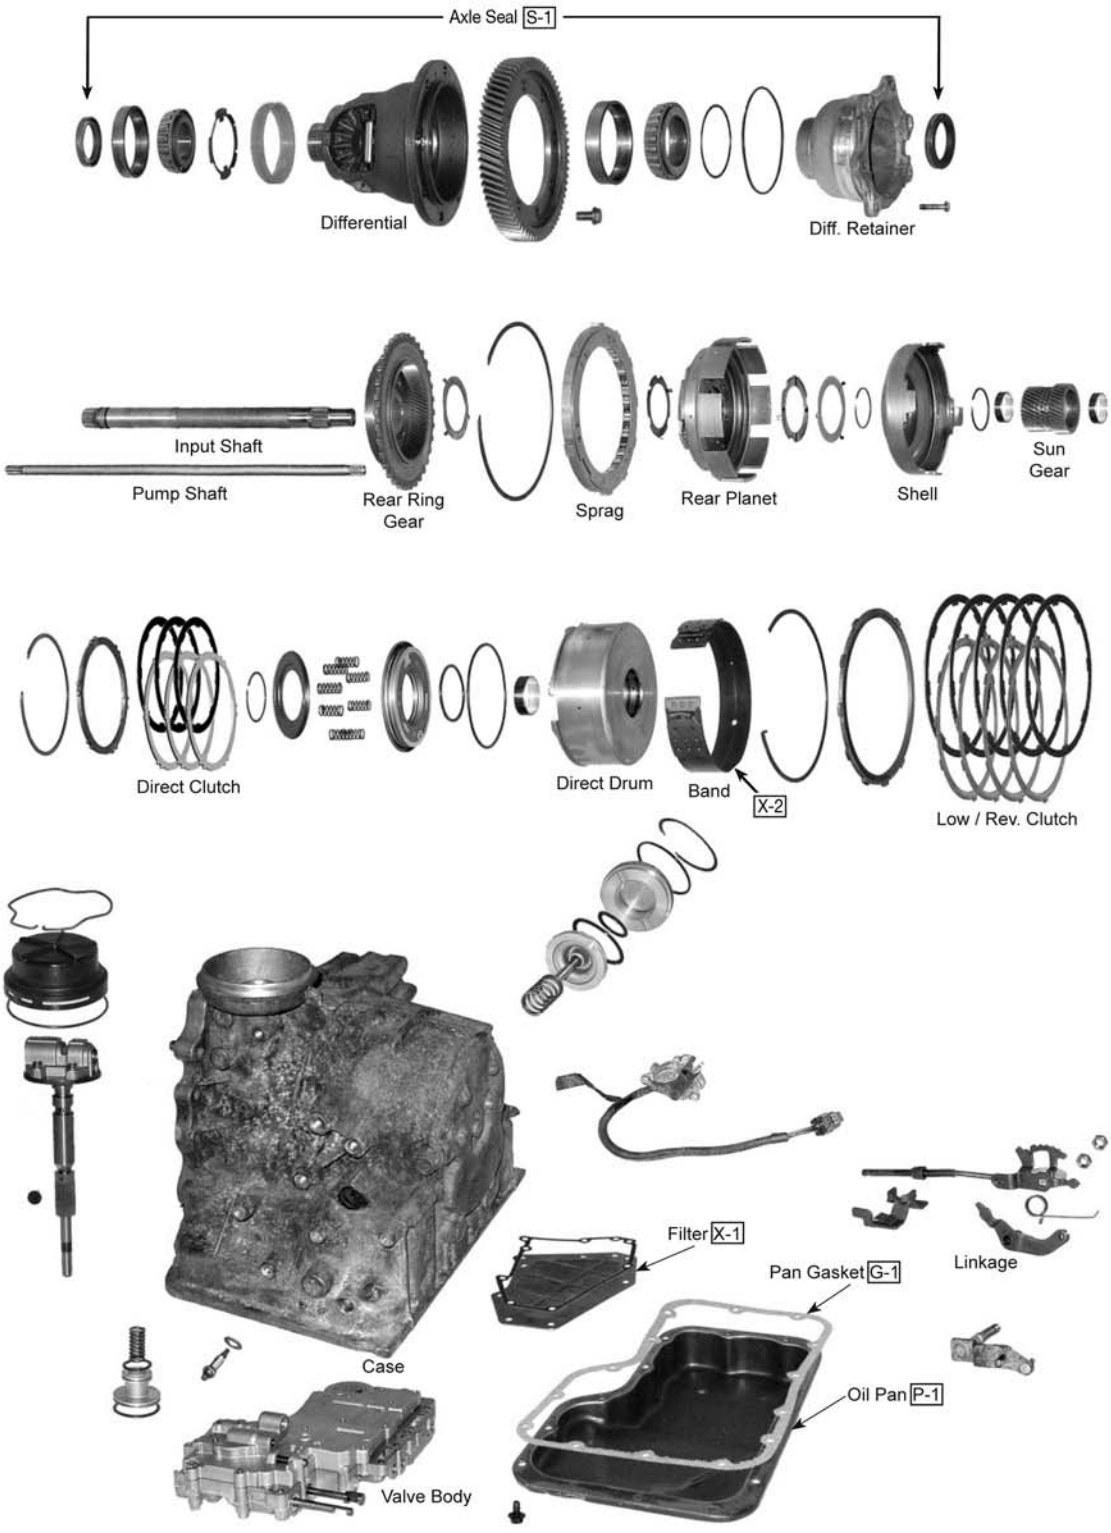

- replaces 10-12 single purpose leak stop products
- will restore any rubber-based item
- **also available: AT-207 — 5 gallon container of AT-205 RE-SEAL®**
- **also available: AT-212 — 2 oz. aerosol can of AT-205 RE-SEAL®**

atp professional auto parts®

Chemicals by ATP-Inc.

ATP Part No. AT-209
Synthetic Blend Transmission Flush & Conditioner

Are You Preparing A Transmission For New Fluid?

Safely clean all internal transmission components with ATP Transmission Flush & Conditioner!

- For automatic transmission applications
- For use with or without a flush machine
- Safely removes varnish deposits
- Contains no harsh, damaging solvents or alcohol
- Conditions seals to improve service life

Cross Sell:

- AT-202 Protectant — use when refilling the transmission with fresh fluid

ATP Part No. AT-210
Semi-Synthetic Limited Slip Differential Supplement

ATP Semi-Synthetic Limited Slip Supplement is specifically formulated to be added to gear oil in all limited slip differentials.

ATP Limited Slip Supplement provides superior protection with its unique synthetic technology.

- Eliminates chatter
- Protects clutch surfaces
- Reduces operating temperature

Key Sales Points:

- semi-synthetic formulation for all types of limited slip differentials.

What's That SMELL?

It could be the air conditioner.

ATP-Inc. Part No. AT-211 CLEAN 'N COAT® is sprayed into the evaporator case to clean the cooling coil and then coat it. This coating repels water for up to 1 year. No moisture buildup — NO SMELL! No. AT-211 is not a perfume or masking agent — it attacks the problem.

Under normal operating conditions, moisture builds up on the evaporator cooling coil. Most of this moisture drains out of the system. Some moisture can remain on the evaporator cooling coil and mix with pollutants and microscopic contaminants. Soon, everytime the air conditioner is turned on out comes that "dirty socks" odor.

If you are currently servicing interior ventilation (cabin air) filters and/or air conditioning systems, this is the perfect add-on service!

Start Up Package, No. A-502

Contains:

(2) 6 fl. oz. cans of CLEAN 'N COAT® (Part No. AT-211)

(1) 18″ x 26″ Full Color Poster

(50) Full Color Consumer Handouts with Holder

Poster alerts consumer that there is a solution to that awful smell!

Handouts explain how the odor develops and how it can be eliminated.

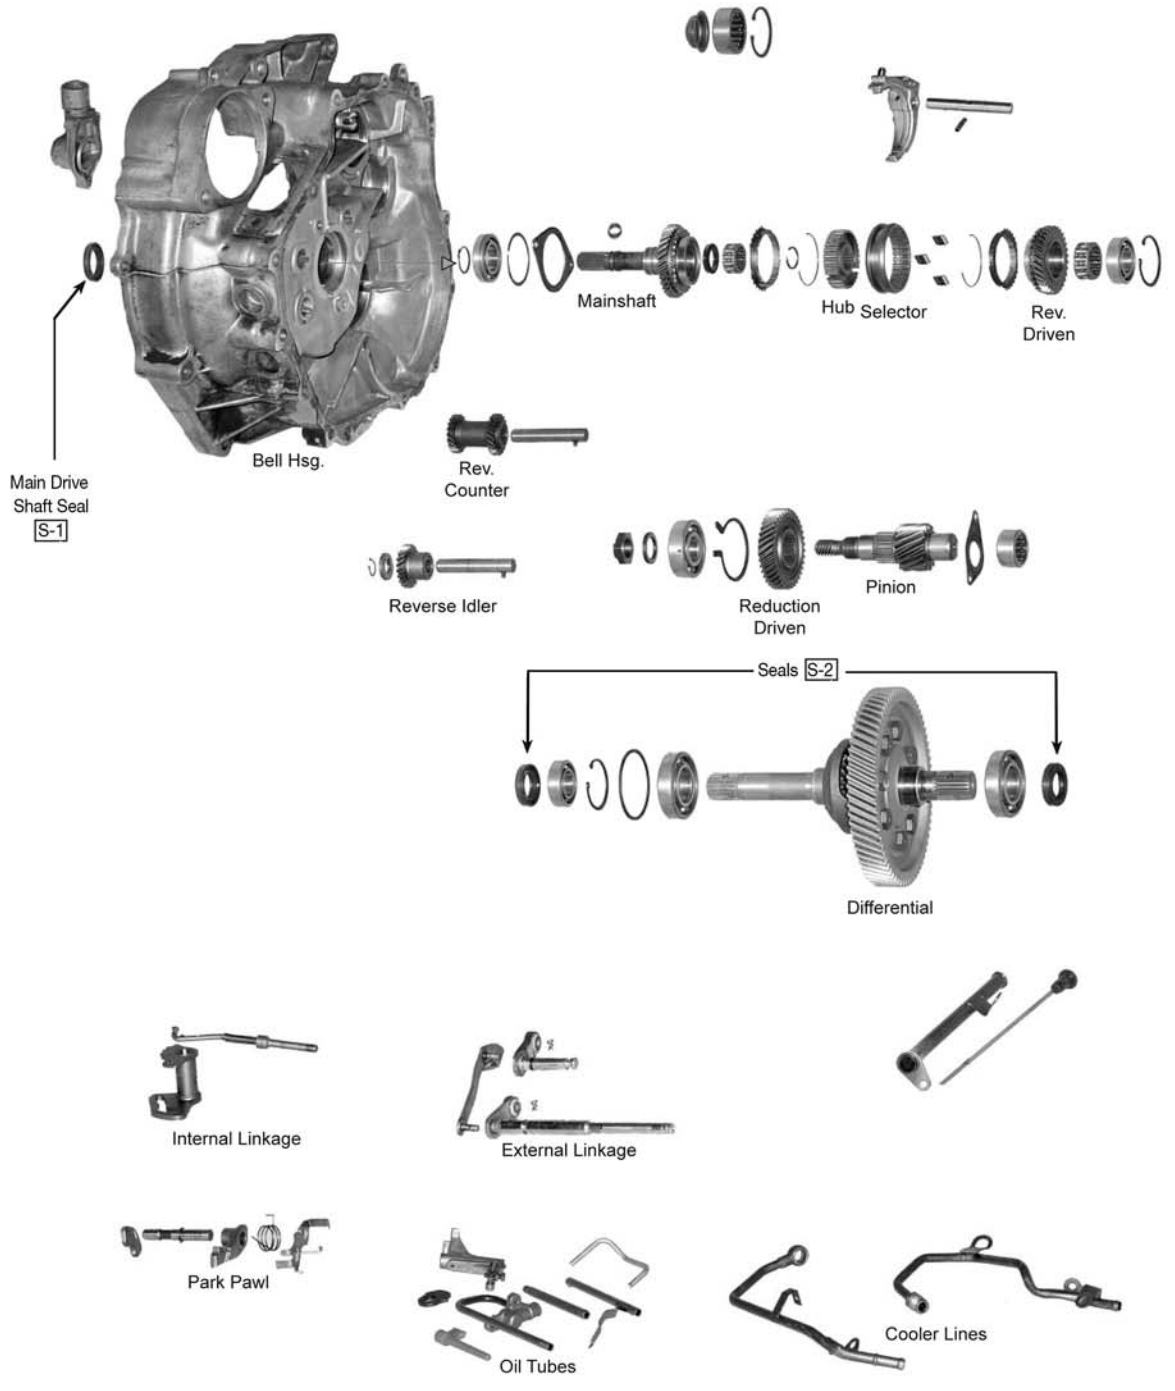

(For Additional Handouts, Order Part No. A-503)

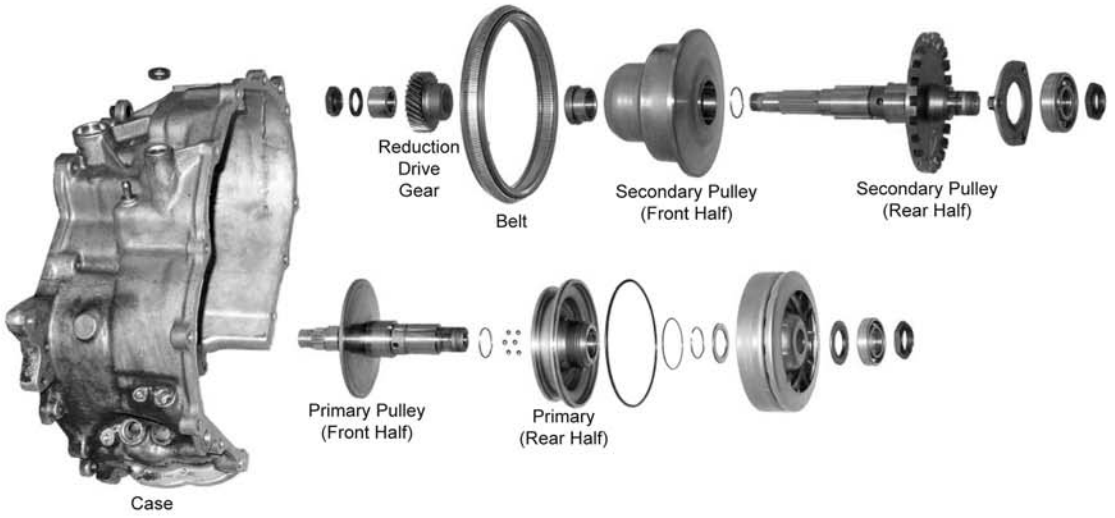

AT-211 CLEAN 'N COAT®

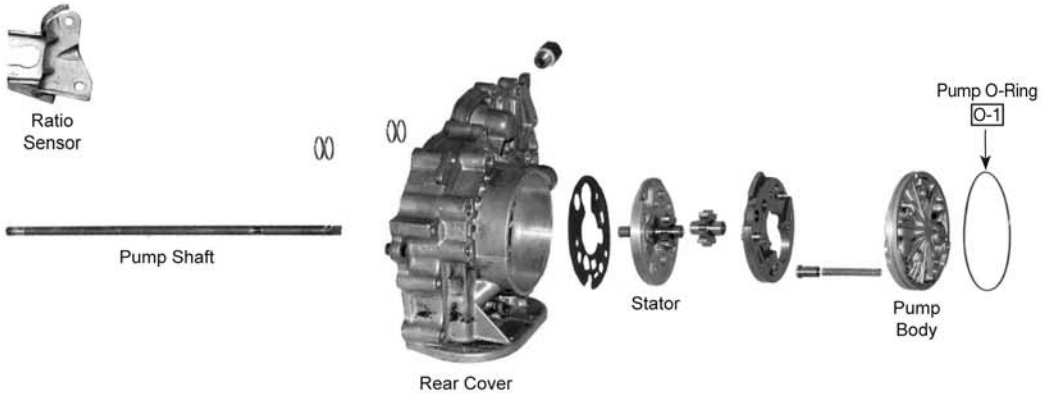

This service can be performed in 30-45 minutes.

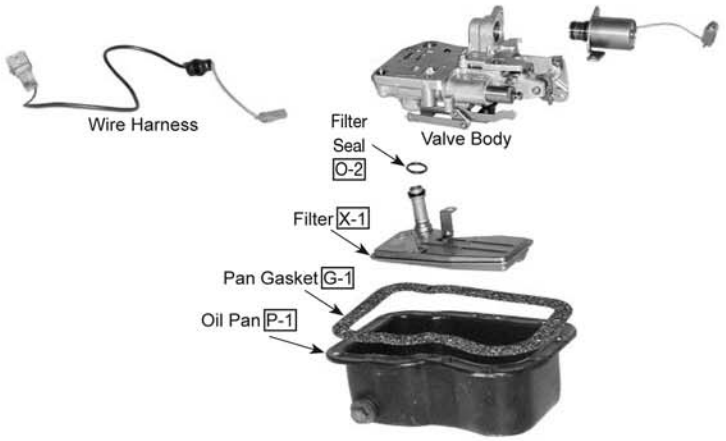

Suggested retail for product and application is $69.95. Your customers can be breathing fresher air soon!

Aluminum In-line Magnetic Filters

- **NO** Cutting Lines
- **NO** New Leak Points
- **NO** Clog Worries

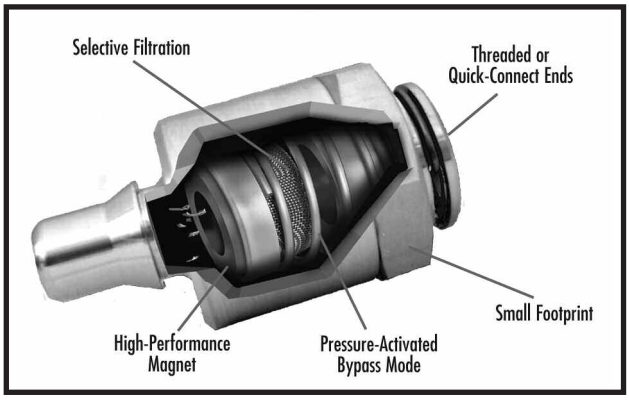

SMALL FOOTPRINT:
- Fits most applications without altering factory lines.

THREADED OR QUICK-CONNECT ENDS:
- Install in under five minutes.

PRESSURE-ACTIVATED BYPASS MODE:
- Assures lubricant flow if the filter becomes full.

HIGH-PERFORMANCE MAGNET:
- Attracts & holds harmful ferrous particles.

SELECTIVE FILTRATION:
- Traps large metal particles without reducing lubricant flow.

DESCRIPTION		PART NO.
GM	3/8″ Quick Connect	JX-156
	5/16″ Inverted Flare	JX-152
GM, Chrysler	3/8″ Flare	JX-157
Ford	5/16″ Inverted Long Flare	JX-153
	3/8″ Inverted Long Flare	JX-158
Mazda, Honda	3/8″ Barb Snap Connector	JX-154
Universal	3/8″ Double Barb*	JX-155
	5/16″ Double Barb	JX-151

*Also fits power steering return hose.

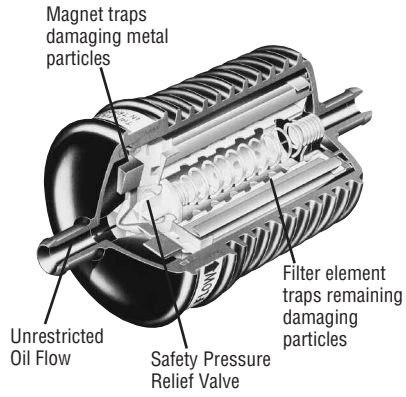

Plastic Body In-line Magnetic Filters — Part Nos. JX-150 and JX-160

PROTECT YOUR WORK!
Whether it's a complete rebuild or a minor repair, metallic debris is a transmission's and power steering system's enemy. Add an in-line magnetic filter and reduce costly customer comebacks.

ADVANTAGES OF THE ATP IN-LINE FILTERS
- Can be installed in minutes
- Have a universal fit for all 5/16" (No. JX-150) or 3/8" lines (No. JX-160)
- Comes complete with clamps, hoses and directions
- Increases repeat business

DUAL FILTRATION ACTION
- A powerful internal permanent magnet attracts 99.9974% of all loose ferrous particles
- A 25 micron paper filter element traps other non-ferrous particles

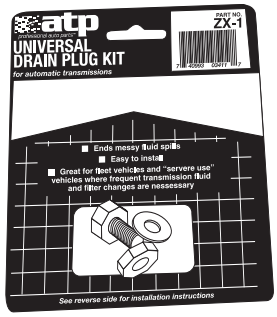

An internal pressure relief valve assures continuous full-flow in the event the filter ever becomes clogged with contaminants.

Universal Drain Plug Kit — Part No. ZX-1

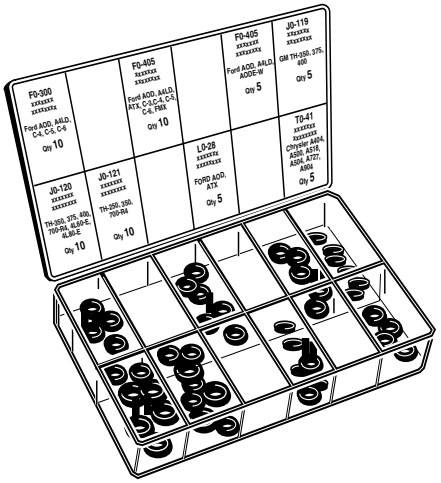

for Automatic Transmissions

- Ends messy fluid spills
- Easy to install
- Great for fleet vehicles and "severe use" vehicles where frequent transmission fluid and filter changes are necessary

A-97 Grommet Assortment

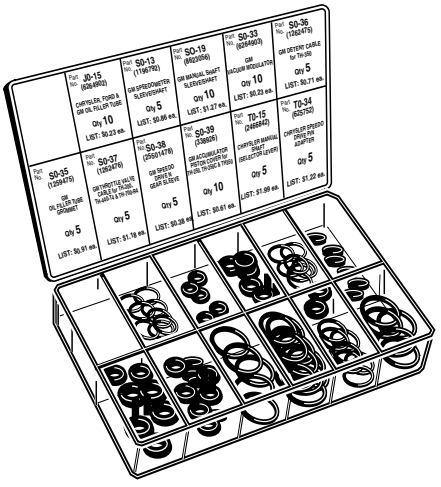

This assortment consists of the most popular grommets. These grommets (linkage bushings) are used to join shift levers to linkage or linkage to linkage. These grommets wear, crack and completely fail over time. Any time the linkage is removed during a repair or transmission R&R, the grommets should be replaced. Each part number can be re-ordered separately to replenish the assortment.

A-100 External Seal Assortment Kit For Automatic Transmissions

The A-100 is designed as an organized parts center and contains the most commonly replaced external seals on GENERAL MOTORS, FORD & CHRYSLER automatic transmissions. The seals contained in the A-100 Assortment can be re-ordered separately.

Part No.	Qty.	Description
J0-15	10	CHRYSLER, FORD & GM Oil Filler Tube Seal
S0-13	5	GM Speedometer Sleeve/Shaft Seal
S0-19	10	GM Manual Shaft Selector Seal
S0-33	10	GM Vacuum Modulator Seal
S0-35	5	GM Oil Filler Tube Grommet for Various GM Transmissions
S0-36	5	GM Detent Cable Seal for TH-350
S0-37	5	GM Throttle Valve Cable for TH-200, TH-440-T4 & TH-700-R4
S0-38	5	GM Speedo Driven Gear Sleeve
S0-39	10	GM Accumulator Piston Cover Seal for TH-250, TH-250C & TH-350
T0-15	5	CHRYSLER Manual Valve Selector Shaft Seal
T0-34	5	CHRYSLER Speedo Drive Pin Adaptor Seal

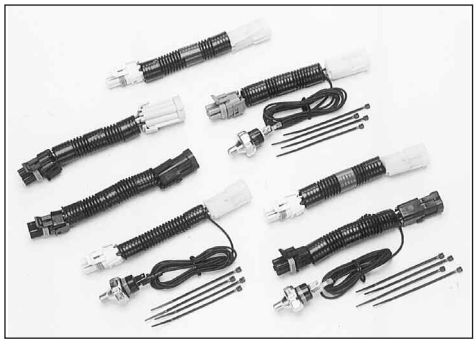

Lock-up Delay Harnesses for Automatic Transmissions

The ATP Lock-Up Delay Harness contains micro-electronic circuitry that delays the application of the torque converter clutch (TCC) until 4th gear in overdrive units or until a higher speed (about 42-44 MPH) on TH-125 transaxles. By delaying the lock-up of the torque converter, torque multiplication and vehicle performance are increased. The torque converter clutch is still applied at a higher speed for maximum fuel economy. Complete computer control is maintained and does not affect exhaust emissions (50 state legal).

Simply unplug the existing wiring connector from the transaxle or transmission and plug the ATP harness between the existing wiring harness and the transaxle or transmission. The TH-125 harness also requires the simple installation of a furnished pressure switch.

Part No.	Year	Application	
CE-5	1982-92	TH-700-R4	GM Cars & Trucks
JE-4	1985-92	TH-440-T4	GM Cars & Trucks
JE-5	1987-90	TH-440-T4	GM Cars
JE-6	1981-92	TH-440-T4 & TH-700-R4	GM Cars & Trucks
XE-1	1981-92	TH-125	GM Cars w/3 wire connector
XE-2	1981-92	TH-125	GM Cars w/2 wire connector
XE-3	1981-92	TH-125	GM Cars w/4 wire connector

See Transmission Pages for Applications.

- **Delay automatic transmission torque converter lock-up until 4th gear (or a higher speed) with an *ATP Lock-up Delay Harness.***
- **Prevents torque converter clutch from "hunting" at lower speeds.**
- **Improves acceleration.**
- **50 State Legal.**
- **No Special Tools Needed — Just Plug In!**
- **Available for GM TH-125, TH-440-T4 (4T60) and TH-700-R4 (4L60).**

A-400 Flywheel and Torque Converter Nut & Bolt Assortment

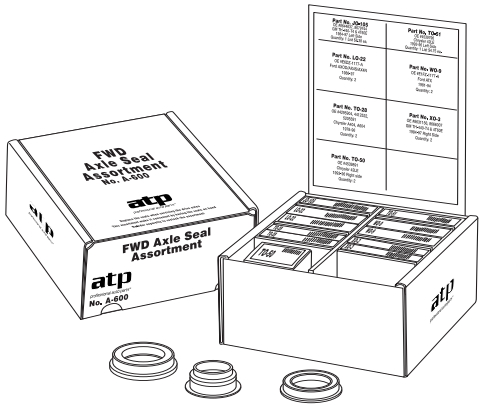

This assortment consists of 17 part numbers for a variety of Chrysler, Ford and GM vehicles with automatic and manual transmissions. Change all bolts when servicing flywheel to ensure a secure fit and proper alignment.

Part No.	Qty.	Description		
ZX-100	3	Flywheel Bolt	FORD	$^{7}/_{16}$″ – 20 x 1.0″
ZX-101	3	Flywheel Bolt	FORD	$^{7}/_{16}$″ – 20 x .6875″
ZX-102	3	Flywheel Bolt	FORD	10mm – 1.0 x 23mm
ZX-103	3	Flywheel Bolt	FORD	12mm – 1.0 x 24mm
ZX-104	3	Flywheel Bolt	FORD	10mm – 1.0 x 20mm
ZX-200	3	Flywheel Bolt	GM	10mm – 1.0 x 23mm
ZX-201	3	Flywheel Bolt	GM	10mm – 1.0 x 18.5mm
ZX-202	3	Flywheel Bolt	GM	10mm – 1.5 x 14.75mm
ZX-203	3	Flywheel Bolt	GM	$^{7}/_{16}$″ – 20 x .6875″
ZX-204	3	Flywheel Bolt	GM	$^{7}/_{16}$″ – 20 x .6250″
ZX-205	3	Converter Bolt	GM	10mm – 1.5 x 15mm
ZX-206	3	Flywheel Bolt	GM	$^{7}/_{16}$″ – 20 x .9375″
ZX-207	2	Converter Nut	FORD	$^{3}/_{8}$″ x 24″
ZX-208	2	Converter Nut	FORD	10mm x 1.0
ZX-209	3	Flywheel Bolt	FORD	10mm x 1.0 x 17mm
ZX-210	3	Flywheel Bolt	CHRYSLER	10mm x 1.5 x 17.5mm
ZX-211	3	Flywheel Bolt	CHRYSLER	$^{7}/_{16}$″ – 20 x .500″

A-600 Front Wheel Drive Axle Seal Assortment

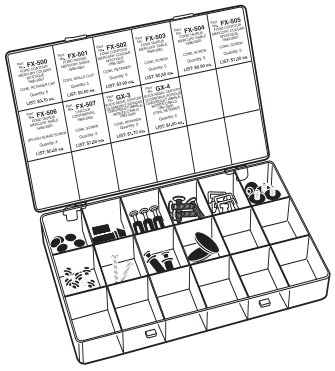

Replace the seals when servicing the drive axles. This assortment makes it convenient by having the seals on hand. Individual part numbers can be reordered separately to restock the assortment.

Part No.	Qty.	Description
JO-105	1	GM TH-440-T4 & 4T60E
LO-22	2	Ford AXOD/AX4S/AX4N
TO-28	2	Chrysler A404, A604
TO-50	1	Chrysler 42LE
TO-51	1	Chrysler 42LE
WO-9	2	Ford ATX
XO-3	2	GM TH125, TH-440-T4 & 4T60E

No. A-700 Interior Ventilation Filter Convenience Assortment

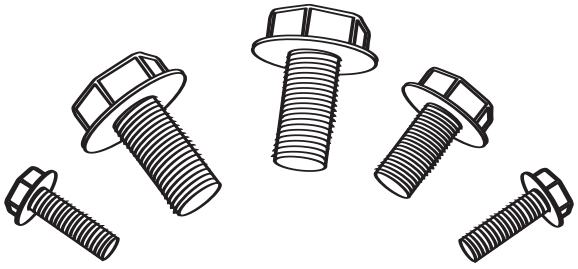

This assortment consists of 10 part numbers for popular Ford and General Motors vehicles equipped with an interior vent filter. During filter replacement, these items can be damaged or lost. The No. A-700 is a convenient source for these hard to find parts. The component parts of the assortment can be ordered separately.

Part No.	Qty	Description	Application
FX-500	5	Cowl Retainer Cap	Ford Contour, Mercury Cougar, Mercury Mystique
FX-501	6	Cowl Grille Clip	Ford Taurus, Mercury Sable
FX-502	5	Cowl Retainer	Ford Contour, Mercury Cougar, Mercury Mystique
FX-503	6	Cowl Screw	Ford Taurus, Mercury Sable
FX-504	6	Cowl Retainer	Ford Taurus, Mercury Sable
FX-505	5	Cowl Screw	Ford Contour, Mercury Cougar, Mercury Mystique
FX-506	4	Splash Guard Screw	Ford Taurus, Mercury Sable
FX-507	2	Cowl Screw	Lincoln Continental
FX-508 Available Separately	*	Cowl Retainer	Lincoln LS, Ford Thunderbird
GX-3	3	Cowl Retainer	Buick Regal/Century, LaCrosse/Allure, Chevrolet Impala, Monte Carlo, Oldsmobile Intrigue, Pontiac Grand Prix
GX-4	2	Cowl Retainer	Buick Regal/Century, LaCrosse/Allure, Chevrolet Impala, Monte Carlo, Oldsmobile Intrigue, Pontiac Grand Prix
GX-5 Available Separately	*	Cowl Retainer	Saturn VUE

* Not included in A-700 Assortment.

Transmission Pan Bolts

Part No.	Description	
ZX-212	Chrysler/Ford/GM	¼″ x ½″
ZX-213	Chrysler/Ford/GM	5/16″ x 5/8″
ZX-214	Imports	6 mm x 1.0
ZX-215	Imports	8 mm x 1.25

- **Replace broken, stripped or missing pan bolts**
- **Four numbers cover the majority of domestic and import applications**
- **Packaged 8 per box**
- **Can also be used for oil pans**

Chemicals by ATP-Inc.

ATP Part No. AT-202
Synthetic Automatic Transmission Fluid Protectant

For all Transmission Fluids including Dexron® VI.

Protects Transmission:

- **Prevents torque converter shudder** and clutch pack chatter
- Prevents overheating
- Reduces wear
- Ensures proper shifts

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid when combined with Dexron®/Mercon® fluid
- will cure torque converter shudder that is common on Ford Motor Co. transmissions
- use in 4x4 transfer cases and Allison transmissions
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-202 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-203
Synthetic Automatic Transmission Fluid Friction Modifier

Why carry several different types of transmission fluid?

No. AT-203 converts Dexron®/Mercon® fluid to a friction modified fluid such as:

- Chrysler Corp (ATF Plus®, III & IV)
- Honda (Genuine® & ATFZ1)
- Mitsubishi (Diamond® & SLF)
- Hyundai (Genuine®)
- Kia (SP3)
- Nissanmatic® (D, J, K)
- Toyota (Genuine,® TIV, & T-V)

1 — 10 oz. bottle per transmission (normal application)

Key Sales Points:

- creates a semi-synthetic fluid with special friction modifiers when combined with Dexron®/Mercon® fluid. Replaces (7) manufacturer specific fluids
- when used with a complete transmission flush, one full bottle should be added
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-203 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

ATP Part No. AT-206 M Five Alternate

In 1997, Ford Motor Company introduced Mercon®V automatic transmission fluid for use in 1997 or later A4LD-E (4R44E) and 5R55E transmissions. Mercon®V is now also required for 1998 and later vehicles equipped with the AX4N and AX4S transaxles and AODE-W (4R70W) transmission. *Ford recently announced that Mercon®V fluid can be used in older vehicles.*

Consult owner's manual or fluid level indicator for proper fluid usage.

Use of the incorrect transmission fluid can lead to internal damage.

M Five Alternate allows you to use Dexron®/ Mercon® transmission fluid and convert it to a Mercon®V type fluid.

No. AT-206 is a synthetic product which extends the frictional stability and life of the Dexron®/Mercon® fluid, similar to Mercon®V.

Key Sales Points:

- creates a semi-synthetic fluid with special frictional stability properties when combined with Dexron®/Mercon® fluid which is similar to Mercon®V. Eliminates the need to stock Mercon®V.
- when used with a complete transmission flush, one full bottle should be added.
- when used after a pan drop, filter and fluid change can add 1 oz. of AT-206 for every quart of fresh fluid. However, the old fluid in the torque converter, upper transmission, cooler and lines should have its depleted additives restored. One full bottle will treat the new and old fluid.

Chemicals by ATP-Inc.

ATP Part No. AT-209
Synthetic Blend Transmission Flush & Conditioner

Are You Preparing A Transmission For New Fluid?

Safely clean all internal transmission components with ATP Transmission Flush & Conditioner!

- For automatic transmission applications
- For use with or without a flush machine
- Safely removes varnish deposits
- Contains no harsh, damaging solvents or alcohol
- Conditions seals to improve service life

Cross Sell:

- AT-202 Protectant — use when refilling the transmission with fresh fluid

ATP Part No. AT-210
Semi-Synthetic Limited Slip Differential Supplement

ATP Semi-Synthetic Limited Slip Supplement is specifically formulated to be added to gear oil in all limited slip differentials.

ATP Limited Slip Supplement provides superior protection with its unique synthetic technology.

- Eliminates chatter
- Protects clutch surfaces
- Reduces operating temperature

Key Sales Points:

- semi-synthetic formulation for all types of limited slip differentials.

What's That SMELL?

It could be the air conditioner.

ATP-Inc. Part No. AT-211 CLEAN 'N COAT® is sprayed into the evaporator case to clean the cooling coil and then coat it. This coating repels water for up to 1 year. No moisture buildup — NO SMELL! No. AT-211 is not a perfume or masking agent — it attacks the problem.

Under normal operating conditions, moisture builds up on the evaporator cooling coil. Most of this moisture drains out of the system. Some moisture can remain on the evaporator cooling coil and mix with pollutants and microscopic contaminants. Soon, everytime the air conditioner is turned on out comes that "dirty socks" odor.

If you are currently servicing interior ventilation (cabin air) filters and/or air conditioning systems, this is the perfect add-on service!

Start Up Package, No. A-502

Contains:

(2) 6 fl. oz. cans of CLEAN 'N COAT® (Part No. AT-211)

(1) 18˝ x 26˝ Full Color Poster

(50) Full Color Consumer Handouts with Holder

Poster alerts consumer that there is a solution to that awful smell!

Handouts explain how the odor develops and how it can be eliminated.

(For Additional Handouts, Order Part No. A-503)

AT-211 CLEAN 'N COAT®

This service can be performed in 30-45 minutes.

Suggested retail for product and application is $69.95. Your customers can be breathing fresher air soon!

Chemicals by ATP-Inc.

ATP Part No. AT-205 RE-SEAL®

AT-205

- Power Steering
- Transmission
- Engine
- Differential
- Any hydraulic system (except brake) including jacks, lifts, plows, industrial equipment, etc.
- AT-205 is the one product that does it all!
- AT-205 is a special plasticizer which softens and expands hydraulic seals to stop leaks.
- AT-205 does not contain any petroleum distillates.
- AT-205 will also restore sunroof seals, wiper blades and any rubber-based item (will not work on nylonor plastics).
- AT-205 works quickly (engine main seals will require (5) hours of running time) and will not cause the seal to become gummy and eventually break down like other products.
- Installers can treat any new seals, "o" rings, etc. to ensure a quality, leak-free rebuild. New seals, etc. actually shrink as they sit in a box in inventory. Just swab on AT-205 and install!

AT-207

Recommended Application Amounts

- power steering: ⅓ bottle
- transmission: (1) 8 oz. bottle
- engine: (1) 8 oz. bottle
- differential: ⅓ bottle
- other hydraulic equipment: (1) 8 oz. bottle (per 3 gallon capacity)
- seals, "o" rings, etc.: swab on
- wiper blades: swab on, do not use wipers for 2 hours

AT-212

Key Sales Points:

- replaces 10-12 single purpose leak stop products
- will restore any rubber-based item
- **also available: AT-207 — 5 gallon container of AT-205 RE-SEAL®**
- **also available: AT-212 — 2 oz. aerosol can of AT-205 RE-SEAL®**

Chemicals by ATP-Inc.

ATP Part No. AT-200 Cooler Flush Kit

18 oz. can complete with 5/16" fitting & hose. 12 per case. 3/8" fitting available separately, part no. AX-1. Banjo fitting available separately, part no. AX-2.
The only way to effectively clean the automatic transmission cooler and lines.
Each can provides 2-3 complete flushes. Flush product is completely biodegradable (dispose of used transmission fluid properly.) Contains no CFCs.
Eliminates contamination when:

- Installing a rebuilt transmission
- Installing a used radiator
- A large amount of "sludge" is found in the transmission pan

Don't forget to install an ATP in-line magnetic filter to prevent future contamination.

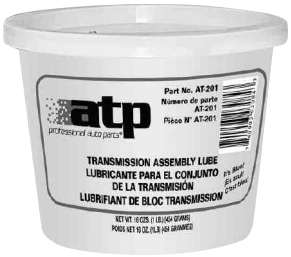

Key Sales Points:

- high pressure effectively aids in cleaning
- can be sold in California — environmentally safe

Cross Sell:

- in-line magnetic filters

ATP Part No. AT-201 ATP Transmission Assembly Lube

It's Blue!

Specially formulated for use as an assembly lubricant for "O" rings, gaskets, bearings, bushings, sealing rings, thrust washers, seals, etc.
After assembly and once the transmission is up to operating temperature, any misplaced lube will melt and drip off the transmission. The blue color prevents the installer from misdiagnosing a leak. ***This lube can be used anywhere on the vehicle where a petroleum-based lubricant is needed or parts need to be held together for reassembly.***

Key Sales Points:

- can be used anywhere on the vehicle (except high pressure applications — differential gears)

ATP Part No. AT-213 Synthetic Blend Power Steering Fluid Protectant

- Eliminates Whines and Noise in Power Steering Systems
- Converts Regular Power Steering Fluid into a Universal Fluid to be used in vehicles such as: GM, Chrysler, Ford, Honda, Toyota and More...

For use with ALL Power Steering Fluids

Benefits:

- Saves Time and Money
- Lubricates and Protects Racks and Pumps
- Eliminates Stiffness
- Extends System Life

AT-213 contains 4 fluid ounces and is packed 12 per case.

NEW! Inventory Solutions With Quality ATP Chemicals

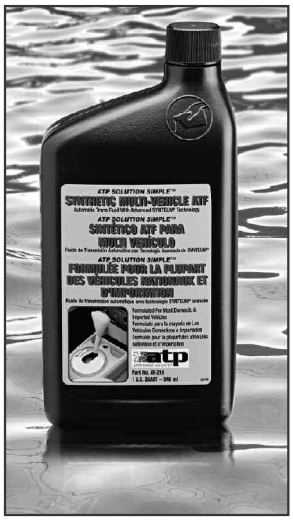

ATP Part No.: AT-214 • 64 Fl. Oz.
Multi-Vehicle Power Steering Fluid

Synthetic Power Steering Fluid Formulated For *ALL* Power Steering Systems Including Those Using CHF Pentosin Fluid *(European Vehicles)*

- Prevents Corrosion, Wear And Oxidation
- Outstanding Temperature Performance
- Excellent Shear Stability
- Superior Performance
- Professional Size For Full Flush And Fill Service

ATP Part No.: AT-216 • 1 Quart
ATP Solution Simple™ Synthetic Multi-vehicle Automatic Transmission Fluid

- Premium Fluid For Virtually *ALL* Automatic Transmissions
- Formulated For Use In Domestic And Import Vehicles
- Provides Exceptional Stability In Extreme Low And High Temperature Operation
- Reduces Wear And Deposits Under Normal And Severe Duty Conditions
- Backward Compatible With Older ATFs — **NOT** For Use In CVT Or Type F Applications

See NEXT PAGE For Applications

ATP Part No.: AT-215 • 1 Quart
CVT (Continuously Variable Transmission) Fluid

- Use In *ALL* CVT Applications
- Excellent Metal To Metal Friction Performance
- Excellent Low Temperature Fluidity

ATP Part No.: AT-217 • 10 Fl. Oz.
Titanium™ Synthetic ATF Protectant

- Protectant For *ALL* ATF Types (Except CVT, Mercon SP® And Type F)
- Can Be Used To Enhance Dex/Merc ATF To Perform Like Chrysler ATF+3®, ATF+4®, Toyota Type T IV, Honda And Other Highly Friction Modified Fluids
- Enhances Dex/Merc ATF Into A Highly Stable Fluid Such As Mercon V®, Dexron VI®
- Enhances SYNTHETIC ATF To Perform Like Audi, BMW, Jaguar, Land Rover, Lexus, Mercedes Benz, Porsche And Volkswagen ATFs

Inventory Solutions With Quality ATP Chemicals

ATP MULTI-SERVICE FLUSH & CONDITIONER

Part No.: AT-218 • 16 Fluid Ounces

For Engine, Transmission & Power Steering Systems

EASY TO USE PRE-MEASURED BOTTLE

- Safely Removes Sludge, Varnish And Contaminants — Contains NO Harsh, Damaging Solvents Or Alcohol
- Prepares Seals And System For New Lubricants
- Pre-Measure Bottle Allows The Correct Amount To Be Measured And Dispensed
- Use With Or Without Fluid Exchange Machines

You Only Need One Product (Part No. AT-218)
For ALL Your Flushing Needs!

The Value Is In The Brand!

NEW! Aluminum In-line Magnetic Transmission Filters

PROTECT YOUR WORK!

Whether it's a complete rebuild or a minor repair, metallic debris is a transmission's (and power steering system's) enemy. Add an in-line magnetic filter and reduce costly customer comebacks.

- NO Cutting Lines
- NO New Leak Points
- NO Clog Worries

SMALL FOOTPRINT:

- Fits most applications without altering factory lines.

THREADED OR QUICK-CONNECT ENDS:

- Install in under five minutes.

PRESSURE-ACTIVATED BYPASS MODE:

- Assures lubricant flow if the filter becomes full.

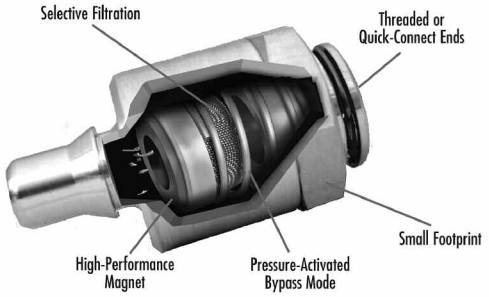

HIGH-PERFORMANCE MAGNET:

- Attracts and holds harmful ferrous particles.

SELECTIVE FILTRATION:

- Traps large metal particles without reducing lubricant flow.

B-165	1	GM 4L60-E — 1998-10 RWD cars and trucks
B-175	1	Chrysler A500, A518, 42RE, 44RE, 46RE, 47RE, 48RE, 68RE — 1998-09 RWD trucks

Included FREE of CHARGE:

— (2) Full Color Posters
  – Bronze/Silver: Pan Drop Service
  – Bronze/Silver/Gold: Flush Machine Service
— A-204 (25) Service Reminder Stickers
— (50) Consumer Brochures* and Dispenser
— Every purchaser is signed up for the TECHDirect® Service, direct emails of technical and product information from ATP
— (1) AT-209 Transmission Flush & Conditioner
— (1) Laminated 8½˝ x 11˝ Version of the Automatic Transmission Service Posters (two-sided)
— A full-color bay banner (English or Spanish) is available. Simply check off your choice and return the A-109 reply card.

*Refills available as part no. A-203 – 50 per package

The Dealer Marketing Kit A-109 Contains:

If you perform "pan drop" service, offer a "Bronze" and "Silver" service. Use AT-209 Flush & Conditioner in the "Silver" service.

If you use a Flush Machine, offer a "Bronze", "Silver" or "Gold" service. Use AT-209 Flush & Conditioner in the "Silver" service. Include a new transmission filter and gasket in the "Gold" service.

FREE!

The ATP Transmission Maintenance Merchandising Program

ATP is much more than just transmission parts for imports and domestics. We're a full-service company dedicated to helping you in every way possible. With this merchandising program you have just the beginning of the ATP full-service story.

This program is designed to build awareness with everyone who walks through your front door. The fact is, anyone who can change oil can maintain an automatic transmission. Every technician is a potential customer and DIYers are servicing their own transmissions as well.

1

Bay Banner, No. A-206

Full color 2' x 6' all weather banner with metal grommets and 5' sewn-in ropes. The graphic encourages the consumer to have their transmission checked today.

Spanish Version — Part No. A-212

2

Consumer Hand-outs, No. A-203

Informative consumer literature explains why the transmission filter and fluid should be changed every 12,000 miles–boosting service frequency and profits. Display on counter, waiting room, use as a mailer or attach to service invoice. (50) 3 ½" x 6 ¾" hand-outs per package. Imprint area on hand-outs for your message and address.

3

Dipstick Service Stickers, No. A-204

Record Date, Miles, Filter No., Fluid Type of next transmission filter and fluid service and place sticker in the most logical place – the transmission dipstick tube! 1" x 6" sticker is printed on special polyester material to live in the underhood environment. 25 stickers per package.

4

Ventilation Filter Consumer Handouts, No. A-208

Handouts explain the function of the filter and why it should be replaced. (50) 3 ½″ x 6 ¾″ hand-outs per package.

5

Ventilation Filter Reminder Stickers, No. A-209 (Pack of 25)

Indicates when filter should be serviced next and which ATP filter to use.

TO-72	N-W	Oil Pump Seal	1999-2006 Chrysler 45RFE, 5-45RFE
TO-73	N-D	Extension Housing Seal	1999-2006 Chrysler 2WD 45RFE, 5-45RFE, 42RLE
TO-74	N-W	Filler Tube O-ring	1998-2004 Chrysler A606

Hard Parts Don't Have to be HARD TO FIND!

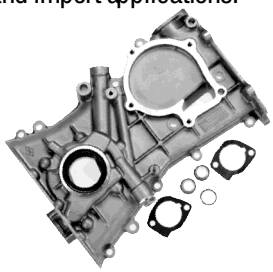

Harmonic Balancers

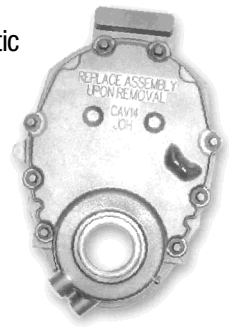

- Coverage for all popular domestic and import applications.
- Balancers include woodruff keys and mounting bolts (where necessary).

Timing Covers

- Coverage for all popular domestic and import applications.

Exhaust Manifold Kits

- Coverage for all popular domestic and import applications.
- Manifolds include hardware kits (studs, nuts, etc.), gaskets and heat shields or hot air stoves as needed.

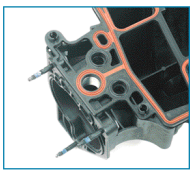

Heat Risers

- Coverage for popular domestic applications from 1957 through 1990
- Emissions device — Heats intake manifold on cold start up by redirecting exhaust gas into passage in intake manifold

Intake Manifold (Upper Plenum)

1995-2005 General Motors Vehicles with 3.8L Engine

- Beefed up internal and external ribs within the plenum to prevent coolant leaks and failures due to backfires.
- Heat stabilized nylon material throughout.
- ***Improved*** carrier and throttle body gaskets to prevent coolant leaks.
- Unique EGR Tube Sleeve prevents over heating of plenum caused by hot exhaust gases.

Engine Oil and Transmission Pans

- Coverage for popular domestic and import applications
